Vierci,2023-12-14 It was 13 October 1972 Uruguayan Air Force Flight 571 carrying a team of young rugby players their families and friends took off for the very last time A deadly miscalculation saw F571 crash directly into the Andean mountains to devastating consequences the body of the plane broke violently into two its floor torn to smithereens seats flew out of the air taking passengers with them In the weeks that followed the remaining people who were on board the society of the snow emerged to fight a dire gruelling battle for survival Waiting for a rescue team that didn t arrive the survivors became fewer

and fewer in numbers Stranded alone on a glacier they had to face brutal temperatures lethal avalanches and the loss of friends and family with no access to supplies food or water In order to survive they had to do the unthinkable It wasn't until seventy two days later that they were able to reach safety Alarminglly gritty moving and powerfully told journalist Pablo Vierci recounts the unsettling stories of the sixteen survivors in intimate detail Drawing on exclusive interviews Society of the Snow delves into the tragedy of the crash and how it radically redefined the rest of the survivors lives Ultimately however the book is a touching testament to the strength of faith friendship and the resilience of the human spirit

Anomalies and Curiosities of Medicine Walter L. Pyle,2015-11-23 Menstruation has always been of interest not only to the student of medicine but to the lay observer as well In olden times there were many opinions concerning its causation all of which until the era of physiologic investigation were of superstitious derivation Believing menstruation to be the natural means of exit of the feminine bodily impurities the ancients always thought a menstruating woman was to be shunned her very presence was deleterious to the whole animal economy as for instance among the older writers we find that Pliny remarks On the approach of a woman in this state must will become sour seeds which are touched by her become sterile grass withers away garden plants are parched up and the fruit will fall from the tree beneath which she sits He also says that the menstruating women in Cappadocia were perambulated about the fields to preserve the vegetation from worms and caterpillars According to Flemming menstrual blood was believed to be so powerful that the mere touch of a menstruating woman would render vines and all kinds of fruit trees sterile Among the indigenous Australians menstrual superstition was so intense that one of the native blacks who discovered his wife lying on his blanket during her menstrual period killed her and died of terror himself in a fortnight Hence Australian women during this season are forbidden to touch anything that men use Aristotle said that the very look of a menstruating woman would take the polish out of a mirror and the next person looking in it would be bewitched Frommann mentions a man who said he saw a tree in Goa which withered because a catamenial napkin was hung on it Bourke remarks that the dread felt by the American Indians in this respect corresponds with the particulars recited by Pliny Squaws at the time of menstrual purgation are obliged to seclude themselves and in most instances to occupy isolated lodges and in all tribes are forbidden to prepare food for anyone save themselves It was believed that were a menstruating woman to step

astride a rifle a bow or a lance the weapon would have no utility Medicine men are in the habit of making a protective clause whenever they concoct a medicine which is to the effect that the medicine will be effective provided that no woman in this condition is allowed to approach the tent of the official in charge The Sixty-Fourth Report of the Visiting Justices of the County Lunatic Asylum, at Hanwell Great Britain.
