The Path Of Love:

The Path of Love , **The Path of Love** Becca Stevens,2010-10-01 It s easy to get lost in the busyness of every day But taking a walk and discovering God s presence along the way will bring you back to where you need to be The Walking Bible Study a series of short readings and meditations is your field guide to learning more about Scripture as you travel through nature and life Wherever you walk take it along with you and follow the paths of God Walking changes us it can transport our spirits from being weighed down by life into the joy of God s presence Becca Stevens Each study consists of four sessions Sessions include prayer Scripture Becca s thoughts and stories questions to think about or discuss and activities The Path of Love The world was created when God took the two chaotic elements of the universe that do not allow life the deep and the darkness and encompassed them into a loving creation that is called Good The story of Love is rooted in creation and is so powerful that in its culminating act it rolls the stone away at the break of Easter morning **The Path of Love** Ronald D. Cowen,2015-02-05 The Buddha was a scientist Instead of using a microscope or a particle accelerator the Buddha used ESP He had several psychic powers that allowed him to perceive in detail the psychology of karma the evolution of consciousness and subatomic particles He discovered love and self love to be organizing principles that evolved early in the history of intelligent consciousness especially with regard to feelings and emotions Every person has the deepest need to love and be loved He solved the mind body problem by perceiving the physical basis of intelligent consciousness These psychic powers are acknowledged in Hindu and Buddhist scriptures but extremely few people have them This book is essentially a meditation report written by someone who has them While this sounds like an invitation to return this book to the shelf in a bookstore it also documents in depth another report by a physicist Stephen Phillips who relates in comprehensive detail the relationship between modern superstring theory and extrasensory observation of the elements of the periodic table by Annie Besant and Charles Leadbeater of the Theosophical Society This strong connection between modern physics and psychic powers of the Buddha is a real challenge to both the modern scientist and the modern Buddhist **The Path of Love** Tomiwa Olasimbo,2024-04-30 The Path of Love takes us on a journey of discovery into the foremost attribute and nature of God Love it explores what happens to us when we are born into God s family and experience God s unconditional love and how we can be a conduit of that same love This book presents a very pragmatic approach to the practice of genuine love within the body of Christ and its wider impact in our world The Path of Love Osho,2014-06-10 Kabir is a 15th century Indian mystic Born a lower caste weaver Kabir opposed superstition empty ritualism and bigotry His teachings include scathing attacks against Brahmanical pride caste prejudice and the very concept of untouchability as well as exposing the dogmatism and bigotry he perceived around him Unusually even for his time he was embraced by disciples who had been raised in both Hindu and Muslim traditions who saw in him the embodiment of a life affirmative approach that transcended the narrow dogmas that divide people and set them against one another A poet weaver husband and father Kabir lived his life as a buddha and yet as

an ordinary man His poetic songs tell of the ecstasy and the pitfalls on a seeker's journey on the path of love In this book Osho introduces the reader to this extraordinary mystic and his songs bringing both to light in such a way as to show how they are both timeless and utterly relevant to our time The path of love as described by Osho and though the songs of Kabir is a journey that seeks out and celebrates the divine that is hidden in the ordinary the love that becomes not just a feeling one has but ultimately a state of being that one is Each song of the bird and each cloud floating in the sky is something like a message a coded message You have to decode it you have to look deep into it you have to be silent and listen to the message
