Entangled Empires Jorge Canizares-Esguerra,Jorge Cañizares-Esguerra,2018-02-01 According to conventional wisdom in the sixteenth century Spain and Portugal served as a model to the English for how to go about establishing colonies in the New World and Africa By the eighteenth century however it was Spain and Portugal that aspired to imitate the British Editor Jorge Canizares-Esguerra and the contributors to *Entangled Empires* challenge these long standing assumptions exploring how Spain Britain and Portugal shaped one another throughout the entire period from the sixteenth to the nineteenth centuries They argue that these empires were interconnected from the very outset in their production and sharing of knowledge as well as in their economic activities Willingly or unwillingly African slaves Amerindians converso traders smugglers missionaries diplomats settlers soldiers and pirates crossed geographical linguistic and political boundaries and cocreated not only local but also imperial histories Contributors reveal that entanglement was

not merely a process that influenced events in the colonies after their founding it was constitutive of European empire from the beginning The essays in *Entangled Empires* seek to clarify the processes that rendered the intertwined histories of these colonial worlds invisible including practices of archival erasure as well as selective memorialization Bringing together a large geography and chronology *Entangled Empires* emphasizes the importance of understanding connections both intellectual and practical between the English and Iberian imperial projects The colonial history of the United States ought to be considered part of the history of colonial Latino America just as Latin American history should be understood as fundamental to the formation of the United States Contributors Ernesto Bassi Benjamin Breen Jorge Caizares Esguerra Bradley Dixon Kristie Flannery Eliga Gould Michael Guasco April Hatfield Christopher Heaney Christopher Schmidt Nowara Mark Sheaves Holly Snyder Cameron Strang

The American military and the Far East proceedings of the Ninth Military History Symposium United States Air Force Academy 1-3 October 1980, **Clash of Spirits** Filomeno V. Aguilar, 1998-09-01 This text illuminates the oral traditions of the Philippines and the convergence of capitalism and the indigenous spirit world The author examines the social relations cultural meanings and political struggles surrounding the rise of sugar haciendas on Negros during the late Spanish colonial period and their subsequent transformation under the aegis of the American colonial state Drawing on oral history interviews and a wide array of sources culled from archives in Spain the United States the United Kingdom and the Philippines the author reconstructs the emergence of a sugar planter class and its strategic maneuvers to attain hegemony The book portrays local actors taking an active role in shaping the external forces that impinge on their lives It examines hacienda life from the indigenous perspective of magic and spirit beliefs reinterpreting several critical phases of Philippine history in the process By analyzing mythic tales as bearers of historical consciousness the author explores the complex interactions between local culture global interventions and capitalist market forces

Prosperity without Progress Norman Owen, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984 **Transpacific Engagements** Florina H. Capistrano-Baker, Meha Priyadarshini, 2020-01-01 Between the sixteenth and nineteenth centuries competing European empires notably Spain Portugal Great Britain the Netherlands Germany France Belgium and others vied for commercial and political control of transoceanic networks particularly the transpacific routes between Asia and the Americas The essays in *Transpacific Engagements* Trade Translation and Visual Culture of *Entangled Empires* 1565-1898 address the resulting cultural and artistic exchanges with an emphasis on both the Spanish and American enterprises in the Asia Pacific region The essays are grouped into three parts entitled *Entangled Empires* *Empires and Translations* and *Empires and Trade* A common thread in the diverse perspectives presented here is the importance of transpacific

engagements to the global connections of the sixteenth century and beyond While the focus is on the specific connection between the Asia Pacific region and the Americas through the Philippines we see how other parts of the world notably South and Southeast Asia and Europe were also participants impacted by these transpacific linkages The goal is to convey the complexity of entangled networks of commercial political and religious interests that complicate the Spanish enterprise in the Pacific Commercial ventures into Canton and Manila by the early American republic for example overlapped with and later replaced the Spanish galleons East South and Southeast Asian polities and dynasties remained powerful players in what were often multilateral rather than bilateral exchanges Contributors to this volume are based in Asia the Americas and Europe
