WHEN we read the Pentameron on its first appearance now two years ago it hardly seemed to require notice at our hands as we had shortly before devoted a considerable space in this journal to Mr Landor s writings generally and in particular to the long series of his Imaginary Conversations Taking up the volume however for the purpose of comparing some of its criticisms on Dante with Mr Merivale s we found that we could not lay it down until we had read it all over again and by that time we had marked so many passages that though we have no intention of going into another formal criticism we consider it as due to Mr Landor that we should thank him for the pleasure his new dialogues have afforded us and to our readers that we should invite their attention to some of the striking thoughts images and expressions scattered profusedly over a little work which has as yet attained only a very small circulation nay which we apprehend might almost be said to have fallen still born from the press The Quarterly Review Volume 64 1839
