Sisters Through The Seasons:

The Sister Season Jennifer Scott, 2013-11-05 Sometimes coming home for the holidays isn't as easy as it seems. It's December 21 and the Yancey sisters have been called home. When the girls were young, holidays at their family farm meant a tinsel-garnished tree, the scent of simmering food, and laughter ringing through the house. But as the years unfolded, family bonds fractured and the three sisters scattered and settled into separate lives. Until now. The Yancey sisters are coming to spend the holidays with their mother. They're also coming to bury their father. Claire, the youngest, a free spirit who journeyed to California, returns first. Then comes Julia, the eldest, a college professor with a teenage son of her own. And finally, there's Maya, the middle child who works so hard to be the perfect mother and wife. During the sisters' week together, old conflicts surface, new secrets emerge, and the limits and definitions of family are tested. And as the longest night of the year slips by and brightening days beckon, the sisters will have to answer one question: When you're a sister, aren't you a sister forever?

Douglas Whynott follows Bascom through one tumultuous season taking us deep into the sugarbush where sunlight and sap are intimately related and the sound of the taps gives the woods a rhythm and a ring Along the way he reveals the inner workings of the multimillion dollar maple sugar industry Make no mistake it s big business complete with a Maple Hall of Fame a black market a major syrup heist monitored by Homeland Security a Canadian organization called The Federation and a Global Strategic Reserve that s comparable to OPEC fitting since a barrel of maple syrup is worth more than a barrel of oil Whynott brings us to sugarhouses where we learn the myriad subtle flavors of syrup and how it s assigned a grade He examines the unusual biology of the maple tree that makes syrup possible and explores the maples and the industry s chances for survival highlighting a hot button issue how global warming is threatening our food supply Experts predict that by the end of this century maple syrup production in the United States may suffer a drastic decline As buckets and wooden spouts give way to vacuum pumps and tubing we see that even the best technology can t overcome warm nights in the middle of a season and that only determined men like Bascom can continue to make a sweet life out of rugged land DIV
