Sugar Island Slavery In The Age Of Enlightenment:

Sugar Island Slavery in the Age of Enlightenment Arthur L. Stinchcombe, 1995-12-11 Plantations especially sugar plantations created slave societies and a racism persisting well into post slavery periods so runs a familiar argument that has been used to explain the sweep of Caribbean history Here one of the most eminent scholars of modern social theory applies this assertion to a comparative study of most Caribbean islands from the time of the American Revolution to the Spanish American War Arthur Stinchcombe uses insights from his own much admired Economic Sociology to show why sugar planters needed the help of repressive governments for recruiting disciplined labor Demonstrating that island to island variations on this theme were a function of geography local political economy and relation to outside powers he scrutinizes Caribbean slavery and Caribbean emancipation movements in a world historical context Throughout the book Stinchcombe aims to develop a sociology of freedom that explains a number of complex phenomena such as how liberty for some individuals may restrict the liberty of others Thus the autonomous governments of colonies often produced more oppressive conditions for slaves than did so called arbitrary governments which had the power to restrict the whims of the planters Even after emancipation freedom was not a clear cut matter of achieving the ideals of the Enlightenment Indeed it was often a route to a social control more efficient than slavery providing greater flexibility for the planter class and posing less risk of violent rebellion

Wine, Sugar, and the Making of Modern France Elizabeth Heath, 2014-10-09 This is an innovative study of how race and empire transformed French republican citizenship in the early Third Republic Elizabeth Heath integrates the histories of the wine producing department of Aude and the sugar producing colony of Guadeloupe to reveal the ways in which empire was integral to the Third Republic's ability to stabilize a republican regime that began to unravel in an age of economic globalization She shows how global economic factors shaped negotiations between local citizens and the Third Republic over the responsibilities of the Republic to its citizens leading to the creation of two different and unequal forms of citizenship that became constitutive of the interwar imperial nation state and the French welfare state Her findings shed important new light on the tensions within republicanism between ideals of liberty and equality and on the construction of race as a meaningful social category at a foundational moment in French history

American Slavery, Atlantic Slavery, and Beyond Enrico Dal Lago, 2015-12-22 *American Slavery Atlantic Slavery and Beyond* provides an up to date summary of past and present views of American slavery in international perspective and suggests new directions for current and future comparative scholarship It argues that we can better understand the nature and meaning of American slavery and antislavery if we place them clearly within a Euro American context Current scholarship on American slavery acknowledges the importance of the continental and Atlantic dimensions of the historical phenomenon comparing it often with slavery in the Caribbean and Latin America However since the 1980s a handful of studies has looked further and has compared American slavery with European forms of unfree and nominally free labor Building on this innovative scholarship this book

treats the U S peculiar institution as part of both an Atlantic and a wider Euro American world It shows how the Euro American context is no less crucial than the Atlantic one in understanding colonial slavery and the American Revolution in an age of global enlightenment reformism and revolutionary upheavals the Cotton Kingdom s heyday in a world of systems of unfree labor and the making of radical Abolitionism and the occurrence of the American Civil War at a time when nationalist ideologies and nation building movements were widespread **The Logic of Social Research** Arthur L.

Stinchcombe,2020-07-08 Arthur L Stinchcombe has earned a reputation as a leading practitioner of methodology in sociology and related disciplines Throughout his distinguished career he has championed the idea that to be an effective sociologist one must use many methods This incisive work introduces students to the logic of those methods The Logic of Social Research orients students to a set of logical problems that all methods must address to study social causation Almost all sociological theory asserts that some social conditions produce other social conditions but the theoretical links between causes and effects are not easily supported by observation Observations cannot directly show causation but they can reject or support causal theories with different degrees of credibility As a result sociologists have created four main types of methods that Stinchcombe terms quantitative historical ethnographic and experimental to support their theories Each method has value and each has its uses for different research purposes Accessible and astute The Logic of Social Research offers an image of what sociology is what it s all about and what the craft of the sociologist consists of *Slavery in the Development of the Americas* David Eltis, Frank D. Lewis, Kenneth L. Sokoloff,2004-03-29 *Slavery in the Development of the Americas* brings together work from leading historians and economic historians of slavery The essays cover various aspects of slavery and the role of slavery in the development of the southern United States Brazil Cuba the French and Dutch Caribbean and elsewhere in the Americas Some essays explore the emergence of the slave system and others provide important insights about the operation of specific slave economies There are reviews of slave markets and prices and discussions of the efficiency and distributional aspects of slavery Perspectives are brought on the transition from slavery and subsequent adjustments and the volume contains the work of prominent scholars many of whom have been pioneers in the study of slavery in the Americas *White Creole Culture, Politics and Identity During the Age of Abolition* David Lambert,2005-07-21

