things foreign and at the same time such a fear of their skill at artificially remaking and automating the world around them Countering the idea of a Japan that deviously or ingenuously copies others it elucidates the history of creative exchanges with the outside world and the particular myths philosophies and concepts which are emblematic of the origins and originality of copying in Japan The volume demonstrates the diversity and creativity of copying in the Japanese context through the translation of a series of otherwise loosely related ideas and concepts into objects images texts and practices of reproduction which include shamanic theatre puppetry tea utensils Kyoto town houses architectural models genres of painting calligraphy and poetry sample food displays and the fashion and car industries **With God on their Side**
