**The Oxford Chronology of English Literature** Michael Cox, 2002      **The Concise Oxford Chronology of English Literature** Michael Cox, 2005 The Concise Oxford Chronology of English Literature presents a comprehensive year by year digest of 15 000 significant and representative works of literature published in English by British authors from 1474 to the present day The greats sit alongside long forgotten gems the trivial the inspirational and the unusual all equally worthy of remembrance An ideal resource for students and academics of English literature The main chronology is supplemented by three indexes An author index allows readers to view the literary output of any given author in chronological order an index of periodicals gives a short overview of periodicals published during the period covered and there is also an index of anonymous titles This edition has been updated to include works of literature from 2002 and 2003      **The Oxford**

**Chronology of English Literature: The Oxford chronology of English literature** Michael Cox, 2002 Thirty thousand works by 4 000 authors range from 1474 2000 Works are mostly by British authors published in Britain but also included are exceptions made for foreign authors who have made their home in Britain Henry James and V S Naipaul and for authors of the colonial period who published principally with British houses In addition to the chronology the indexes in the second volume allow searches by author translated author and title Content is dominated by works of the imagination poetry drama novels and short stories but biographies letters criticism philosophical and religious texts and reference works are also covered The first volume the chronology begins in 1474 with a work of fiction Wm Caxton s *The Recuyell of the Historyes of Troye* The entry conveys that this was the first book printed by Caxton in English probably in Bruges by Caxton s company W Caxton and C Mansion and brought out in subsequent editions in 1502 1553 1597 Also shown is that Caxton was born around 1422 and alive at the time of publication the birth year allows a calculation of the author s age at the time of publication Other entries provide the same kind of information c Book News Inc      **The Short Oxford History of English Literature**

Andrew Sanders, 1994 Poets Corner in Westminster Abbey Andrew Sanders notes had its start by accident The first writer entombed there long before it was known by today s name was Geoffrey Chaucer so honored not for his works but because he had lived nearby and had distant connections to the crown But Chaucer was lionized by future generations especially by Edmund Spenser who was the next poet to take his place in the Corner Over time more men of letters followed including Ben Jonson John Dryden and Charles Dickens as England turned this corner of the Abbey into a tribute to its writers The growth of Poets Corner Sanders writes mirrors the conscious efforts of writers to create the British literary tradition the physical expression of the emerging canon In *The Short Oxford History of English Literature* Sanders conducts us on a tour through the living past behind the stone effigies of Poets Corner capturing the vast history of the literature of the British isles in a single fascinating narrative Starting with the early Anglo Saxon period he ranges right up to the present with individual chapters on Old and Middle English literature the Renaissance the seventeenth and eighteenth centuries the Romantics

Victorian and Edwardian Literature Modernism and post war writing Throughout the author combines concise analyses of individual works and authors with an overarching sense of how they interacted in a single literary tradition The dramas of Shakespeare for example have long since eclipsed those of his contemporaries Kyd and Marlowe but Sanders reminds us of the symbiotic relationship between the Bard and his rivals especially Marlowe He goes on to crisply assess the interaction of Shakespeare's plays with the politics and emerging nationalism of the period Sanders applies this sensitivity to the relationship between literature and larger social issues elsewhere as well after providing an outstanding critical examination of Dickens's novels he firmly sets them in the context of the Condition of England fiction so popular in the nineteenth century including the works of such lesser lights as Harriet Martineau and Charles Kingsley Sanders ranges far beyond the boundaries of England examining the impact of Scottish writers and philosophers the rich traditions of Irish literature and the works of Welsh authors as well And he brings his analysis up to the post modern present looking at such writers as Seamus Heaney and Angela Carter The literature of Britain has long since become a part of the cultural heritage of the world an inspiration to literary traditions in America and elsewhere and a continuing source of pleasure The Short Oxford History of English Literature provides a remarkably concise account of this rich past offering food for thought and an even deeper enjoyment of the great works

The Oxford Illustrated History of English Literature Pat Rogers, 2001 Britain possesses a literary heritage virtually unrivaled in the Western world This lavishly illustrated volume explores the richness diversity and continuity of that tradition Under the general editorship of Pat Rogers some of Britain's foremost literary scholars trace the history of English literature from its first stirrings in Anglo Saxon poetry to the present day The contributors aim to convey to the reader the pleasure and exhilaration of literature rather than to provide a bare outline of schools and periods of writing At the heart of the volume towers the figure of Shakespeare who has a special chapter devoted entirely to himself The volume also offers detailed treatments of other major writers such as Chaucer Milton Donne Wordsworth Dickens Eliot and Auden and up to date discussions of living authors such as Muriel Spark and Seamus Heaney More than a mere chronology this versatile work provides a basic core of information and invaluable supplementary material including suggestions for further reading maps a chronological table of dates and a detailed index with birth and death dates of individuals listed It also moves beyond these facts and events to characterize the broad sweep of ideas and the main concerns of British writers over the past thirteen centuries The illustrations chosen thirty five in color and over two hundred in black and white bring to life the content and concerns of the text They range in subject from manuscripts and book illustrations to works of art and architecture portraits social scenes landscapes and caricatures illuminating not only the literature but also the ideas preoccupations and outlooks that fostered it Rather than simply decorating the text the illustrations complement and enlarge it All experts in their chosen areas the contributors bring to this volume a deep understanding and great enthusiasm and zest for their subject Collectively they have woven together the complex strands of English literature into a highly readable

Van Vuuren, 2010-11-19 The diverse literatures of Victorian and Edwardian Britain have provided a wealth of research materials for novice and expert researchers alike Although the body of scholarship for the Edwardian Age is smaller than that of the Victorian researchers should have no shortage of resources for learning more about the literatures of either time period While many of the novels plays poetry and prose from the Victorian and Edwardian Ages are still readily available in print a vast amount of literature has long since fallen out of print Recent efforts in digitization the Victorian Women Writers Project English Literary Periodicals 1681 1914 Early British Periodicals 1681 1921 19th Century British Library Newspapers 19th Century U K Periodicals Times Digital Archives Victorian Popular Culture and even Google Books have helped to make many texts more widely accessible *Literary Research and the Victorian and Edwardian Ages 1830 1910* discusses traditional and new resources for researching this period of British literature and the ways in which those resources can be used in conjunction with one another By helping readers navigate the resources and issues particular to these literatures this book will serve as an essential guide to researching the literatures of the Victorian and Edwardian Ages

*Literary Research and the British Eighteenth Century* Peggy Keeran, Jennifer Bowers, 2013-02-21 The 18th century in Britain was a transition period for literature Patronage either by a benefactor or through subscription lingered even as the publishing and bookselling industries developed The practice of reviewing books became well established during the second half of the century with the first periodical founded in 1749 For the literary scholar these gradual changes mean that different search strategies are required to conduct research into primary and secondary source material across the era *Literary Research and the British Eighteenth Century* addresses these unique challenges It examines how the following all contribute to the richness of literary research for this era book and periodical publishing a growing literate society dissemination of literature through salons private societies and coffee houses the growing importance of book reviews the explosion of publishing and the burgeoning of primary source material available through new publishing and digital initiatives in the 21st century This volume explores primary and secondary resources including general literary research guides union library catalogs print and online bibliographies scholarly journals manuscripts and archives 18th century books newspapers and periodicals contemporary reception and electronic texts and journals as well as Web resources Each chapter addresses the research methods and tools best used to extract relevant information and compares and evaluates sources making this book an invaluable guide to any literary scholar and student of the British eighteenth century      **The Cambridge Bibliography of English Literature** Frederick Wilse Bateson, 1940
