Depression in Later Life Deborah Serani,2016-06-09 The geriatric population defined as men and women 65 years and older is the fastest growing population in the world While gerontology the study of the aging

process in human beings has brought insights about the physical emotional and social needs of this population little attention

has been given to the mental health of the aging and often treatable disorders are overlooked entirely Depression is one of

the leading mental disorders in any age group but among the elderly it is often viewed as a normal part of aging But it s not

Depression at any age requires attention and treatment For sufferers and their families and caregivers this go to guide

introduces readers to depression among the aging and elderly It looks at both sufferers who ve been diagnosed in their

younger years as well as those with a new diagnosis and reviews the symptoms the diagnostic process treatment options

including alternative and holistic approaches and long term care for those experiencing mild moderate or severe depression

With real stories throughout the book illustrates the many forms depression can take and Serani offers a compassionate voice

Geriatric Mental Health Care Gary J. Kennedy,2012-02-29 This essential guide is designed for mental health practitioners and primary care providers without advanced training in geriatric psychiatry Gary J Kennedy sets forth a clear framework for understanding the interplay of medical psychological and social factors in frequently encountered problems among older adults Clear guidelines are delineated for assessing and treating such conditions as depression and anxiety dementia psychosis and mania sleep disturbances personality and somatoform disorders substance abuse and suicidality Throughout the book focuses on ways to sustain seniors independence and overall quality of

life while enhancing their adaptive capacities Winner American Journal of Nursing Book of the Year Award 2000 See also the author's Geriatric Depression A Clinical Guide which distills the best available interventions for depression in older adults in a highly accessible format ***Health Education*** Donald A. Read, 1997 For students of health education this volume advocates a combined cognitive behavioral approach which aims to identify unhealthy behaviors and their cognitive support and then design and implement learning experiences that will help effect change Annotation copyrighted by Book News Inc Portland OR ***Understanding Depression*** Janet Stoppard, 2014-01-14 Women are particularly vulnerable to depression

Understanding Depression provides an in depth critical examination of mainstream approaches to understanding and treating depression from a feminist perspective Janet Stoppard argues that current approaches give only partial accounts of women's experiences of depression and concludes that a better understanding will only be achieved when women's experiences and lived realities are considered in relation to the material and social conditions in which their everyday lives are embedded The impact of this change in approach for modes of treatment are discussed and solutions are suggested Understanding Depression offers new insights into the problem and its treatment It will prove useful to those with an interest in depression and gender as well as mental health practitioners

Suicide Risk Assessment and Prevention Maurizio Pompili, 2022-12-19 This book explores suicide prevention perspectives from around the world considering both professionals' points of view as well as first person accounts from suicidal individuals Scholars around the globe have puzzled over what makes a person suicidal and what is in the minds of those individuals who die by suicide Most often the focus is not on the motives for suicide nor on the phenomenology of this act but on what is found from small cohorts of suicidal individuals This book offers a tentative synthesis of a complex phenomenon and sheds some light on models of suicide that are less frequently encountered in the literature Written by international experts it makes a valuable contribution to the field of suicidology that appeals to a wide readership from mental health professionals to researchers in suicidology and students

Living Through Loss Nancy R. Hooyman, Betty J. Kramer, 2006 Hooyman and Kramer's starting point is that loss comes in many forms and can include not only suffering the death of a person one loves but also giving birth to a child with disabilities living with chronic illness or being abused assaulted or otherwise traumatized They approach loss from the perspective of the resilience model which acknowledges the capacity of people to integrate loss into their lives and write sensitively about the role of age race culture sexual orientation gender and spirituality in a person's response to loss from publisher information

Handbook for Communication and Problem-Solving Skills Training Jeffrey R. Bedell, Shelley S. Lennox, 1996-10-29 This book explains the principles of effective communication and demonstrates how techniques adopted from theoretical models like operant learning classical learning social learning and cognitive therapy can be used to enhance the interactive and problem solving skills of patients These skills can help patients develop better coping mechanisms and form healthier relationships ***Clinician's Guide to Cultural Psychiatry*** Wen-Shing Tseng, 2003-05-07 Increasingly psychologists are

becoming aware of sensitivity needs with respect to treating patients from differing cultures Culture can play an important role both in what a patient discloses about themselves how likely they are to follow a therapist s advice and whether specific therapies are likely to be effective for them Following on the heels of Tseng s Handbook of Cultural Psychiatry comes this Clinical Application of Cultural Psychiatry This more concise book focuses on information most relevant to treating patients The book discusses how culture plays a role in specific disorders depression anxiety eating and sexual disorders substance abuse schizophrenia etc relevant sensitivities to keep in mind in treating specific patient populations age groups differing religions and differing ethnicity s Written by a nationally and internationally recognized scholar clinician and author Has the proper combination of knowledge skill and conceptual discussion for clinical practicalities Provides comprehensive and systematic coverage of major topics for clinical application Enhanced by more than 120 tables and figures and nearly 30 case illustrations Will serve as a major textbook in the training of psychiatric residents and clinical psychologists
