Philip Sidney and the Poetics of Renaissance Cosmopolitanism Robert E. Stillman, 2016-04-22 Celebrations of literary fictions as autonomous worlds appeared first in the Renaissance and were occasioned paradoxically by their power to remedy the ills of history Robert E Stillman explores this paradox in relation to Philip Sidney's *Defence of Poesy* the first Renaissance text to argue for the preeminence of poetry as an autonomous form of knowledge in the public domain Offering a fresh interpretation of Sidney's celebration of fiction making Stillman locates the origins of his poetics inside a neglected historical community the intellectual elite associated with Philip Melancthon leader of the German Reformation after Luther the so called Philippists As a challenge to traditional Anglo-centric scholarship his study demonstrates how Sidney's education by Continental

Philippists enabled him to dignify fiction making as a compelling form of public discourse compelling because of its promotion of powerful new concepts about reading and writing its ecumenical piety and its political ambition to secure through natural law from universal Ideas freedom from the tyranny of confessional warfare Intellectually ambitious and wide ranging this study draws together various elements of contemporary scholarship in literary religious and political history in order to afford a broader understanding of the Defence and the cultural context inside which Sidney produced both his poetry and his poetics

Sonnet Sequences and Social Distinction in Renaissance England Christopher Warley, 2005-07-28 Why were sonnet sequences popular in Renaissance England In this study Christopher Warley suggests that sonneteers created a vocabulary to describe and to invent new forms of social distinction before an explicit language of social class existed The

tensions inherent in the genre between lyric and narrative between sonnet and sequence offered writers a means of reconceptualizing the relation between individuals and society a way to try to come to grips with the broad social transformations taking place at the end of the sixteenth century By stressing the struggle over social classification the book revises studies that have tied the influence of sonnet sequences to either courtly love or to Renaissance individualism Drawing on Marxist aesthetic theory it offers detailed examinations of sequences by Lok Sidney Spenser Shakespeare and Milton It will be valuable to readers interested in Renaissance and genre studies and post Marxist theories of class

[Index of Conference Proceedings](#) British Library. Document Supply Centre, 1991-07 **Subject Guide to Books in Print**, 1993 **Unwritten Poetry** Scott A. Trudell, 2019-03-07 Vocal music was at the heart of English Renaissance poetry and drama Virtuoso actor singers redefined the theatrical culture of William Shakespeare and his peers Composers including William Byrd and Henry Lawes shaped the transmission of Renaissance lyric verse Poets from Philip Sidney to John Milton were fascinated by the disorienting influx of musical performance into their works Musical performance was a driving force behind the period's theatrical and poetic movements yet its importance to literary history has long been ignored or effaced This book reveals the impact of vocalists and composers upon the poetic culture of early modern England by studying the media through which and by whom its songs were made In a literary field that was never confined to writing media were not limited to material texts Scott Trudell argues that the media of Renaissance poetry can be conceived as any node of transmission from singer's larynx to actor's body Through his study of song Trudell outlines a new approach to Renaissance poetry and drama that is grounded not simply in performance history or book history but in a more synthetic media history

[The Ottoneum Theater](#) Graham Cleveland Adams, 1993 *Elizabeth I* Carole Levin, Jo Eldridge Carney, Debra Barrett-Graves, 2003 This interdisciplinary collection by historians cultural critics and literary scholars examines a variety of the political social and cultural forces at work during the English Renaissance and beyond forces that contributed to creating a wealth of artistic literary and historical impressions of Elizabeth her court and the time period named after her the Elizabethan age Articles in the collection discuss Elizabeth's relationships investigate the advice given her explore

connections between her court and the arts and consider the role of Elizabeth's court in the political life of the nation. Some of the ways Elizabeth was understood and represented demonstrate society's fears and ambivalence about early modern women in power while others celebrate her successes as England's first and only unmarried queen regnant. This volume will be of interest to scholars and students in a wide range of disciplines including literary, cultural, historical, and women's studies as well as those interested in the life and times of Elizabeth I. **Shakespeare and Shakespeariana** Meisei Daigaku.

Toshokan, 1993 **The British National Bibliography** Arthur James Wells, 1991 *Transcultural Poetics and the Concept of the Poet* Ranjan Ghosh, 2016-12-08 Critiquing the politics and dynamics of the transcultural poetics of reading literature, this book demonstrates an ambitious understanding of the concept of the poet across a wide range of traditions: Anglo-American, German, French, Arabic, Chinese, Sanskrit, Bengali, Urdu, and philosophies of creativity that are rarely studied side by side. Ghosh carves out unexplored spaces of negotiation and intersections between literature, aesthetics, and philosophy. The book demonstrates an original method of global comparison that displaces the relatively staid and historicist categories that have underpinned comparative literature approaches so far, since they rarely dare stray beyond issues of influence and schools or new world literature approaches that affirm cosmopolitanism and transnationalism as overarching themes. Going beyond comparatism and reformulating the chronological patterns of reading, this bold book introduces new methodologies of reading literature to configure the concept of the poet from Philip Sidney to T. S. Eliot, reading the notion of the poet through completely new theoretical and epistemic triggers. Commonly known texts and sometimes well-circulated ideas are subjected to refreshing reading in what the author calls the transcultural now and in fusionised transpoetical matrices. By moving between theories of poetry and literature that come from widely separated times, contexts, and cultures, this book shows the relevance of canonical texts to a theory of the future as marked by post-global concerns. **Memory and Mortality in Renaissance England** William E. Engel, Rory Loughnane, Grant Williams, 2022-10-13 This collection reexamines commemoration and memorialization as generative practices illuminating the hidden life of Renaissance death arts.
