Summer Before The Dark:

The Summer Before the Dark Doris Lessing, 2010-11-17 As the summer begins Kate Brown attractive intelligent forty five happily enough married with a house in the London suburbs and three grown children has no reason to expect anything will change But when the summer ends the woman she was living behind a protective camouflage of feminine charm and caring no longer exists This novel Doris Lessing s brilliant excursion into the terrifying stretch of time between youth and old age is her journey from London to Turkey to Spain from husband to lover to madness on the road to a frightening new independence and a confrontation with self that lets her finally come truly of age

The Summer Before the Dark Doris Lessing, 1973 Journey Through the Dark Iben Krog Bidstrup, 2004 **The Summer Before the Dark** Doris Lessing, 1995 *The Summer Before the Summer of Love* Marly A. Swick, 2004-04-01 The ten stories in this collection explore the intimate dynamics of parents and children friends and lovers and husbands and wives The characters stand on unstable ground and coexist with unpleasant truths a grown son drives his mother to the abortion clinic two girls go on a road trip to a Beatles concert with their divorced mother three recently single women try to purge the past with a garage sale a father moves into his daughter s group house in Berkeley Grappling with loss and disappointment struggling to become whole again or for the first time her characters pass like ghosts through their own lives seeking to understand imperfectly and belatedly where they ve come from and what might have been *Beyond Innocence, Or, The Altersroman in Modern Fiction* Linda A. Westervelt, 1997 In this groundbreaking work Linda A Westervelt defines an important yet previously unidentified and therefore unnamed type of novel the altersroman or age novel Fictions focusing on a protagonist s confrontation with mortality toward the end of middle age are likely to become ever more prominent in a Western world in which the average age of the population increases and more people reach late middle age and old age Working from a diverse sample of modern literature Westervelt analyzes the variety of responses to the life evaluation Some characters achieve a level of affirmation that allows renewal redirection or simply peace while others confront feelings of disgust or despair that so little time is left them Her altersromane are books about seeking wisdom though not everyone of this age becomes wise The use of the term altersroman highlights the fact that the altersroman is a classification comparable to but also clearly distinguishable from the bildungsroman wherein characters make the transition from youth to adulthood Westervelt contrasts her older protagonists characteristics with the equivalent characteristics in the bildungsroman through an examination of Don Quixote part 2 as well as six American novels *The Ambassadors* by Henry James *The Professor* s House by Willa Cather *The Mansion* by William Faulkner *The Angle of Repose* by Wallace Stegner *A Book of Common Prayer* by Joan Didion and *Jazz* by Toni Morrison These seven works though remarkably different share the common features of the altersroman Westervelt articulates the traits clearly rests them on the psychological literature and then shows in depth how the characteristics of the altersroman can enrich and more deeply inform our reading of a significant subset of modern

literature that previously went unheralded Readers can use Westervelt's analysis to identify altersromane in literature other than their own and she begins this process by identifying exemplars written in other languages Beyond Innocence or the Altersroman in Modern Fiction introduces readers to the altersroman as a tool for classification and analysis and demonstrates the power and utility of that tool It offers a meaningful and enriching complement to the more established category of the bildungsroman

Narrative Authority and Homeostasis in the Novels of Doris Lessing and Carmen Martín Gaité Linda E. Chown,2019-10-02 This study originally published in 1990 assesses a shift in the presentation of self consciousness in two pairs of novels by Doris Lessing and Carmen Martín Gaité 1 Lessing s *The Summer Before the Dark* 1973 and Martín Gaité s *Retah las* 1974 and 2 Lessing s *The Memoirs of a Survivor* 1974 and Martín Gaité s *The Back Room* 1978 Three major structural divisions facilitate examining implications of the novels for 1 feminism 2 literary narrative and 3 the lives of people at large **Culture and Literature** Tawhida Akhter,2022-01-25 During the last few decades there has been remarkable progress in research on various aspects of cross cultural relationships Different fields have been explored and there are still so many fields yet to be explored We often talk about how one culture has affected another this book serves to draw parallels between different cultures It explores how culture plays an important role in the development of personality It further examines how behavior has both a positive and a negative effect in the development of personality and interrogates how literature portrays the reality of a culture through its fictitious characters *Women in Midlife* Grace Baruch,2012-12-06 The Study of Women In Midlife GRACE K BARUCH AND JEANNE BROOKS GUNN To describe the middle years that relatively long span when one is neither young nor old as a neglected period may no longer be accurate given current scientific and popular interest in adult development and aging But midlife is still too often seen merely as a kind of

staging area on the way to old age when one gathers one's forces and tries to stock up on assets health money relationships that will be needed for the rigors of the last phase of life The middle years have been characterized more as a transition period than as a time of growth satisfaction and creativity As this volume will show although midlife is not without its difficulties it is for many women a time of unexpected pleasure even power

MAJOR THEMES A central theme of this volume is the impact of social change The influence of economic conditions of ideology of the normative timing of such life events as age of marriage and childbearing are addressed in many chapters from many different perspectives Social changes are shown to have both negative and positive consequences On the negative side for example the sex differential in life expectancy is a biosocial phenomenon that greatly restricts the availability of sexual partners or more precisely heterosexual partners for older women
