PhD Jantz, Ann McMurray, 2017-08-01 The deep pain of childhood abuse whether physical or emotional whether a child was neglected or wished nothing more than to be left alone doesn't just go away There's simply no just getting over it Even if no physical scars remain as evidence of the victim's suffering the deep wounds on their minds hearts and souls are still there But it is possible to become whole and happy Author of the successful *Healing the Scars of Emotional Abuse* Dr Gregory Jantz now helps readers understand the effects of childhood abuse on their emotional intellectual physical relational and spiritual health He then outlines the steps to lasting healing including grieving what was lost learning to balance emotions with intentionality regaining a positive relationship with one's own body and mind and coming to an understanding of God not as a frightening authority figure like the abuser or an accusing judge but as a loving creator redeemer and friend

Idolising Children Daniel Donahoo, 2007 Obsessed with our own youth and wanting perfect genius children who live in a world of designer clothes and toys it's time for us to find new ways of parenting and a new kind of childhood With humour insight and emotion Daniel Donahoo reflects on the place of children in our society by looking at everything from fertility rates childcare the role of the media and the day to day joys and challenges of being a parent Donahoo argues that idolising is a form of worship that adversely affects our children's development in their early years and creates citizens who no longer understand their roles and responsibilities It makes parents feel unnecessarily guilty and anxious Without blame or finger pointing *Idolising Children* examines how we arrived here and looks at what needs to change so that communities as a whole are responsible for raising children Book jacket

Motherhood, Childhood, and Parenting in an Age of Education Maryellen Schaub, 2023-05-05 Motherhood as a celebrated yet underappreciated role is often thought of as a natural process something instinctive that we refine by watching our own mothers and others in our community We rarely think of motherhood as something that is time and culturally specific yet like culture itself it is socially constructed and both motherhood and childhood evolve over time With the rise in educational attainment of mothers in the American population the expectations associated with childhood increasingly include not just education but cognitive development and extracurricular activities as the partnership between parents and education intensifies in the joint project of human development of children *Motherhood Childhood and Parenting in an Age of Education* offers a new way to conceptualize the high demands of contemporary parenthood It traces the emerging narrative about the good mother changes in the underlying assumptions of what constitutes the good mother and the implications for the good childhood as education grows in institutional strength This book demonstrates that education is driving the formation of the parent and child roles in the dominant contemporary culture of the US although alternate models exist Education itself has expanded over time to become our largest social intervention defining behaviors and beliefs such as parental involvement in schooling the unengaged parent and the deficient student
