## **Suns Beyond Suns An Inquiry Into The Higher Reaches Of Creation:**

**Suns Beyond Suns** John Van Horne, 2005-06-01 Within the world's esoteric traditions is a colossal but little known idea. The Creation emerges from God as an immense chain of Great Central Spiritual Suns, tremendous focuses of God's Light and Power that give birth to whole universes and systems of universes. What if one could experience those Spiritual Suns and call forth some of their tremendous power for the earth? In 2001 a student of the esoteric traditions began pondering this idea. Unfolding like a detective story, this book recounts John Van Horne's meticulous efforts to assemble a picture of the Great Central Suns, develop a method for invoking them, and deal with the tremendous outpourings of energy that resulted. The Sun to the Earth and Beyond National Research Council, Division on Engineering and Physical Sciences, Space Studies Board, Committee on Solar and Space Physics, Solar and Space Physics Survey Committee, 2003-12-17 This volume, The Sun to the Earth and Beyond Panel Reports, is a compilation of the reports from five National Research Council (NRC) panels convened as part of a survey in solar and space physics for the period 2003-2013. The NRC's Space Studies Board and its Committee on Solar and Space Physics organized the study. Overall direction for the survey was provided by the Solar and Space Physics Survey Committee, whose report The Sun to the Earth and Beyond: A Decadal Research Strategy in Solar and Space Physics was delivered to the study sponsors in prepublication format in August 2002. The final version of that report was published in June 2003. The panel reports provide both a detailed rationale for the survey committee's recommendations and an expansive view of the numerous opportunities that exist for a robust program of exploration in solar and space physics.
