The Pentagon's New Map Thomas P.M. Barnett, 2005-05-03 Since the end of the Cold War America's national security establishment has been searching for a new operating theory to explain how this seemingly chaotic world actually works Gone is the clash of blocs but replaced by what Thomas Barnett has the answers A senior military analyst with the U S Naval War College he has given a constant stream of briefings over the past few years and particularly since 9 11 to the highest of high level civilian and military policymakers and now he gives it to you The Pentagon's New Map is a cutting edge approach to globalization that combines security economic political and cultural factors to do no less than predict and explain the nature of war and peace in the twenty first century Building on the works of Friedman Huntington and Fukuyama and then taking a leap beyond Barnett crystallizes recent American military history and strategy sets the parameters for where our forces will likely be headed in the future outlines the unique role that America can and will play in establishing international stability and provides much needed hope at a crucial yet uncertain time in world history For anyone seeking to understand the Iraqs Afghanistans and Liberias of the present and future the intimate new links between foreign policy and national security and the operational realities of the world as it exists today The Pentagon's New Map is a template a Rosetta stone Agree with it disagree with it argue with it there is no book more essential for 2004 and beyond
