The People's Reformation Lorna Jane Abray, 1985-01-01 **The German People and the Reformation** R. Po-chia Hsia, 1988 In the past scholars tended to treat the Reformation as a chapter in the history of ideas emphasizing the thought of the major reformers and the changes in Christian doctrine Today however more and more historians are asking how the revolution in theology affected the lives of ordinary men and women Aware that religious faith is part of the larger cultural and material universe of early modern Europeans these scholars have exploited hitherto neglected sources in an attempt to reconstruct the people s Reformation The twelve essays commissioned for this collection represent the broad spectrum of recent scholarship in the social history of the German Reformation Historians from various countries offer a panorama of different methodological approaches and thematic concerns Some of the essays represent original research others address current historiographical debates still others offer concise syntheses of recently published monographs including seminal works in German The essays are centered around four themes cities and the Reformation the transmitting of the Reformation in print ritual and song women and the family and lastly the impact of the Reformation on education and other aspects of lay culture Back cover **Christianity and Sexuality in the Early Modern World** Merry Wiesner-Hanks, 2005-06-20

The Imaginative World of the Reformation Peter Matheson, 2000 Views the Reformation as it appeared in pamphlets and sermons woodcuts and paintings poetry and song correspondence and contours of daily life *A Beautiful Ending* John Jeffries Martin, 2022-01-01 An award winning historian s revisionary account of the early modern world showing how apocalyptic ideas stimulated political religious and intellectual transformations A masterful synthesis of the prognostications of faith knowledge and politics on a global stage Martin s book illuminates one of the enduring themes that shaped the medieval and early modern world Paula E Findlen Stanford University In this revelatory immersion into the apocalyptic

messianic and millenarian ideas and movements that created the modern world John Jeffries Martin performs a kind of empathic time travel entering into the psyche spirituality and temporalities of a cast of historical actors in profound moments of discovery He argues that religious faith Christian Jewish and Muslim did not oppose but rather fostered the making of a modern scientific spirit buoyed along by a providential view of history and nature and a deep conviction in the coming End of the World Through thoughtful attention to the primary sources Martin re reads the Renaissance excavating a religious foundation at the core of even the most radical empirical thinking Familiar icons like Ibn Khald n Columbus Isaac Luria and Francis Bacon emerge startlingly fresh and newly gleaned agents of a history formerly untold and of a modern world made in the image of its imminent end *Communities and Conflict in Early Modern Colmar* Peter George Wallace,1995 From 1575 to 1730 the citizens of the Alsatian Imperial city of Colmar were divided between Protestant and Catholic communities plagued by chronic warfare and ultimately subjugated by the kingdom of France Drawing on a rich collection of serial archival sources Wallace reconstructs the collective biography of 6 700 civic officials merchants artisans and agricultural workers in order to examine the local impact of confessionalization in a religiously mixed town the effect of warfare on the economic interdependence of town and country and the tensions between French absolutism and traditional civic political culture Economic historians scholars of the Reformation and students of French and German history will find many valuable insights in this multifaceted analysis Theorizing Religions Past Harvey Whitehouse,Luther H. Martin,2004-09-15 A collection of archaeologists and historians examine the modes of religiosity theory for its usefulness in explaining the origins and history of religions *Reading Catechisms, Teaching Religion* Lee Palmer Wandel,2015-10-14 Reading Catechisms Teaching Religion makes two broad arguments First the sixteenth century witnessed a fundamental transformation in Christians Catholic and Evangelical conceptualization of the nature of knowledge of Christianity and the media through which that knowledge was articulated and communicated Christians had shared a sense that knowledge might come through visions images liturgy catechisms taught that knowledge of Christianity began with texts printed on a page Second codicil catechisms sought not simply to dissolve the material distinction between codex and person but to teach catechumens to see specific words together as texts The pages of catechisms were visual they confound precisely that constructed modern bipolarity word image or conversely that modern bipolarity obscures what sixteenth century catechisms sought to do Conflicting Visions of Reform Miriam Usher Chrisman,1996 Cultural and textual analysis of 300 German propaganda pamphlets reveals lay people responding to the Protestant Reformation They urge changes based on the perceptions and aspirations of their social class supporting their proposals by personal interpretations of the Bible **Reformations Compared** Henry A. Jefferies,Richard Rex,2024-03-21 Offers comparative perspectives and fresh insights into the unfolding of the Reformation across the whole of Europe
