Sun Yatsen, Robert Wilcox and Their Failed Revolutions, Honolulu and Canton 1895 Patrick Anderson, 2021-06-28 Dynamite on the Tropic of Cancer is the radical explosive retelling of the first decade of the Father of Modern China Dr Sun Yatsen s globally shaped formation as a professional revolutionist and of the impact of the adult Sun s revolutionary relationship with Hawai i and with his varied communities of supporters there during its own most turbulent political decade the 1890s years in which this remote island nation transformed from native monarchy via sovereign independent republic to become the USA s first overseas territory Drawn from neglected primary sources Dynamite reveals the hitherto untold story of the secret revolutionary alliance forged in Honolulu s backstreets between Sun s Xingzhonghui and the idiosyncratic italophile soldier Robert Wilcox Hawai i s Garibaldi and leader of the Kanaka Native Hawaiian counterrevolution of January 1895 This failed uprising to restore Hawai i s tragic last Queen witnessed firsthand by Sun Yatsen became the archetype upon which ten months later Sun would base his own first attempt at armed insurrection in China the Canton uprising of 26 October 1895 With an epic sweep across the Pacific s Tropic of Cancer Dynamite is the most important study yet written on the origins of Sun Yatsen s Chinese Revolution and its dynamic interface with Hawaiian history

Servitors of Empire Darrell Hamamoto, 2014-08-01 Forcing a fundamental rethinking of the Asian American elite many of whom have attained top positions in business government academia sciences and the arts this book will be certain to generate a good deal of controversy and honest discussion regarding the role Asian Americans will play in the new century as China and India loom ever larger in the world economic system Not since the large scale infusion of scientists and engineers fleeing Nazi Germany has there been such a mass importation of intellectual labor from U S client states in Asia One of the specialized tasks assigned to this group is to build the technetronic infrastructure for the new world order command and control system Servitors of Empire is not intended to fan the flames of suspicion and paranoia aimed at Asian Americans but serves to illuminate the way in which highly trained knowledge workers are being

employed to bring sovereign nations such as the United States under centralized rule made possible through advances in bioscience IT engineering and global finance

The Lost Book of Sun Yatsen and Edwin Collins Patrick Anderson, 2016-11-25 Sun Yatsen 1866 1925 occupies a unique position in modern Chinese history he is equally venerated as the founding father of the nation by both the mainland Communist government and its Nationalist rival in Taiwan The first president of the Republic of China in 1911 12 the peasant born yet Western trained Dr Sun was also a dedicated political theorist constantly in search of the ideal political and constitutional blueprint to underpin his incomplete revolution A decade before the public emergence in Japan of his Three Principles of the People and weeks before even his first slim publication in 1897 Kidnapped in London Sun was already hard at work in the Reading Room of the British Museum planning his most ambitious book yet a comprehensive political treatise in English on the tyrannical misgovernment of the Chinese nation by the Manchus of the Qing Dynasty Started then abandoned twice over destined never to be completed let alone published we can only conjecture what title this revolutionary book might have had *The Lost Book of Sun Yatsen and Edwin Collins* is the first study of this lost work in all scholarship Western or Chinese It draws its originality and its themes from three primary sources all presented here for the first time The first is a series of interconnected lost writings co authored by Sun Yatsen between 1896 and 1898 The second is the mass of lost political interviews with and articles dedicated to Sun Yatsen and his politics first published in the British press in the aftermath the dramatic world famous rescue of Sun from inside the Chinese Legation in London in 1896 The third source is the *Apostle of the Simple Life for Children* the Anglo Jewish Rabbi Edwin Collins 1858 1936 a devotee and practitioner of Jean Jacques Rousseau s *Emile* and the New Education movement it inspired who became Sun s writing collaborator of choice during his years of political exile from China Drawing on this wealth of neglected material Patrick Anderson s book offers a genuinely fresh perspective on Sun Yatsen and his political motivations and beliefs

News for All the People Joseph Torres, Juan González, 2012-09-11 From colonial newspapers to the Internet age America s racial divisions have played a central role in the creation of the country s media system just as the media has contributed to and every so often combated racial oppression This acclaimed book called a masterpiece by the esteemed scholar Robert W McChesney and chosen as one of 2011 s best books by the *Progressive* reveals how racial segregation distorted the information Americans have received even as it depicts the struggle of Black Latino Asian and Native American journalists who fought to create a vibrant yet little known alternative democratic press Written in an exciting story driven style and replete with memorable portraits of journalists both famous and obscure *News for All the People* is destined to become the standard history of the American media

