 Huiskes,2007-06-04 The Antarctic provides a suite of scenarios useful for investigating the range of climate change effects on  
 terrestrial and limnetic biota The international SCAR programme RiSCC Regional Sensitivity to Climate Change in Antarctic  
 Terrestrial and Limnetic Ecosystems is investigating these scenarios with the goals of 1 understanding the likely response of  
 Antarctic biota to changing climates and 2 contributing to the development of broadly applicable theory concerning  
 interactions between climate change indigenous and introduced species and ecosystem functioning The programme draws  
 upon both new and existing data The purpose of the book is to provide based on the most up to date knowledge a synthesis of  
 the likely effects of climate change on Antarctic terrestrial and limnetic ecosystems and thereby to contribute to their

 cameras in her face and she was known as the diamond heiress Not because of the wealth she d amassed but because she  
 was cold as the jewels she wore Now she was on his ranch waving a blank check thinking he d sell out his dream Alex  
 Mendoza had two words for the gorgeous woman and they weren t I ll sell But she wasn t giving up and after one heated  
 discussion at a town hall meeting he shut her up with a kiss Alex instantly regretted the kiss because all he could do was  
 think about bedding her each time he saw her It scared the hell out of him that he might be falling in love Kerri took one look  
 at Alex and assessed him as a typical Texas cowboy which was unfair because she was presumed to be something she wasn t  
 She made her wealth and men hated her for it So why would he be any different Then Alex had to kiss her and complicate  
 everything How could she dislike a man who made her body tremble with just one touch They had nothing in common and  
 were as combustible as crude oil and an open flame She could deny it all she wanted but Kerri craved the heat they created  
 She knew everything about the boardroom stocks and building her empire and nothing about losing her heart     *Cumulated*
