## **Sunbelt Cities:**

Sunbelt Cities Richard M. Bernard, Bradley Robert Rice, 1984-01-01 Between 1940 and 1980 the Sunbelt region of the United States grew in population by 112 percent while the older graying Northeast and Midwest together grew by only 42 percent Phoenix expanded by an astonishing 1 138 percent San Diego Houston Dallas Fort Worth Tampa Miami and Atlanta quadrupled in size Even a Sunbelt laggard such as New Orleans more than doubled its population Sunbelt Cities brings together a collection of outstanding original essays on the growth and late twentieth century political development of the major metropolitan areas below the thirty seventh parallel The cities surveyed are Albuquerque Atlanta Dallas Fort Worth Houston Los Angeles Miami New Orleans Oklahoma City Phoenix San Antonio San Diego and Tampa Each author examines the economic and social causes of postwar population growth in the city under consideration and the resulting changes in its political climate Major causes of growth such as changing economic conditions industrial recruitment lifestyle preferences and climate are discussed Particular attention is paid to the role of the federal government especially the Pentagon in encouraging development in the Sunbelt Describing characteristic political developments of many of these cities the authors note shifting political alliances the ouster of machines and business elites from political power and the rise of minority and neighborhood groups in local politics Sunbelt Cities is the first full scale scholarly examination of the region popularly conceived as the Sunbelt As one of the first works to thoroughly examine a wide range of cities within the region it has served as a standard reference on the area for some time

*Sunbelt Cities* Richard M. Bernard, Bradley Robert Rice, 2014-06-23 Between 1940 and 1980 the Sunbelt region of the United States grew in population by 112 percent while the older graying Northeast and Midwest together grew by only 42 percent Phoenix expanded by an astonishing 1 138 percent San Diego Houston Dallas Fort Worth Tampa Miami and Atlanta quadrupled in size Even a Sunbelt laggard such as New Orleans more than doubled its population Sunbelt Cities brings together a collection of outstanding original essays on the growth and late twentieth century political development of the major metropolitan areas below the thirty seventh parallel The cities surveyed are Albuquerque Atlanta Dallas Fort Worth Houston Los Angeles Miami New Orleans Oklahoma City Phoenix San Antonio San Diego and Tampa Each author examines the economic and social causes of postwar population growth in the city under consideration and the resulting changes in its political climate Major causes of growth such as changing economic conditions industrial recruitment lifestyle preferences and climate are discussed Particular attention is paid to the role of the federal government especially the Pentagon in encouraging development in the Sunbelt Describing characteristic political developments of many of these cities the authors note shifting political alliances the ouster of machines and business elites from political power and the rise of minority and neighborhood groups in local politics Sunbelt Cities is the first full scale scholarly examination of the region popularly conceived as the Sunbelt As one of the first works to thoroughly examine a wide range of cities within the region it has served as a standard reference on the area for some time

**Snowbelt Cities** Richard M. Bernard, 1990 A major contribution to the literature on changing US regionalism the volume is handsomely produced and thoroughly documented Choice useful and well researched American Politics Review This is an excellent book for use in the course on comparative urban development It is a book that should be read by any urbanist who believes that a historical orientation is the best prelude for understanding the future of urban development into the 21st century Urban Studies Specialists in urban history and urban affairs join forces to compare the recent political histories of twelve major northeastern and midwestern cities These excellent essays delineate intricate patterns of political competition among leaders of competing groups who generally agree on a pro business pro growth agenda as in the Sunbelt The relative power of nonbusiness groups however sets these northern cities apart from those of the Sunbelt and has formed the basis of the Snowbelt's postwar politics

**The New Urban America** Carl Abbott, 1987 New Urban America Growth and Politics in Sunbelt Cities revised edition

*The Rise of the Sunbelt Cities* David C. Perry, Alfred J. Watkins, 1977 This book is consciously organized to critically address and refine a series of the fundamental disciplinary elements comprising American urban studies The goals of the contributors have been larger than simply shedding more analytic light on the issues surrounding the present state of regional tension in the United States We have all attempted to supply new empirical insights within new boundaries of historical and theoretical definitions of urbanism in America As such this volume hopefully represents not only some measure of advancement of our knowledge about urban development but also a useful contribution to the intellectual expansion of the discipline of urban studies The extent to which these highly ambitious goals have been achieved is directly attributable to the eight month process of interaction between the editors and the authors Every contributor spent untold numbers of hours with the editors in a supreme effort to make this project work

**Cities of the World** Stanley D. Brunn, Maureen Hays-Mitchell, Donald J. Zeigler, 2008 A fifth edition of this book is now available This fully updated and revised fourth edition of the classic text offers readers a comprehensive set of tools for understanding the urban landscape and by extension the world's politics cultures and economies Providing a sweeping overview of world urban geography a group of noted experts explores the eleven major global regions Liberally illustrated with a new selection of photographs maps and diagrams the text also includes a rich array of boxed vignettes Clearly written and timely this text will be invaluable for those teaching introductory or advanced classes on global cities regional geography and urban studies