The New Journey to the West Baoyan Cheng, Le Lin, Aiai Fan, 2020-09-07 This book provides a comprehensive assessment of the cross border mobility of Chinese students and addresses the questions of who in China chooses to study overseas why they want to do so and what the impacts of this mobility are on China s social stratification In addition it explores the challenges that these students face in terms of

adaptation and identity formation once they have arrived in the destination country Adopting a push and pull framework to analyze the data it offers a unique and insightful resource Inclusion Tom Coffman,2021-10-31 Following December 7 1941 the United States government interned 120 000 people of Japanese ancestry evicted from scattered settlements throughout the West Coast states yet why was a much larger number concentrated in the Hawaiian Islands war zone not similarly incarcerated At the root of the story is an inclusive community that worked from the ground up to protect an embattled segment of its population While the onset of World War II surprised the American public war with Japan arrived in Hawai i in slow motion Responding to numerous signs of impending conflict the Council for Interracial Unity mapped two goals minimize internment and maximize inclusion in the war effort The council s aspirational work was expressed in a widely repeated saying How we get along during the war will determine how we get along when the war is over The Army Command of Hawai i reassured by firsthand acquaintances came to believe that trust breeds trust Where most histories have shielded President Franklin D Roosevelt from direct responsibility for the U S mainland internment his relentless demands for a mass removal from Hawai i ultimately thwarted reveal him as author and actor In making sense of the disparity between Island and mainland Inclusion unravels the deep history of the U S sabotage psychosis dissecting why many continental Americans still believe Japan succeeded at Pearl Harbor because of the unseen hand of Japanese saboteurs Contrary to the explanation of hysteria as the cause of the internment Inclusion documents how a high level plan of mass removal actually was pitched to Hawai i prior to December 7 only to be rejected Race War! Gerald Horne,2005-11-01 Japan s lightning march across Asia during World War II was swift and brutal Nation after nation fell to Japanese soldiers How were the Japanese able to justify their occupation of so many Asian nations And how did they find supporters in countries they subdued and exploited Race War delves into submerged and forgotten history to reveal how European racism and colonialism were deftly exploited by the Japanese to create allies among formerly colonized people of color Through interviews and original archival research on five continents Gerald Horne shows how race played a key and hitherto ignored role in each phase of the war During the conflict the Japanese turned white racism on its head portraying the war as a defense against white domination in the Pacific We learn about the reverse racial hierarchy practiced by the Japanese internment camps in which whites were placed at the bottom of the totem pole under the supervision of Chinese Korean and Indian guards an embarrassing example of racial payback that was downplayed by the defeated Japanese and the humiliated Europeans and Euro Americans Focusing on the microcosmic example of Hong Kong but ranging from colonial India to New Zealand and the shores of the U S Gerald Horne radically retells the story of the war From racist U S propaganda to Black Nationalist open support of Imperial Japan information about the effect of race on U S and British policy is revealed for the first time This revisionist account of the war draws connections between General Tojo Malaysian freedom fighters and Elijah Muhammed of the Nation of Islam and shows how white racism encouraged and enabled Japanese imperialism In sum Horne demonstrates

that the retreat of white supremacy was not only driven by the impact of the Cold War and the energized militancy of Africans and African Americans but by the impact of the Pacific War as well as a chastened U S and U K moved vigorously after this conflict to remove the conditions that made Japan s success possible

News for All the People Juan Gonzalez, Joseph Torres, 2011-12-23 A new sweeping narrative history of American news media that puts race at the center of the story From the earliest colonial newspapers to the Internet age America s racial divisions have played a central role in the creation of the country s media system just as the media has contributed to and every so often combated racial oppression News for All the People reveals how racial segregation distorted the information Americans received from the mainstream media It unearths numerous examples of how publishers and broadcasters actually fomented racial violence and discrimination through their coverage And it chronicles the influence federal media policies exerted in such conflicts It depicts the struggle of Black Latino Asian and Native American journalists who fought to create a vibrant yet little known alternative democratic press and then beginning in the 1970s forced open the doors of the major media companies Written in an exciting story driven style and replete with memorable portraits of journalists both famous and obscure News for All the People weaves back and forth between the corporate and government leaders who built our segregated media system such as Herbert Hoover whose Federal Radio Commission eagerly awarded a license to a notorious Ku Klux Klan organization in the nation s capital and those who rebelled against that system Based on years of original archival research and up to the minute reporting and written by two veteran journalists and leading advocates for a more inclusive and democratic media system News for All the People should become the standard history of American media