This book explores the articulation of white creole identity in Barbados during the age of abolitionism **The Year of the Lash** Michele Reid-Vazquez,2011 Michele Reid Vazquez reveals the untold story of the strategies of negotiation used by free blacks in the aftermath of the Year of the Lash a wave of repression in Cuba that had great implications for the Atlantic World in the next two decades At dawn on June 29 1844 a firing squad in Havana executed ten accused ringleaders of the Conspiracy of La Escalera an alleged plot to abolish slavery and colonial rule in Cuba The condemned men represented prominent members of Cuba s free community of African descent including the acclaimed poet Plcido Gabriel de la Concepción Valdés In an effort to foster a white majority and curtail black rebellion Spanish colonial authorities also banished

imprisoned and exiled hundreds of free blacks dismantled the militia of color and accelerated white immigration projects Scholars have debated the existence of the Conspiracy of La Escalera for over a century yet little is known about how those targeted by the violence responded Drawing on archival material from Cuba Mexico Spain and the United States Reid Vazquez provides a critical window into understanding how free people of color challenged colonial policies of terror and pursued justice on their own terms using formal and extralegal methods Whether rooted in Cuba or cast into the Atlantic World free men and women of African descent stretched and broke colonial expectations of their codes of conduct locally and in exile Their actions underscored how black agency albeit fragmented worked to destabilize repression's impact

Pathways from Slavery Seymour Drescher, 2018-01-03 Seymour Drescher's regular deeply thought and carefully nuanced arguments have periodically reshaped how we think of the subject of the history of slavery itself He has discussed the impact of economic and cultural factors on human behaviour and has shown that historical evidence does not lead to easy answers He has changed the way in which we now look at abolitionism and has destroyed the linear explanation of economic decline This book gathers together some of Drescher's key essays in the field

The Colonial Caribbean James A. Delle, 2014-05-26 The Colonial Caribbean is an archaeological analysis of the Jamaican plantation system at the turn of the nineteenth century Focused specifically on coffee plantation landscapes and framed by Marxist theory the analysis considers plantation landscapes using a multiscalar approach to landscape archaeology James A Delle considers spatial phenomena ranging from the diachronic settlement pattern of the island as a whole to the organization of individual house and yard areas located within the villages of enslaved workers Delle argues that a Marxist approach to landscape archaeology provides a powerful theoretical framework to understand how the built environment played a direct role in the negotiation of social relations in the colonial Caribbean

The Americas in the Age of Revolution, 1750-1850

Lester D. Langley, 1996-01-01 Langley examines the political and social tensions reverberating throughout British French and Spanish America pointing out the characteristics that distinguished each upheaval from the others the impact of place or location on the course of revolution the dynamics of race and color as well as class the relation between leaders and followers the strength of counterrevolutionary movements and especially the way that militarization of society during war affected the new governments in the postrevolutionary era Langley argues that an understanding of the legacy of the revolutionary age sheds tremendous light on the political condition of the Americas today virtually every modern political issue the relationship of the state to the individual the effectiveness of government the liberal promise for progress and the persistence of color as a critical dynamic in social policy was central to the earlier period **The Making of New World**

Slavery Robin Blackburn, 2020-05-05 The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations To illustrate this thesis Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West A Concise History of the Caribbean B. W. Higman, 2010-12-13

A Concise History of the Caribbean presents a general history of the Caribbean islands from the beginning of human settlement about seven thousand years ago to the present It narrates processes of early human migration the disastrous consequences of European colonization the development of slavery and the slave trade the extraordinary profits earned by the plantation economy the great revolution in Haiti movements toward political independence the Cuban Revolution and the diaspora of Caribbean people Written in a lively and accessible style yet current with the most recent research the book provides a compelling narrative of Caribbean history essential for students and visitors The Intimacies of Four Continents Lisa