*The Rise of the Sunbelt Cities* David C. Perry, Alfred J. Watkins, 1977 This book is consciously organized to critically address and refine a series of the fundamental disciplinary elements comprising American urban studies The goals of the contributors have been larger than simply shedding more analytic light on the issues surrounding the present state of regional tension in the United States We have all attempted to supply new empirical insights within new boundaries of historical and theoretical definitions of urbanism in America As such this volume hopefully represents not only some measure of advancement of our knowledge about urban development but also a useful contribution to the intellectual expansion of the

discipline of urban studies The extent to which these highly ambitious goals have been achieved is directly attributable to the eight month process of interaction between the editors and the authors Every contributor spent untold numbers of hours with the editors in a supreme effort to make this project work     Building American Cities Joe R. Feagin, Robert Parker, 2002 This is a reprint of a 1990 book A comprehensive analysis of how cities grow change deteriorate and are resuscitated     *The Making of Urban America* Raymond A. Mohl, 1997-06 This second edition is designed to introduce students of urban history to recent interpretive literature in this field Its goal is to provide a coherent framework for understanding the pattern of American urbanization while at the same time offering specific examples of the work of historians in the field     Local Politics: A Practical Guide to Governing at the Grassroots Terry Christensen, Tom Hogen-Esch, 2014-12-18 Unlike most competing texts that are densely written and heavily theoretical with little flavor of political life this book is a readable jargon free introduction to real life local politics for today s students While it encompasses local government and politics in cities and towns across America Local Politics A Practical Guide to Governing at the Grassroots gives special attention to the politics of suburbia where many students live and encourages them to become engaged in their own communities The book is also distinguished by its strong emphasis on nuts and bolts practical politics It provides focused discussion of institutions roles and personalities as well as the dynamic environment of local politics demographics immigration globalization etc and major policy issues budgets land use transportation education etc Other texts treat communities as abstractions and readers as passive observers Local Politics A Practical Guide to Governing at the Grassroots is designed to inspire civic engagement as well as understanding It features In Your Community research projects for students in every chapter along with informative tables clear charts essential terms and guides to useful websites     **City Politics** Annika Marlen Hinze, Dennis R. Judd, 2022-07-12 City Politics has received praise for the clarity of its writing careful research and distinctive theme that urban politics in the United States has evolved as a dynamic interaction between governmental power private actors and a politics of identity The book s enduring appeal lies in its persuasive explanation careful attention to historical detail and accessible and elegant way of teaching the complexity and breadth of urban and regional politics which unfold at the intersection of spatial cultural economic and policy dynamics This 11th edition has been thoroughly updated while retaining the popular structure of past editions Key updates include Individual chapters introducing students to pressing urban issues such as race and racism gentrification sustainability and the environment urban crises shrinking cities immigration and suburbanization political polarization and the COVID 19 pandemic s impact on cities The most recent census data integrated throughout to provide current figures for analysis discussion and a more nuanced understanding of current trends The effects of the events of 2020 on cities namely the Coronavirus pandemic the murder of George Floyd and its aftermath and the growth of the Black Lives Matter Movement and the U S presidential election in November The new and present challenges of the climate crisis and its growing significance for cities Taught on its own or supplemented with the optional

reader American Urban Politics in a Global Age for more advanced readers City Politics remains the definitive text on urban politics and how they have evolved in the United States over time This is a comprehensive resource for a new generation of undergraduate and graduate students as well as established researchers in the discipline This book is accompanied by Support Material online [www.routledge.com/9781032006352](http://www.routledge.com/9781032006352) City Politics, Pearson eText Dennis R. Judd, 2015-09-16 This text provides a foundation for understanding the politics of America's cities and urban regions Praised for the clarity of its writing careful research and distinctive theme that urban politics in the United States has evolved as a dynamic interaction among governmental power private actors and a politics of identity City Politics remains a classic study of urban politics

