Tolerance in a Globalized World Andrés Sandoval-Hernández,Maria Magdalena Isac,Daniel Miranda,2018-04-23 This open access thematic report identifies factors and conditions that can help schools and education systems promote tolerance in a globalized world The IEA s International Civic and Citizenship Study ICCS is a comparative research program designed to investigate the ways in which young people are prepared to undertake their roles as citizens and provides a wealth of data

permitting not only comparison between countries but also comparisons between schools within countries and students within countries. Advanced analytical methods provide insights into relationships between students' attitudes towards cultural diversity and the characteristics of the students themselves, their families, their teachers, and school principals. The rich diversity of educational and cultural contexts in the 38 countries who participated in ICCS 2009 are also acknowledged and addressed. Readers interested in civic education and adolescents' attitudes towards cultural diversity will find the theoretical perspectives explored engaging. For readers interested in methodology, the advanced analytical methods employed present textbook examples of how to address cross-cultural comparability of measurement instruments and multilevel data structures in international large-scale assessments. ILSA. Meanwhile, those interested in educational policy should find the identification and comparison of malleable factors across education systems that contribute to positive student attitudes towards cultural diversity a useful and thought-provoking resource.

Obesity Raman Mehrzad, 2020-07-15 Obesity continues to accelerate, resulting in an unprecedented epidemic that shows no significant signs of slowing down any time soon. The World Health Organization reports that in 2016 nearly 2 billion adults were overweight and that worldwide obesity has nearly tripled since 1975. Obesity: Global Impact and Epidemiology is an important tool in proving a link to new knowledge, serving researchers and clinicians. The field of obesity is evolving very quickly, and there is an abundance of scientific data that has emerged and is emerging constantly. Researchers and physicians need new, updated information about the epidemiology and global impact of obesity that come from authors that have a wide perspective in the field. For health professionals and researchers, there is a need to understand how obesity begins. While a simple question, the answer is very complex. Serves as a starting point for in-depth discussions in academic settings, leading to revised and updated treatment options for practicing obesity treatment specialists. Offers practical information about the methodology of epidemiologic studies of obesity. Updated, important source of information for clinicians and scientists in the field of obesity.

Human Capital Or Cultural Capital? George Farkas, This study seeks to reorient our understanding of the early educational determinants of social stratification outcomes. It focuses on the process and consequences of unequal cognitive skill attainment for ethnic and poverty groups within our nation's cities. It draws theoretically on the notion that experiences at home and school create a feedback loop by which the cultural capital of the students, their toolkit of skills, habits, and styles with which they construct strategies of action, evolves over time and largely determines differential success in mastering the teacher-assigned coursework.
