Sororophobia Helena Michie, 1992-05-28 This book looks at how differences among women have been textually represented at a variety of historical moments and in a variety of cultural contexts including Victorian mainstream fiction African American mulatto novels late twentieth century lesbian communities and contemporary country music Sororophobia designates the complex and shifting relations between women s attempts to identify with other women and their often simultaneous desire to establish and retain difference Michie argues for the centrality to feminism of a paradigm that moves beyond celebrations of identity and sisterhood to a more nuanced notion of women s relations with other women which may include such uncomfortable concepts as envy jealousy and competition as well as more institutionalized ideas of difference such as race and class Chapters on literature are interspersed by inter chapters on the choreography of sameness and difference among women in popular culture

Sisters and Brothers/daughters and Sons Sarah H. Matthews,2002 Matthews asks 149 pairs of siblings with at least one parent over 75 about family interaction Old parents are rarely portrayed as a privilege this book presents a more realistic positive picture Academic but with minimal jargon Fully returnable *Disorderly Sisters* Leila Silvana May,2001 Historians and literary critics have long understood the crucial significance of the family to the nineteenth century middle class sensibility but almost all critical analyses to date have concentrated on the vertical pole of the familial axis the parent child relationship and very little on the horizontal pole the sibling bond This book looks beyond these analyses to show that at the core of nineteenth century domestic ideology is the figure of the sister BOOK JACKET **Pioneer Spirit** Mary Ellen Doyle,2014-07-11 Mother Catherine Spalding 1793 1858 was the cofounder and first leader of one of the most significant American religious communities for women the Sisters of Charity of Nazareth near Bardstown Kentucky Elected at age nineteen to lead the order Spalding also founded several educational institutions Louisville s first private hospital and the first social service agency for children in Kentucky Pioneer Spirit is the first biography of Catherine Spalding a woman who made it her life s work to serve the citizens of the Kentucky frontier Catherine who lost her mother at a young age and was raised in many different homes before she was ten years old eventually came to be raised in a colony of Catholic families

These formative years taught her independence the value of hard work and an enduring spirit and the importance of education all of which would figure prominently in her later career Spalding became increasingly interested in health care services for orphans and education and her business skills and strong sense of purpose allowed her to achieve her goals with little interference from outsiders She showed a natural gift for administration and the scope and services of the Sisters of Charity expanded under her leadership In the midst of this ministerial work however Spalding always maintained the connection of her ministry to spiritual and communal life ascribing great importance to all three facets of her calling Author Mary Ellen Doyle notes that in Spalding s correspondence with the Sisters she repeatedly emphasized the heart of charity genuine interest in each other and sisterly affection free of personal ambition or jealousy By the time of Catherine Spalding s death the Sisters of Charity of Nazareth extended beyond Nazareth to more than one hundred sisters in sixteen convents Spalding s legacy of service continues today with more than six hundred members worldwide and her story of progressive and compassionate leadership offers unique insights into the growth of a religious order and the struggles of developing America s frontier communities *Select Novels* ,1845 The Suppressed Sister Amy K. Levin,1992 Contentious behavior among biological sisters frequently contradicts ideals of sisterhood in novels by women Additionally feminist criticism focusing on almost every imaginable relationship involving women has all but ignored sisters Amy K Levin s *The Suppressed Sister* studies these circumstances their causes and consequences How and why is the sister bond suppressed in favor of sisterhood Answers to this question may be found in female psychology social expectations and patriarchal myths and stories The tales of Cinderella and Psyche are paradigmatic providing models of female competition and inscribing a conclusion that replaces sisterly closeness with heterosexual romance Jane Austen s sister plot is based on these models Her characters divide into pairs and adopt complementary personalities but polarization does not erase competition instead marriage erects social and economic barriers which enforce role divisions In *Wives and Daughters* Cranford and *The Life of Charlotte Bronte* Elizabeth Gaskell shows the danger of too close an attachment to the paternal home She too emphasizes differences revealing how they ultimately lead siblings to seek a sisterhood outside the family In *Mill on the Floss* Middlemarch and *Daniel Deronda* George Eliot paints increasingly negative portraits of sisters indicating that female siblings create differences where few or none exist These denials of similarity heighten the heroines isolation Twentieth century novelists including Barbara Pym Elizabeth Jane Howard and Margaret Drabble revise their predecessors texts drafting a plot after the father s They reject rules governing female behavior and question the expectation that women must get along with one another Finally Emma Tennant s *Bad Sister* together with several recent American novels abandons the conventions of the realistic novel challenging the very concept of character Tennant undermines all distinctions including those that treat sisters as separate individuals and those that classify certain behaviors as good or bad These novels show a progression that has been ignored or suppressed by feminist critics many of whom long for an idyll of sisterhood inherited from nineteenth

century portraits of the angel in the house In denying anger or antagonism women cut off a part of themselves just as Cinderella s stepsisters amputate their toes to fit in her brittle glass slipper Levin s book questions the rationale behind such self destruction