**Address Unknown** James Wright, 2017-07-05 Describes the nature of homelessness its multiple causes and its demographic economic sociological and social policy antecedents Finding the origins of the problem to be social and political rather than economic Wright human relations Tulane outlines remedies based on existing and modified **City Politics** Annika M. Hinze, Dennis R. Judd, 2018-09-03 Praised for the clarity of its writing careful research and distinctive theme that urban politics in the United States has evolved as a dynamic interaction between governmental power private actors and a politics of identity City Politics remains a classic study of urban politics Its enduring appeal lies in its persuasive explanation careful attention to historical detail and accessible and elegant way of teaching the complexity and breadth of urban and regional politics which unfold at the intersection of spatial cultural economic and policy dynamics Now in a thoroughly revised tenth edition this comprehensive resource for undergraduate and graduate students as well as well established researchers in the discipline retains the effective structure of past editions while offering important updates including All new sections on immigration the Black Lives Matter Movement the downtown condo boom and the impact of the sharing economy on urban neighborhoods especially the rise of Airbnb Individual chapters introducing students to pressing urban issues such as gentrification sustainability metropolitanization urban crises the creative class shrinking cities racial politics and suburbanization The most recent census data integrated throughout to provide current figures for analysis discussion and a more nuanced understanding of current trends Taught on its own or supplemented with the optional reader American Urban Politics in a Global Age for more advanced readers City Politics remains the definitive text on urban politics and how they have evolved in the US over time for a new generation of students and researchers **The Dependent City Revisited** Paul Kantor, 2019-07-11 Here is a book that makes sense of the L A riots homelessness tax giveaways and the other big urban issues that are back in the national spotlight In this streamlined and updated new edition of his classic book The Dependent City Paul Kantor now focuses on economic development and social welfare policies to reveal the key dilemmas of American urban politics Returning to a political economy theme Kantor explores how city governments have struggled to escape and accommodate the reality of their economic dependency in the policies that they've pursued Revisiting cities across the nation Kantor finds not only that they have become more dependent but also that the character of this dependency has changed and

deepened Exploring local regimes in the Frostbelt and Sunbelt and in suburbia he finds that they frequently act more like captives of big business rather than as representatives of citizens Local attempts to promote social justice increasingly run up against a wall of economic dependency created by federal policies and business power This book signals how American cities can find ways of overcoming this dependency by working together with states and the federal government to promote healthy democratic urban politics The Dependent City Revisited is an accessible provocative supplement for a wide variety of courses in urban studies and political economy as well as stimulating reading for anyone who is interested in understanding America s urban mosaic      *Sustainable Development Handbook, Second Edition* Stephen A. Roosa, 2020-12-22 Gaining momentum globally sustainable development is beginning to significantly redefine the policies of corporations and governmental entities Updated throughout the second edition of this popular resource includes updates on LEED measurement and verification and a new chapter on cities and carbon reduction Clarifying critical issues this volume examines proven approaches as well as problems with failed initiatives In addition to core concepts and trends it explores specific renewable energy and environmental solutions It examines global initiatives local politics and ways to effectively measure and track progress      *Essays on Sunbelt Cities and Recent Urban America* Raymond A. Mohl, 1990 For centuries scholars have scrutinized the cities of the Old World poking into ruins and libraries for unwritten and written clues to origins and demise The American cities that have played major roles in the history of the United States have also had their share of study But only recently have historians applied systematic analysis to what is now called the Sunbelt where half the nation s ten largest cities are located cities that have grown astronomically since World War II This volume brings together the important findings of leading urban historians Addressing a variety of topics such as the reasons behind the Sunbelt s boom their essays place the sunbelt phenomenon within the larger context of urban development nationwide Kenneth T Jackson begins the introduction by pointing out the problem of defining the Sunbelt and the reasons for urban growth in the sunbelt areas during the post World War II era Essays by Robert Fisher Roger W Lotchin and Robert B Fairbanks focus on specific cities and leadership issues on the attitudes that shaped Houston on the military s role in the urban development of San Diego and on the politics of governing Dallas from 1930 to 1960 An essay by Carl Abbott looks at the distinctive physical characteristics of cities in the Southwest Raymond A Mohl s essay on the transformation of urban America since 1945 and Zane L Miller s essay on Walter Prescott Webb and cultural regionalism provide broader contexts in which to view and understand urban sunbelt development The essays of this volume reflect the individual authors different methodologies and approaches Taken together they highlight the belief that national development and twentieth century urban trends were as important in shaping sunbelt cities as was the regional culture      *City Power* Richard C. Schragger, 2016 Reigning theories of urban power suggest that in a world dominated by footloose transnational capital cities have little capacity to effect social change In *City Power* Richard Schragger challenges this conventional wisdom arguing that cities can and should pursue aims

other than making themselves attractive to global capital Using the municipal living wage movement as an example Schragger explains why cities are well positioned to address issues like income equality and how our institutions can be designed to allow them to do so      **Trouble in Paradise** Mark Baldassare,1986 Takes a fresh look at American suburbs explains why they are changing and discusses the housing crisis growth local government and demand for services      *A Companion to the American South* John B. Boles,2008-04-15 A Companion to the American South surveys and evaluates the most important and innovative writing on the entire sweep of the history of the southern United States Contains 29 original essays by leading experts in American Southern history Covers the entire sweep of Southern history including slavery politics the Civil War race relations religion and women s history Surveys and evaluates the best scholarship on every important era and topic Summarizes current debates and anticipates future concerns