Lowe, 2015-06-27 In this uniquely interdisciplinary work Lisa Lowe examines the relationships between Europe Africa Asia and the Americas in the late eighteenth and early nineteenth centuries exploring the links between colonialism slavery imperial trades and Western liberalism Reading across archives canons and continents Lowe connects the liberal narrative of freedom overcoming slavery to the expansion of Anglo American empire observing that abstract promises of freedom often obscure their embeddedness within colonial conditions Race and social difference Lowe contends are enduring remainders of colonial processes through which the human is universalized and freed by liberal forms while the peoples who create the conditions of possibility for that freedom are assimilated or forgotten Analyzing the archive of liberalism alongside the

colonial state archives from which it has been separated Lowe offers new methods for interpreting the past examining events well documented in archives and those matters absent whether actively suppressed or merely deemed insignificant Lowe invents a mode of reading intimately which defies accepted national boundaries and disrupts given chronologies complicating our conceptions of history politics economics and culture and ultimately knowledge itself

The Sugar Plantation in India and Indonesia Ulbe Bosma, 2013-10-07 Ulbe Bosma details how the British and Dutch introduced the sugar plantation model in Asia and refashioned it over time

Atlas of Slavery James Walvin, 2014-06-11 Slavery transformed Africa Europe and the Americas and hugely enhanced the well being of the West but the subject of slavery can be hard to understand because of its huge geographic and chronological span This book uses a unique atlas format to present the story of slavery explaining its historical importance and making this complex story and its geographical setting easy to understand

Slave Families and the Hato Economy in Puerto Rico David M. Stark, 2017-05-24 Scholarship on slavery in the Caribbean frequently emphasizes sugar and tobacco production but this unique work illustrates the importance of the region's hato economy a combination of livestock ranching foodstuff cultivation and timber harvesting on the living patterns among slave communities David Stark makes use of extensive Catholic parish records to provide a comprehensive examination of slavery in Puerto Rico and across the Spanish Caribbean He reconstructs slave families to examine incidences of marriage as well as birth and death rates The result are never before analyzed details on how many enslaved Africans came to Puerto Rico where they came from and how their populations grew through natural increase Stark convincingly argues that when animal husbandry drove much of the island's economy slavery was less harsh than in better known plantation regimes geared toward crop cultivation Slaves in the hato economy experienced more favorable conditions for family formation relatively relaxed work regimes higher fertility rates and lower mortality rates

Edward Said Debjani Ganguly, Ned Curthoys, 2015-03-25 This collection is an enterprise of discovery and critical inquiry into the legacy of one of late modernity's greatest public intellectuals Edward Said Noted contributors including Bill Ashcroft John Docker Lisa Lowe Hsu ming Teo and Patrick Wolfe address an array of intellectual political and cultural issues in their engagement with Said's oeuvre Exciting new scholarship highlights the ways in which humanities in the twenty first century can engage with Said's legacy which includes his imbrications of culture and imperialism his cosmopolitan critique of the idea of clash of civilisations and his belief that the intellectual needs to maintain intellectual performances on many fronts The individual chapters achieve a sense of balance between the two poles of Said's persona the brilliant and intimidating literary and music critic who invested deeply in an inclusive and democratic vision of humanism and the outspoken public intellectual who kept alive the truth of Palestine and the dangers of a settler colonial ethos

Troubling Freedom Natasha Lightfoot, 2015-11-19 In 1834 Antigua became the only British colony in the Caribbean to move directly from slavery to full emancipation Immediate freedom however did not live up to its promise as it did not guarantee any level of stability or autonomy and the implementation of new forms of

coercion and control made it in many ways indistinguishable from slavery In *Troubling Freedom* Natasha Lightfoot tells the story of how Antigua's newly freed black working people struggled to realize freedom in their everyday lives prior to and in the decades following emancipation She presents freedpeople's efforts to form an efficient workforce acquire property secure housing worship and build independent communities in response to elite prescriptions for acceptable behavior and oppression Despite its continued efforts Antigua's black population failed to convince whites that its members were worthy of full economic and political inclusion By highlighting the diverse ways freedpeople defined and created freedom through quotidian acts of survival and occasional uprisings Lightfoot complicates conceptions of freedom and the general narrative that landlessness was the primary constraint for newly emancipated slaves in the Caribbean
