Overcoming Parent-Child Contact Problems Abigail M. Judge, Robin M. Deutsch, 2016-10-05 In recent years there has been heightened interest in the clinical and legal management of families in which children resist contact with one parent and become aligned with the other following divorce Families affected by these dynamics require disproportionate resources and time from mental health and legal professionals and cases require a specialized clinical approach Traditional models of individual and family therapy are not designed to address these issues and strategies and resources for mental health and legal professionals have been extremely limited Overcoming Parent Child Contact Problems describes interventions for families experiencing a high conflict divorce impasse where a child is resisting contact with a parent It examines in detail one such intervention the Overcoming Barriers approach involving the entire family and combining psycho education and clinical intervention The book is divided into two parts Part I presents an overview of parental alienation including clinical approaches and a critical analysis of the many challenges associated with traditional outpatient family based interventions Part II presents the Overcoming Barriers approach describing core aspects of the intervention and ways to adapt its clinical techniques to outpatient practice Overcoming Parent Child Contact Problems is geared toward mental health clinicians and legal professionals who work with families in high conflict and where a child resists visitation with a parent *Boys' Life*, 1915-04 Boys Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting *B.R.M. Levine, 2001 This book documents a little known aspect of the Jewish experience in America It is a fascinating account of how a group of Jewish refugees from Nazi Germany came to dominate cattle dealing in south central New York and maintain a Jewish identity even

while residing in small towns and villages that are overwhelmingly Christian The book pays particular attention to the unique role played by women in managing the transition to the United States in helping their husbands accumulate capital and in recreating a German Jewish community Yet Levine goes further than her analysis of German Jewish refugees She also argues that it is possible to explain the situations of other immigrant and ethnic groups using the structure network identity framework that arises from this research According to Levine situating the lives of immigrants and refugees within the larger context of economic and social change but without losing sight of the significance of social networks and everyday life shows how social structure class ethnicity and gender interact to account for immigrant adaptation and mobility **Camp**
