Griffiths, 2023-08-21 During the 1950 s the West European Socialist parties found themselves divided on the question of European integration This cleavage not only separated different national parties from each other but caused deep and painful rifts within national parties themselves The related controversies form the core of this volume consisting of a synthetic analysis thirteen national case studies and testimonies of three eyewitnesses Marinus van der Goes van Naters Christian Pineau Mario Zagari closely involved with the events described The collection deals with an important aspect of the pre history of the European Economic Community and provides a useful tool for its comparative study

Griffiths, 1993-01-01 Deals with an important aspect of the pre history of the European Economic Community namely the division in the 1950 s between the West European socialist parties on the question of European integration Will provide a useful tool for the comparative study of the EEC

Rethinking European Social Democracy and Socialism Alan Granadino, Stefan Nygård, Peter Stadius, 2022-03-21 With a combined focus on social democrats in Northern and Southern Europe this book crucially broadens our understanding of the transformation of European social democracy from the mid 1970s to the early 1990s In doing so it revisits the transformation of this ideological family at the end of the Cold War and before the launch of Third Way politics and examines the dynamics and power relations at play among European social democratic parties in a context of nascent globalisation The chronological methodological and geographical approaches adopted allow for a more nuanced narrative of change for European social democracy than the hitherto dominant centric perspective This book will be of key interest to scholars and students of social democracy the European Centre left political parties ideologies and more broadly to comparative politics and European politics and history The Introduction chapter of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license

The Practice of Socialist Internationalism Talbot C. Imlay, 2018 How did the early twentieth century socialist parties of Britain France and Germany cooperate with each other to create a united vision on international issues Talbot Imlay offers a new perspective on how European socialists practised internationalism addressing issues such as post war reconstruction European integration and decolonization

Social Europe, the Road Not Taken Aurélie Dianara Andry, 2022 Examines the European Left s attempt to think and give shape to an alternative type of European integration a social Europe during the long 1970s showing that the western European Left in particular social democratic parties trade unions and Eurocommunist parties formulated a project to turn capitalist Europe into a workers Europe

The Choice for Europe Andrew Moravcsik, 2013-10-11 The creation of the European Union arguably ranks among the most extraordinary achievements in modern world politics Observers disagree however about the reasons why European governments have chosen to co ordinate core economic

policies and surrender sovereign prerogatives This text analyzes the history of the region's movement toward economic and political union Do these unifying steps demonstrate the pre-eminence of national security concerns the power of federalist ideals the skill of political entrepreneurs like Jean Monnet and Jacques Delors or the triumph of technocratic planning Moravcsik rejects such views Economic interdependence has been he maintains the primary force compelling these democracies to move in this surprising direction Politicians rationally pursued national economic advantage through the exploitation of asymmetrical interdependence and the manipulation of institutional commitments **Europe United**

Sebastian Rosato, 2010-12-16 The construction of the European Community EC has widely been understood as the product of either economic self-interest or dissatisfaction with the nation-state system In Europe United Sebastian Rosato challenges these conventional explanations arguing that the Community came into being because of balance-of-power concerns France and the Federal Republic of Germany the two key protagonists in the story established the EC at the height of the cold war as a means to balance against the Soviet Union and one another More generally Rosato argues that international institutions whether military or economic largely reflect the balance of power In his view states establish institutions in order to maintain or increase their share of world power and the shape of those institutions reflects the wishes of their most powerful members Rosato applies this balance-of-power theory of cooperation to several other cooperative ventures since 1789 including various alliances and trade pacts the unifications of Italy and Germany and the founding of the United States Rosato concludes by arguing that the demise of the Soviet Union has deprived the EC of its fundamental purpose As a result further moves toward political and military integration are improbable and the economic community is likely to unravel to the point where it becomes a shadow of its former self The Road Europe Travelled Along Daniela Preda, Daniele Pasquinucci, 2010

Proceedings of conference The Road Europe Travelled Along The Evolution of the EEC EU Institutions and Policies which was held at the University of Siena on the 23rd and 24th of May 2008 A Certain Idea of Europe Craig Parsons, 2018-07-05 The quasi-federal European Union stands out as the major exception in the thinly institutionalized world of international politics Something has led Europeans and only Europeans beyond the nation-state to a fundamentally new political architecture Craig Parsons argues in A Certain Idea of Europe that this something was a particular set of ideas generated in Western Europe after the Second World War In Parsons's view today's European Union reflects the ideological and perhaps visionary project of an elite minority His book traces the progressive victory of this project in France where the battle over European institutions erupted most divisively Drawing on archival research and extensive interviews with French policymakers the author carefully traces a fifty-year conflict between radically different European plans Only through aggressive leadership did the advocates of a supranational community Europe succeed at building the EU and binding their opponents within it Parsons puts the causal impact of ideas and their binding effects through institutions at the center of his book In so doing he presents a strong logic of social construction a sharp departure from other accounts of EU history that

downplay the role of ideas and ideology *Europe's First Constitution* Richard T. Griffiths, 2000 A comprehensive study of Europe's first constitution drawing on the archives of all participating states this text draws parallels between the situation in the 1950s and that seen in 2000 2001 where an overburdened EU is ill equipped for the challenge of accepting new members

France, Europe, and the Institutional Construction of Interests Craig Alexander Parsons, 1999 **Denmark's Policy**

Towards Europe After 1945 Hans Branner, Morten Kelstrup, 2000 Since 1945 Denmark's policy towards Europe has become one of the most important issues in Danish politics Part of the Copenhagen Research Project on European Integration CORE this book aims to provide the reader with a better understanding of Danish policy towards Europe taking into account both historical and theoretical aspects **The Cambridge History of Socialism: Volume 2** Marcel van der Linden, 2022-11-24 This volume describes the various movements and parties across all six continents that wanted social change through state transformation It begins with a reconstruction of social democracy's trajectories from the 1870s until the present The evolution of socialism on different continents is illustrated through a number of national case studies Experiments at a subnational level for example municipal socialism are also explored as are the varying experiences of international umbrella organizations The next part focuses on divergent socialist experiments and ideologies in several parts of the world including South Asia Africa the Arab world Brazil Venezuela and Israel Palestine followed by an overview of independent socialist movements including left socialist parties of the 1930s and the post war period and the global New Left since its beginnings in the 1950s The volume concludes with critical essays on socialism's long term and global development

The Development of the Irish Labour Party's European Policy Michael Holmes, 2006 This book explores the complex relationship between Ireland and the European Union as the country moves from being outside the EU to one of its strongest supporters to surprisingly rejecting the Treaty of Nice It examines the links between social democracy and European integration as the Labour Party's transition mirrors the path taken by many other European social democratic parties

International Review of Social History , **Western Europe and Germany** Clemens Wurm, 1995-03 This book aims to broaden readers understanding of the issues now facing the European Union by explaining the motivation underpinning the process of integration in Western Europe after 1945 The contributors discuss the part played by the Federal Republic of Germany the role of ideas and political movements in stimulating policy the economic interest of West Germany and West German business and the strategic aspects of Germany's policy Also included is a German view of French and British attitudes toward a unified Europe and a discussion of the social history of integration **Inside the European Community**

Antonio Varsori, 2006 *The Uncertain Union* Robert Geyer, 1997 It is a comparison of the divergent development of the

British and Norwegian labour parties EU policies in the 1980s and 1990s **The Trammels of Tradition** Carl C.

Hodge, 1994-04-30 This book is a fully integrated comparative history that traces the contemporary weaknesses of

democratic socialism to the very founding of European socialist parties in the late nineteenth century *Socialism In*
