Social Life Of Information:

   The Social Life of Information John Seely Brown,Paul Duguid,2000 Offers an optimistic look at the future role of information technology in society going beyond the simplicities of information and individuals Explains how many of the tools jobs and organizations seemingly targeted for future extinction due to information technology in fact provide useful social resources that people will fight to keep Brown is chief scientist at Xerox Corporation and director of the Xerox Palo Alto Research Center Duguid is research specialist in social and cultural studies in education at the University of California Berkeley Annotation copyrighted by Book News Inc Portland OR   **The Social Life of Information** ,2002

   Technology, Culture and Communication Jonathan Savage,Clive McGoun,2012 Providing clear guidance on the underpinning theory and policy and drawing upon current initiatives in schools this book is essential reading for trainee and practising teachers wanting to know how the technology and media dimension can be delivered in practice   **Teaching Contemporary Themes in Secondary Education: Technology, Culture and Communication** Jonathan Savage,Clive McGoun,2012-04-12 The media has a huge impact on how we view society and the world and new technologies continue to transform the way in which we work and learn It is therefore essential that young people can engage critically in their consumption of media and the internet and are able to make informed decisions about the technologies they use This book explores   **Army AL & T** ,2001   **Museum Philosophy for the Twenty-First Century** Hugh H. Genoways,2006-06-08 What underlying philosophy and mission should museums pursue in the first half of the twenty first century In Museum Philosophy twenty four authors use the lenses of a variety of disciplines to answer this essential question Museum professionals offer their answers alongside philosophers historians political scientists educators sociologists and others in a wide ranging exploration of institutions from art museums to zoos Hugh Genoway s book offers philosophical and ethical guidelines describes the ways specific institutions illustrate different philosophies examines major divisions in the museum community and explores outreach and engagement between the museum and its larger community Both established museum professionals and students of museum studies will benefit from this insightful look into the foundations and future of their field   **Libraries and Society** Wendy Evans,David Baker,2011-04-30 This book reviews both the historical and future roles that public private academic and special libraries have in supporting and shaping society at local regional national and international levels Globalisation economic turmoil political and ethnic tensions rapid technology development global warming and other key environmental factors are all combining in myriad and complex ways to affect everyone both individually and collectively Fundamental questions are being asked about the future of society and the bedrock organisations that underpin it Libraries and Society considers the key aspects of library provision and the major challenges that libraries however defined managed developed and provided now face and will continue to face in the future It also focuses on the emerging chapter in cultural economic and social history and the library s role in serving diverse communities

within this new era Looks at all types of library in a period of major and discontinuous change tackling the fundamental questions of the future of libraries in the context of major societal political and environmental issues Poses important questions for the profession and policy development Fills a major gap in literature recent discourse and debate on the future of democracy for example the library is rarely included **The Sexual Organization of the City** Edward O. Laumann,Stephen Ellingson,Jenna Mahay,Anthony Paik,Yoosik Youm,2005-08-01 We think of the city as a place where anything goes Take the sensational fantasies and lurid antics of single women on Sex in the City or young men on Queer as Folk and you might imagine the city as some kind of sexual playground a place where you can have any kind of sex you want with whomever you like anytime or anywhere you choose But in The Sexual Organization of the City Edward Laumann and company argue that this idea is a myth Drawing on extensive surveys and interviews with Chicago adults they show that the city is to the contrary a place where sexual choices and options are constrained From Wicker Park and Boys Town to the South Side and Pilsen they observe that sexual behavior and partnering are significantly limited by such factors as which neighborhood you live in your ethnicity what your sexual preference might be or the circle of friends to which you belong In other words the social and institutional networks that city dwellers occupy potentially limit their sexual options by making different types of sexual activities relationships or meeting places less accessible To explain this idea of sex in the city the editors of this work develop a theory of sexual marketplaces the places where people look for sexual partners They then use this theory to consider a variety of questions about sexuality Why do sexual partnerships rarely cross racial and ethnic lines even in neighborhoods where relatively few same ethnicity partners are available Why do gay men and lesbians have few public meeting spots in some neighborhoods but a wide variety in others Why are African Americans less likely to marry than whites Does having a lot of friends make you less likely to get a sexually transmitted disease And why do public health campaigns promoting safe sex seem to change the behaviors of some but not others Considering vital questions such as these and shedding new light on the city of Chicago this work will profoundly recast our ideas about human sexual behavior