Plague and Fire James C. Mohr, 2004-11-15 A little over a century ago bubonic plague the same Black Death that decimated medieval Europe arrived on the shores of Hawaii just as the islands were about to become a U S territory In this absorbing narrative James Mohr tells the story of that fearful visitation and its fiery climax a vast conflagration that engulfed Honolulu s Chinatown Mohr tells this gripping tale largely through the eyes of the people caught up in the disaster from members of the white elite to Chinese doctors Japanese businessmen and Hawaiian reporters At the heart of the narrative are three American physicians the Honolulu Board of Health who became virtual dictators when the government granted them absolute control over the armed forces and the treasury The doctors soon quarantined Chinatown where the plague was killing one or two people a day and clearly spreading They resisted intense pressure from the white community to burn down all of Chinatown at once and instead ordered a careful controlled burning of buildings where plague victims had died But a freak wind whipped one of those small fires into a roaring inferno that destroyed everything in its path consuming roughly thirty eight acres of densely packed wooden structures in a single afternoon Some 5000 people lost their

homes and all their possessions and were marched in shock to detention camps where they were confined under armed guard for weeks Next to the attack on Pearl Harbor in 1941 the Chinatown fire is the worst civic disaster in Hawaiian history A dramatic account of people struggling in the face of mounting catastrophe Plague and Fire is a stimulating and thought provoking read

Foreign Relations Donna R. Gabaccia,2015-01-04 A new history exploring U S immigration in global context Histories investigating U S immigration have often portrayed America as a domestic melting pot merging together those who arrive on its shores Yet this is not a truly accurate depiction of the nation s complex connections to immigration Offering a brand new global history of the subject Foreign Relations takes a comprehensive look at the links between American immigration and U S foreign relations Donna Gabaccia examines America s relationship to immigration and its debates through the prism of the nation s changing foreign policy over the past two centuries She shows that immigrants were not isolationists who cut ties to their countries of origin or their families Instead their relations to America were often in flux and dependent on government policies of the time An innovative history of U S immigration Foreign Relations casts a fresh eye on a compelling and controversial topic

The Hawaiian Journal of History ,2000 **A Power in the World** Lorenz Gonschor,2019-06-30 Few people today know that in the nineteenth century Hawai i was not only an internationally recognized independent nation but played a crucial role in the entire Pacific region and left an important legacy throughout Oceania As the first non Western state to gain full recognition as a coequal of the Western powers yet at the same time grounded in indigenous tradition and identity the Hawaiian Kingdom occupied a unique position in the late nineteenth century world order From this position

Hawai i s leaders were able to promote the building of independent states based on their country s model throughout the Pacific envisioning the region to become politically unified Such a pan Oceanian polity would be able to withstand foreign colonialism and become in the words of one of the idea s pioneers a Power in the World After being developed over three decades among both native and non native intellectuals close to the Hawaiian court King Kal kaua s government started implementing this vision in 1887 by concluding a treaty of confederation with S moa a first step toward a larger Hawaiian led pan Oceanian federation Political unrest and Western imperialist interference in both Hawai i and S moa prevented the project from advancing further at the time and a long interlude of colonialism and occupation has obscured its legacy for over a century Nonetheless it remains an inspiring historical precedent for movements toward greater political and economic integration in the Pacific Islands region today Lorenz Gonschor examines two intertwined historical processes The development of a Hawai i based pan Oceanian policy and underlying ideology which in turn provided the rationale for the second process the spread of the Hawaiian Kingdom s constitutional model to other Pacific archipelagos He argues that the legacy of this visionary policy is today re emerging in the form of two interconnected movements namely a growing movement in Hawai i to reclaim its legacy as Oceania s historically leading nation state on one hand and an increasingly assertive Oceanian regionalism emanating mainly from Fiji and other postcolonial states in the Southwestern Pacific on the other As a historical reference for both nineteenth century Hawaiian policy serves as an inspiration and guideline for envisioning de colonial futures for the Pacific region

