Skepticism And The Veil Of Perception:

Skepticism and the Veil of Perception Michael Huemer, 2001-07-17 Since Descartes one of the central questions of Western philosophy has been that of how we know that the objects we seem to perceive are real Philosophical skeptics claim that we know no such thing Representationalists claim that we can gain such knowledge only by inference by showing that the hypothesis of a real world is the best explanation for the kind of sensations and mental images we experience Both accept the doctrine of a veil of perception that perception can only give us direct awareness of images or representations of objects not the external objects themselves In contrast Huemer develops a theory of perceptual awareness in which perception gives us direct awareness of real objects not mental representations and we have non inferential knowledge of the properties of these objects Further Huemer confronts the four main arguments for philosophical skepticism showing that they are powerless against this kind of theory of perceptual knowledge

Skepticism and the Veil of Perception Michael Huemer, 2001 In opposition to both skeptics and representationalists Huemer philosophy U of Colorado Boulder presents a theory of perceptual awareness according to which perception gives us direct awareness of real objects and non inferential knowledge of the properties of these objects He responds to the major arguments for skepticism including the infinite regress argument the problem of the criterion the brain in the vat and the impossibility of verification c Book News Inc

Hegel and Skepticism Michael N. Forster, 1989 The rejection by Anglo Saxon philosophers of much continental philosophy from Hegel on down is largely based on the perceived failure of continental thinkers to grapple with the tough questions of epistemology in general and skepticism in particular Forster demonstrates that Hegel did not in fact ignore epistemology but on the contrary he fought a tireless and subtle campaign to defeat the threat of skepticism Forster's work should dispel once and for all the view that Hegel was naive or careless in epistemological matters Forster begins by discussing Hegel's critical interpretation of the skeptical tradition in particular his convincingly argued case for the superiority of ancient over modern skepticism He goes on to show that the difficulties characteristic of ancient skepticism play a crucial and fascinating role in Hegel's philosophy of history Hegel sees in the emergence of these difficulties an explanation of why the harmonious unified Greek culture collapsed and was replaced by the division and alienation characteristic of subsequent western culture Finally Forster examines the elaborate and ingenious system of defenses erected by Hegel to protect his philosophical thought against skeptical difficulties as the core of a somewhat broader epistemological project Along the way Forster makes much that has hitherto remained obscure in Hegel's texts intelligible for the first time This book should cause a re evaluation of Hegel and German Idealism generally and contribute to a re evaluation of the skeptical tradition in philosophy

Kant and Skepticism Michael N. Forster, 2010-05-17 This book puts forward a much needed reappraisal of Immanuel Kant's conception of and response to skepticism as set forth principally in the Critique of Pure Reason It is widely recognized that Kant's theoretical philosophy aims to answer skepticism and reform

metaphysics Michael Forster makes the controversial argument that those aims are closely linked He distinguishes among three types of skepticism veil of perception skepticism which concerns the external world Humean skepticism which concerns the existence of a priori concepts and synthetic a priori knowledge and Pyrrhonian skepticism which concerns the equal balance of opposing arguments Forster overturns conventional views by showing how the first of these types was of little importance for Kant but how the second and third held very special importance for him namely because of their bearing on the fate of metaphysics He argues that Kant undertook his reform of metaphysics primarily in order to render it defensible against these types of skepticism Finally in a critical appraisal of Kant's project Forster argues that despite its strengths it ultimately fails for reasons that carry interesting broader philosophical lessons These reasons include inadequate self reflection and an underestimation of the resources of Pyrrhonian skepticism

Debating Christian Religious

Epistemology John M. DePoe, Tyler Dalton McNabb, 2020-02-06 What does it mean to believe in God What passes as evidence for belief in God What issues arise when considering the rationality of belief in God Debating Christian Religious Epistemology introduces core questions in the philosophy of religion by bringing five competing viewpoints on the knowledge of God into critical dialogue with one another Each chapter introduces an epistemic viewpoint providing an overview of its main arguments and explaining why it justifies belief The validity of that viewpoint is then explored and tested in a critical response from an expert in an opposing tradition Featuring a wide range of different philosophical positions traditions and methods this introduction Covers classical evidentialism phenomenal conservatism proper functionalism covenantal epistemology and traditions based perspectivalism Draws on MacIntyre's account of rationality and ideas from the Analytic and Conservatism traditions Addresses issues in social epistemology Considers the role of religious experience and religious texts Packed with lively debates this is an ideal starting point for anyone interested in understanding the major positions in contemporary religious epistemology and how religious concepts and practices relate to belief and knowledge

Four

Views on Christian Metaphysics Timothy M. Mosteller, 2022-03-10 Four Views on Christian Metaphysics presents four prominent views held among Christians today on the major questions in philosophical metaphysics What is the nature of existence itself What is it for something to exist What are universals What is the soul How do these things relate to God in light of special and general revelation The four Christian perspectives presented in this book are Platonism Aristotelianism idealism and postmodernism The purpose of this book is to help Christians think deeply and carefully about a Christian view of the ultimate nature of reality and our place in it

Hegel's Idea of a Phenomenology of Spirit Michael N.

Forster, 1998-05-13 Forster's reading reveals the Phenomenology of Spirit as in fact an impressively coherent text containing a rich array of ideas of extraordinary philosophical originality and depth
