Social Health Of The Nation How America Is Really Doing:

The Social Health of the Nation Marc Miringoff, Marque-Luisa Miringoff, 1999-07-01 This book is written for people who are skeptical and uneasy when they hear politicians economists and reporters tell Americans You re never had it so good as they recite lists of leading economic indicators The Social Health of a Nation as its subtitle indicates tell us How America is Really Doing The facts in this book confirm what many American know intuitively they are not better off now not with income inequality at its worst level in fifty years not with more and more Americans dropped from insurance rolls not with thousands of Americans feeling the effects of corporate downsizing not with real wages on a long term decline This book provides the facts to see the rest of the picture the condition of the American national spirit that can never be revealed by economic indicators alone It also provides a forceful argument that without the social side of the picture Americans are in the dark about the nation s progress This book as not an ideological tract however It s purpose is portrayal not prescription Not everything reported is bad news an entire chapter is devoted to indicators of improving social performance Because it does not advocate for example a return to big government or any quick fix solution this book will be welcomed by readers from all parts of the political spectrum or of no particular political persuasion It will appeal to concerned individuals from business government clergy and other professions and to those who represent no interest group It will also be widely used as supplemental text in a variety of sociology economics and political science courses The Social Health of the Nation is written by two sociologists Marc and Luisa Miringoff Marc is currently the Professor of Social Welfare Policy at Fordham University Graduate Center and the founder and Director of the Fordham Institute for Innovation in Social Policy Luisa is Professor of Sociology at Vassar College where she has served as Department Chair and Director of its Urban Studies Program Both earned Ph D degrees from the University of Chicago Since 1987 Marc has headed a research team to develop the Index of Social Health a nationally recognized social barometer that has been featured in ten New York Times and four Washington Post articles This index has commanded increasingly large electronic and print media attention because of its powerful presentation of trends in family life income health housing child poverty and other social indicators of everyday life in the United States The Social Health of the Nation will include the previously unreleased and very newsworthy Index for 1998 But it will contain much more Influenced by the effectiveness of the Index of Social Health in the summer of 1996 the Ford Foundation approached the authors with a plan Alarmed by a lack of government attention in the United States to monitoring the nation s social health the Foundation had a vision of creating a book building on the Index of Social Health to show what is needed to advance this field and deepen its impact To that end the Foundation provided financial assistance for the book s development by funding Miringoff s Fordham Institute for Innovation in Social Policy to convene a twenty five member team the Working Group on Social Indicators including nationally known pollster Daniel Yankelovich and Director of Research and Vice President of CNN Judy Milestone Each member of the Working Group was motivated to improve social reporting in the

United States They came from the media universities and government representing fields as diverse as law medicine sociology and economics The vision of the Ford Foundation with the assistance of this working group has now become a reality in *The Social Health of the Nation* a nine chapter book written by Marc and Marque Luisa Miringoff This book does show the other side of the Official Portrait of How America is Doing providing comprehensive coverage of improving shifting and worsening social performance It fills in the blanks after all the economic indicators are posted The book contains surprises the same kind that have been made the yearly release of the Social Index of Health a subject of media attention for twelve years an index whose 1998 figures will be released exclusively in this book While some of the indicators will shock other will give reason for hope as we see evidence of improved performance in unlikely places For those whose livelihoods and well being depend on the social health of the United States this book provides the information necessary to find creative solutions for improved performance For students in a wide range of courses this book will become required reading

Categorically Unequal Douglas S. Massey, 2007-04-02 The United States holds the dubious distinction of having the most unequal income distribution of any advanced industrialized nation While other developed countries face similar challenges from globalization and technological change none rivals America's singularly poor record for equitably distributing the benefits and burdens of recent economic shifts In *Categorically Unequal* Douglas Massey weaves together history political economy and even neuropsychology to provide a comprehensive explanation of how America's culture and political system perpetuates inequalities between different segments of the

population Categorically Unequal is striking both for its theoretical originality and for the breadth of topics it covers Massey argues that social inequalities arise from the universal human tendency to place others into social categories In America ethnic minorities women and the poor have consistently been the targets of stereotyping and as a result they have been exploited and discriminated against throughout the nation s history African Americans continue to face discrimination in markets for jobs housing and credit Meanwhile the militarization of the U S Mexican border has discouraged Mexican migrants from leaving the United States creating a pool of exploitable workers who lack the legal rights of citizens Massey also shows that women s advances in the labor market have been concentrated among the affluent and well educated while low skilled female workers have been relegated to occupations that offer few chances for earnings mobility At the same time as the wages of low income men have fallen more working class women are remaining unmarried and raising children on their own Even as minorities and women continue to face these obstacles the progressive legacy of the New Deal has come under frontal assault The government has passed anti union legislation made taxes more regressive allowed the real value of the federal minimum wage to decline and drastically cut social welfare spending As a result the income gap between the richest and poorest has dramatically widened since 1980 Massey attributes these anti poor policies in part to the increasing segregation of neighborhoods by income which has insulated the affluent from the social consequences of poverty and to the disenfranchisement of the poor as the population of immigrants prisoners and ex felons swells America s unrivaled disparities are not simply the inevitable result of globalization and technological change As Massey shows privileged groups have systematically exploited and excluded many of their fellow Americans By delving into the root causes of inequality in America Categorically Unequal provides a compelling argument for the creation of a more equitable society A Volume in the Russell Sage Foundation s Centennial Series *Hazards Vulnerability and Environmental Justice* Susan L. Cutter,2012-05-04 From Hurricane Katrina and the south Asian tsunami to human induced atrocities terrorist attacks and the looming effects of climate change the world is assailed by both natural and unnatural hazards and disasters These expose not only human vulnerability particularly that of the poorest who are least able to respond and adapt but also the profound worldwide environmental injustices that result from the geographical distribution of risks hazards and disasters This collection of essays from one of the most renowned and experienced experts provides a timely assessment of these critical themes Presenting the top selections from Susan L Cutter s thirty years of scholarship on hazards vulnerability and environmental justice the volume tackles issues such as nuclear and toxic hazards risk assessment communication and planning and societal responses Cutter maps out the terrain and draws out the salient themes with a fresh powerful introduction written in the wake of her work in the aftermath of Katrina This essential collection is ideal for professionals researchers academics and students working on hazards risk disasters and environmental justice across a range of disciplines *Christian Life and Practice* Owen C. Thomas,2009-01-01 This book is a study of the Christian life and the practice of Christians and the church from an

Anglican perspective It begins with an analysis and explication of the structure and process of the Christian life before God in the church and the world involving a five fold rule of life and the relation of this to spiritual direction This is followed by an analysis and critique of the current spirituality movement which arose in the 1970s and which has come to dominate and mislead the churches A sequel to the latter explains the origin of the spirituality movement in the current Romantic movement that arose in the 1960s and has influenced all aspects of our culture with ambiguous results Next there is a critique of contemporary parish ministry as practiced in residential parishes that at best ministers only to the private lives of its members followed by a fictional story of such a residential parish that suggests a new departure in parish ministry Then there is a critique of preaching in the Episcopal Church that is generally considered to be poor and a proposal of a way to overcome this The concluding three chapters treat a fundamental problem in our approach to private prayer and a way to resolve this a proposal for a way to overcome the current impasse in the Anglican Communion concerning homosexuality and a meditation on the responsibility of Christians in public life
