Africana Critical Theory endeavors to accessibly offer contemporary critical theorists an intellectual archaeology of the Africana tradition of critical theory and a much needed dialectical deconstruction and reconstruction of black radical politics. These six seminal figures' collective thought and texts clearly cuts across several disciplines and therefore closes the chasm between Africana Studies and critical theory, constantly demanding that intellectuals not simply think deep thoughts, develop new theories, and theoretically support radical politics, but be and constantly become political activists, social organizers, and cultural workers, that is, folk. The Italian critical theorist Antonio Gramsci referred to as organic intellectuals. In this sense, then, the series of studies gathered in Africana Critical Theory contribute not only to African Studies, African American Studies, Caribbean Studies, Cultural Studies, Gender Studies, and Postcolonial Studies, but also to contemporary critical theoretical discourse across an amazingly wide range of traditional disciplines and radical political activism, outside of and in many instances absolutely against Europe's ivory towers and the absurdities of the American academy.
