Australian Beach Cultures Douglas Booth,2012-12-06 Australians are surrounded by beaches But this enclosure is more than a geographical fact for the inhabitants of an island continent the beach is an integral part of the cultural envelope This work analyzes the history of the beach as an integral aspect of Australian culture **Tourism and Australian Beach**

Cultures Christine Metusela,Gordon Waitt,2012 This book explores the ever changing relationships between bodies oceans beaches and tourism Drawing on feminist scholarship the book focuses on the emergence of Australian beach cultures beyond metropolitan centres from the early 19th century to the early 20th century on the Illawarra beaches some 80 kilometres south of Sydney **Australian Plays for the Colonial Stage** Richard Fotheringham,Angela Turner,2006

Contains the scripts of nine colonial plays each script has been carefully edited or reconstructed from unique manuscripts or rare colonial printed editions Sand In Our Souls Leone Huntsman,2013-05-09 Images of the beach pervade Australian popular culture However the deeper significance of the experience of the beach and its influence on Australian culture generally have not yet been seriously explored How why and when did the beach become part of the Australian way of life In *Sand in our Souls* Leone Huntsman describes the forces and pressures that encouraged or impeded Australians enjoyment of sand and surf from early enjoyment of bathing through nearly a century of repressive restrictions to freedom won in the face of drawn out opposition The ways in which artists writers film makers and the advertising industry have depicted the beach are examined for the light they throw on the beach s significance She traces the development of a distinctively Australian way of being at the beach suggesting that the beach experience has been absorbed into our emerging culture and continues to shape it in subtle ways Huntsman s provocative arguments will stimulate debate on the concept of national identity appropriate for a new Australian century and promote a deeper understanding of an aspect of life in Australia that is cherished by many of those who live here **Something Rich and Strange** Sue Hosking,Susan Hosking,2009 Beaches are

places of contact play confrontation and friction first comers always arrive on a beach After Europeans moved into the Antipodes the coast was the first frontier to be defined Flinders circumnavigation in 1802 had mapped Australia revealing the land as girt by sea as the national anthem continues to remind us All kinds of ideas about the coast beaches sea changes holiday places and islands swirl and eddy in this unique collection of writing **Australian Popular Culture** Ian Craven,Martin Gray,Geraldine Stoneham,1994-04-29 Australia s leisure culture is legendary and as millions of British viewers of *Neighbours* fans of *Yothu Yindi* or drinkers of *Castlemaine XXXX* would attest Australian popular culture is popular outside of Australia *Australian Popular Culture* is an exciting collection of essays bringing together new perspectives on the nature and meaning of a nation s changing life The collection also explores the idea of popular culture at large Leading authors represent a range of approaches backgrounds and fields to explore subjects of wide interest within the

into history involves engagement with a multitude of different sources and methods and sports historians inevitably participate in the same debates over approaches and methodologies as their counterparts in other historical disciplines At its heart history remains a genre of empirical knowledge that is based upon the remains of the past and without suitable evidence there can be no sports history A burgeoning range of sources has stimulated new ways of thinking and a significant expansion in the sports historian s evidentiary base as textual sources have been supplemented by photos films and cartoons uniforms architecture maps and landscapes and material culture more generally This book deals with some of these innovations It is divided into two sections the first offering chapter length studies of particular methodologies and the second brief responses from experts in their fields to the question what can sports historians learn from other disciplines

Recreational Uses of Coastal Areas P. Fabbri, 2012-12-06 Human clustering in coastal areas The coastal zone has gained a solid reputation as a place vocated for recreational activities and this is generally related to the presence of the sea The relationship however does not appear univocal or simple the sea can be perceived as a hostile element by humans and the more general question of whether the presence of the shore is in itself a favourable repulsive or irrelevant factor to settlement is a debatable point at least for pre industrial societies Back in the early part of the 19th century Friedrich Hegel regarded oceans and rivers as unifying elements rather than dividing ones thus implying a trend towards the concentration of human settlements along them The sea he wrote stimulates 1 courage and conquest as well as profit and plunder although he realized that this did not equally apply to all maritime peoples In Hegel s view different approaches to the sea were mainly the results of cultural factors and in fact he recognized that some people living in coastal areas perceive the sea as a dangerous and alien place and the shore as *aftnis terrae* *Port Jackson Pullers* Stephen Gard, 2024-05-21 Australia had sporting champions before it had self government The earliest champions were watermen A waterman s trade was working small boats and a waterman s sport was racing them In the many splendid bays and coves of Port Jackson and along reaches of the Parramatta River pullers won their rowing laurels and sometimes made their fortune Australia s first six champion oarsmen are the stars of Port Jackson Pullers These men led the way to the nation s future dominance of the World Sculling Championship Until now any history of Australian sculling began in the year 1876 when Edward Trickett won the Championship of the Thames But Trickett emerged from a well organised aquatic sport which was flourishing on the waters of Port Jackson decades before he first stepped into a boat John Brennan George Mulhall Thomas McGrath Richard Green William Hickey and James Punch six names that deserve honour in the world of rowing Champions all and all of humble origin they fathered and furthered Australian professional sculling Richard Green took it furthest of all to the River Thames where in 1863 he raced Britain s best for the Championship of the World Professional rowing was not established in Port Jackson without colour or controversy In rough and tumble colonial times good sportsmanship was an optional extra Port Jackson Pullers revives and explores this vigorous and occasionally villainous scene **Roads, Tourism and Cultural**

History Rosemary Kerr, 2018-12-20 Roads and road tourism loom large in the Australian imagination as distance and mobility have shaped the nation's history and culture but roads are more than simply transport routes they embody multiple layers of history mythology and symbolism Drawing on Australian travel writing diaries and manuscripts tourism literature fiction poetry and feature films this book explores how Australians have experienced and imagined roads and road touring beyond urban settings from Aboriginal songlines to modern day road trips It also tells the stories of iconic roads including the Birdsville Track Stuart Highway and Great Ocean Road and suggests alternative approaches to heritage and tourism interpretation of these important routes The ongoing impact of the colonial past on Indigenous peoples and contemporary Australian society and culture including representations of the road and road travel is explored throughout the book The volume offers a new way of thinking about roads and road tourism as important strands in a nation's cultural fabric

Water-based Tourism, Sport, Leisure, and Recreation Experiences Gayle Jennings, 2007 Offers a unique insight into these growing areas of the tourism industry looking at their interaction market profiles advantages and their effects on the environment Gayle Jennings Griffith University Australia

The Australian Experience R. L. Heathcote, 1988 The 26th International Geographical Congress the first to be held in Australia was held in Sydney in August 1988 and provided the initial stimulus for this book In it twenty six geographers have contributed essays to illustrate the scope of the unique processes of land settlement and resource management which have taken place on the continent over the last two hundred years The essays cover a wide range of themes from the roles of international political theory international capital and international relations on the one hand to the roles of federal and state governments and the conservation lobby on the other from the attempts to come to terms with the environmental constraints of this wide brown land to the environmental impacts of intensive often destructive resource management and finally from demography to the social role of cricket and the future role of the nation in its region The scope of these essays is a reminder not only of the complex linkages which have created the current Australian landscape but also of the geographers role in interpreting those linkages for contemporary society p 4 of cover
