The Rise of New Media 1750-1850 Julia Straub,2017-05-22 This monograph explores transatlantic literary culture by tracing the proliferation of new media such as the anthology the literary history and the magazine in the period between 1750 and 1850 The fast paced media landscape out of which these publishing genres developed produced the need of a memory of literature and a concomitant rhetoric of remembering strikingly similar to what today is called a cultural

memory debate Thus rather than depicting the emergence of an American national literature The Rise of New Media 1750 1850 combines impulses from media history the history of print the sociology of literature and canon theory to uncover nascent forms and genres of literary self reflectivity and early stirrings of a canon debate in the Atlantic World **THE CHIEF AMERICAN POETS** CURTIS HIDDEN PAGE, PH. D.,1905 **The Six-cornered Snowflake and Other Poems** John Frederick Nims,1990 As a preeminent modernist poet and translator of the classics John Frederick Nims s work is an elegant fusion of contemporary sensibility with formalist experimentation But form for this writer of meditative verse is only a helpmeet to the quintessential content of the poem the meaning that gives it value in our time and one hopes beyond Concerning the formal elements of poetry Nims comments One might say they are like the scaffolding at a construction site meant to be thrown away and not regarded once the building is completed In his newest collection The Six Cornered Snowflake his poems range through an astonishing variety of complex structures the shaped poem of the title work the sestina the vocal Pindar s lattice of the First Olympian Ode the nervous galliambics of Catullus 63 just to name a few As William Pritchard writing for The New York Times Book Review so aptly observed Mr Nims has consistently had the nerve to be interested in what language could be made to do rather than what the psyche would be made to reveal **Doubtful Sounds** Bill Manhire,2000 Bill Manhire takes the books and poems he loves out of the pupil and lecture hall and returns them to their readers In these pages unlikely people rub shoulders Ralph Hotere and Philip Larkin Sylvia Plath and James K Baxter Maurice Gee and Laura Ranger Then along the way Manhire investigates why the world s best poems sound like dirty songs tell outrageous lies and thrive on their own mistakes These essays and interviews will not tell you what to think but they will probably inspire you to do your own thinking **A Companion to American Poetry** Mary McAleer Balkun,Jeffrey Gray,Paul Jaussen,2022-04-11 A COMPANION TO AMERICAN POETRY A Companion to American Poetry brings together original essays by both established scholars and emerging critical voices to explore the latest topics and debates in American poetry and its study Highlighting the diverse nature of poetic practice and scholarship this comprehensive volume addresses a broad range of individual poets movements genres and concepts from the seventeenth century to the present day Organized thematically the Companion s thirty seven chapters address a variety of emerging trends in American poetry providing historical context and new perspectives on topics such as poetics and identity poetry and the arts early and late experimentalisms poetry and the transcendent transnational poetics poetry of engagement poetry in cinema and popular music Queer and Trans poetics poetry and politics in the 21st century and African American Asian American Latinx and Indigenous poetries Both a nuanced survey of American poetry and a catalyst for future scholarship A Companion to American Poetry is essential reading for advanced undergraduate and graduate students academic researchers and scholars and general readers with interest in current trends in American poetry **Contemporary Verse** Howard S. ,2006 Six Contemporary French Women Poets ,1997 Although many practice the art contemporary French women poets generally have been vastly underrepresented in periodicals and anthologies In the only anthology to feature avant garde French women poets exclusively Gavronsky shows how Kaplan Grangaud Portugal Lapeyr re Giraudon and Risset differ from their American counterparts Before presenting his translations of the poems Gavronsky gives each poet the opportunity to define herself in terms of major influences on her poetry distinctive traits in her writing major themes in her work and the influence of gender on her art The poets also speculate about the relative underrepresentation of women poets in French periodicals and anthologies as well as about the form poetry might take in the twenty first century The poems in this volume are simultaneously delightful informative and combative They typify according to Gavronsky some of the main currents of a poetics in the making a poetics little known in the United States In reaffirming women s involvement with poetry Gavronsky believes that he has reconnected today s work with an immemorial tradition that in France clearly goes back to the Middle Ages Six Poets from the Mountain South John Lang,2010-04-20 In the most extensive work to date on major poets from the mountain South John Lang takes as his point of departure an oft quoted remark by Jim Wayne Miller Appalachian literature is and has always been as decidedly worldly secular and profane in its outlook as the region s traditional religion appears to be spiritual and otherworldly Although this statement may be accurate for Miller s own poetry and fiction Lang maintains that it does not do justice to the pervasive religious and spiritual concerns of many of the mountain South s finest writers including the five other leading poets whose work he analyzes along with Miller s Fred Chappell Robert Morgan Jeff Daniel Marion Kathryn Stripling Byer and Charles Wright Lang demonstrates all write poetry that explores sometimes with widely varying results what they see as the undeniable presence of the divine within the temporal world Like Blake and Emerson before them these poets find the supernatural within nature rather than beyond it They all exhibit a love of place in their poems a strong sense of connection to nature and the land especially the mountains Yet while their affirmation of the world before them suggests a resistance to the otherworldliness that Miller points to their poetry is nonetheless permeated with spiritual questing Dante strongly influences both Chappell and Wright though the latter eventually resigns himself to being simply a God fearing agnostic whereas Chappell follows Dante in celebrating the love that moves the sun and other stars Byer probably the least orthodox of these poets chooses to lay up treasures on earth rejecting the transcendent in favor of a Native American spirituality of immanence while Morgan and Marion find in nature what Marion calls a vocabulary of wonders akin to Emerson s conviction that nature is the language of the spiritual Employing close readings of the poets work and relating it to British and American Romanticism as well as contemporary eco theology and eco criticism Lang s book is the most ambitious and searching foray yet into the worlds of these renowned post World War II Appalachian poets
