Annual Editions: Readings in Psychology. 1972- , *Once More Unto the Breach, Dear Friends* Irving Louis Horowitz, Andrew McIntosh, Patrick Ivins, Deborah Berger, 2017-07-05 Candor breadth judiciousness all these are attributes Irving Louis Horowitz possesses as a scholar Under his leadership there is no academic publication from which I have learned as much as Transaction Society David Riesman Harvard University We are all happy beneficiaries of Horowitz's acutely perceptive and often devastatingly plain spoken self as sociologist and sage broad gauged scholar dedicated teacher tough minded editor and publisher with an ingrained sense of fairness Robert K Merton Columbia University **Catalog of Copyright Entries. Exchange and Gift Division, 1921 June and Dec issues contain listings of periodicals *Universally Comprehensible, Arrogantly Local* Wiebke Keim, 2017-04-01 From the perspective of the international scholarly community under North Atlantic domination South Africa might look like a peripheral place of knowledge production In recent years a plethora of voices calling for provincializing Europe for deconstructing Eurocentrism and for adopting post and decolonial perspectives have challenged such views They have partly transformed the academic landscape but have had limited success in challenging the fundamental global divides in production circulation and recognition of social scientific knowledge This book chooses a different take on the question of how North Atlantic

domination could be challenged by conceptualizing counter hegemonic currents in international sociology Instead of providing theoretical and deconstructive critiques counter hegemonic currents are effective through collective social scientific practice the production of data knowledge and texts of new generations of scholars the interaction with extra university actors leading to the gradual emergence of integrated and productive scientific communities Their orientation towards local arenas of discussion and production of socially relevant research effectively reduces the belief in the hegemony of the North The historical development of South African labour studies is a case in point This study provides a systematic in depth analysis of research and teaching activities networks with extra academic actors and international cooperation over time in the three major Labour Studies centres Johannesburg Durban and Cape Town It draws on a rich variety of material including annual reports of research centres and labour service organizations teaching contents and exam questions the 1974 2003 volumes of the South African Labour Bulletin and newsletters of ISA Research Committee 44 on Labour Movements Qualitative analysis of four seminal books is used to assess their contribution to original general theory building In depth interviews with Labour Studies representatives complement the analysis of documents and literature by reconstructing the oral history of this scholarly community an indispensable source given that many debates could not appear in written form or had to be watered during the Apartheid years The study concludes that over time South African social scientists have generated knowledge on labour industry and trade unions that is universally comprehensible but arrogantly local
