The Heat Of Winter:

The Heat of Winter Howard Hirt, 1984 *Treasures and Travails* Chuma Mbaeyi, 2015-05-15 In *Treasures and Travails* An Anthology Mbaeyi investigates life's immaterial treasures and the torments that often accompany them in poems organized under four sub themes The book opens with *A Blade of Grass* a metaphor for the Christian belief in resurrection setting the stage for other poems under the sub theme of Nature hence the anthology segues from talk of amorous thrills to the conflicts and contradictions that pervade human experience Part Three opens with a reawakening of the life of an insomniac in the witty *In Search of Sleep* before touching on matters of patient confidentiality in *Oath of Silence* Conflict and its elusive promise of reprieve is explored on a broad scale in *Forever Beyond Our Reach* and its interplay with the emotion of love is at the fore in *Where Memories Meet* In the Final section hope and despondency mirror the evanescence of life's treasures and travails as one supplants the other in the poems included under the eponymous sub theme Join Toyosi in his quest for an alternate vision of his ancestral home in *A Country Called Sub Saharan Africa* and enter the dark world of a fallen star as her footsteps fade into the night in *Stalked Ultimately* however when the very core of man's existence is challenged by adversity hope is what keeps the spirit alive and it often takes provenance from a rallying symbol hence the book closes on a note of optimism in *Golden Face of A Lost Generation* *A System of Natural Philosophy, in which are Explained the Principles of Mechanics, Hydrostatics [etc.]* John Lee Comstock, 1854 *First Book of Astronomy, Etc. (The Chapter on Astronomy Reprinted from the Authors' Manual of Natural Philosophy, with an Introduction, Appendix and Dictionary of Terms.)*. Cross,2017-06-30 Would you become a cyborg just to survive I did and it ended the world In 2040 three factions went to war over the creation of artefacts sentient androids indistinguishable from human beings Five years later Ailith wakes to find the Artefact War over and the modern world destroyed Her only connection to the life she once knew is Tor a stranger who protected her as she slept A cyborg Like her They believed they were the only ones they were wrong Others of their kind are alive and facing execution Their deaths must be prevented at all costs for if they die humankind will become extinct But as Ailith and Tor face off against old enemies and a self proclaimed god they begin to doubt the true nature of their design They can trust no one not even each other despite the passion that binds them together Humanity fought a war to annihilate us Now their future depends on our survival We are the seed The Seeds of Winter is the first book in the Artefact War saga If you like dystopian science fiction with cyborgs heroines and a dash of meta you'll love this series Essays on the Autumnal and Winter Epidemics John Esten Cooke,1829