The Age of Unpeace Mark Leonard,2021-09-02 A FINANCIAL TIMES ECONOMICS BOOK OF THE YEAR Compulsively readable An essential course in geopolitical self help Adam Tooze Full of fresh and often surprising ideas Niall Ferguson Extraordinary One of those rare books that defines the terms of our conversation about our times Michael Ignatieff We thought connecting the world would bring lasting peace Instead it is driving us apart In the three decades since the end of the Cold War global leaders have been working to create a connected world They ve integrated the world s economy transport and communications breaking down borders in the hope of making war impossible In doing so they unwittingly created a formidable arsenal of weapons for new kinds of warfare Troublingly we are now seeing rising conflict at every level from individuals on social media all the way up to full blown war in eastern Europe The past decade has seen a new antagonism between the US Russia and China an inability to co operate on global issues such as climate change and pandemic response and a breakdown in the distinction between war and peace as the theatre of conflict expands to include sanctions cyberwar and the pressures of large migrant flows A leading authority on international relations Mark Leonard lays out the ways that globalization has broken its fundamental promise to make our world safer and more prosperous and explores how we might wrest a more hopeful future from an age of unpeace

American Exodus Charlotte Brooks,2019-08-27 In the first decades of the 20th century almost half of the Chinese Americans born in the United States moved to China a relocation they assumed would be permanent At a time when people

from around the world flocked to the United States this little noticed emigration belied America's image as a magnet for immigrants and a land of upward mobility for all. Fleeing racism, Chinese Americans who sought greater opportunities saw China a tottering empire and then a struggling republic as their promised land. *American Exodus* is the first book to explore this extraordinary migration of Chinese Americans. Their exodus shaped Sino-American relations, the development of key economic sectors in China, the character of social life in its coastal cities, debates about the meaning of culture and modernity there, and the U.S. government's approach to citizenship and expatriation in the interwar years. Spanning multiple fields, exploring numerous cities and crisscrossing the Pacific Ocean, this book will appeal to anyone interested in Chinese history, international relations, immigration history, and Asian American studies.

Chinese Migrant Networks and Cultural Change Adam McKeown, 2001-05. Inspired by recent work on diaspora and cultural globalization, Adam McKeown asks in this new book: How were the experiences of different migrant communities and hometowns in China linked together through common networks? *Chinese Migrant Networks and Cultural Change* argues that the political and economic activities of Chinese migrants can best be understood by taking into account their links to each other and China through a transnational perspective. Despite their very different histories, Chinese migrant families, businesses, and villages were connected through elaborate networks and shared institutions that stretched across oceans and entire continents. Through small towns in Qing and Republican China, thriving enclaves of businesses in South Chicago, broad-based associations of merchants and traders in Peru, and an auspicious legacy of ancestors in Hawaii, migrant Chinese formed an extensive system that made cultural and commercial exchange possible.

Immigration and National Identities in Latin America Nicola Foote, Michael Goebel, 2016-12-10. This groundbreaking study examines the connection between what are arguably the two most distinguishing phenomena of the modern world: the unprecedented surges in global mobility and in the creation of politically bounded spaces and identities. Jose C. Moya, author of *Cousins and Strangers*. An excellent collection of studies connecting transnational migration to the construction of national identities. Highly recommended. Luis Roniger, author of *Transnational Politics in Central America*. The importance of this collection goes beyond the confines of one geographic region as it offers new insight into the role of migration in the definition and redefinition of nation-states everywhere. Fraser Ottanelli, coeditor of *Letters from the Spanish Civil War*. This volume has set the standard for future work to follow. Daniel Masterson, author of *The History of Peru*. Between the mid-nineteenth and mid-twentieth centuries, an influx of Europeans, Asians, and Arabic speakers indelibly changed the face of Latin America. While many studies of this period focus on why the immigrants came to the region, this volume addresses how the newcomers helped construct national identities in the Caribbean, Mexico, Argentina, and Brazil. In these essays, some of the most respected scholars of migration history examine the range of responses, some welcoming, some xenophobic, to the newcomers. They also look at the lasting effects that Jewish, German, Chinese, Italian, and Syrian immigrants had on the economic, sociocultural, and political institutions. These explorations of assimilation, race,

formation and transnationalism enrich our understanding not only of migration to Latin America but also of the impact of immigration on the construction of national identity throughout the world Contributors Jürgen Buchenau Jeane DeLaney Nicola Foote Michael Goebel Steven Hyland Jr Jeffrey Lesser Kathleen López Lara Putnam Raanan Rein Stefan Rinke Frederik Schulze
