Suicide And Self Damaging Behavior:

Suicide and Self-Damaging Behavior Denys deCatanzaro, 2013-10-22 Suicide and Self Damaging Behavior A Sociobiological Perspective reviews the status of suicide and other exceptions to the prevailing regularities of behavior This book discusses the apparent anomaly of self destructive behavior current incidence of suicide and self injury self destructiveness in other species and biological fitness and social ecology of suicide The pro suicidal gene expression and natural selection death concept breakdown of other life preserving factors with coping failure and selection processes and altruism are also elaborated This text likewise covers the chronic self abuse risk taking and self injurious or self mutilative behavior This publication is a good source for anthropologists psychologists sociologists and social scientists concerned with self destructive behavior *Guide to the Prevention of Suicide and Self-destructive Behavior* ,1985 **Guide for the Prevention of Suicide and Self-destructive Behavior** ,1990 **The Oxford Handbook of Suicide and Self-Injury** Matthew K. Nock, 2014-05-08 Suicide is a perplexing human behavior that remains among the leading causes of death worldwide responsible for more deaths each year than all wars genocide and homicide combined Although suicide and other forms of self injury have baffled scholars and clinicians for thousands of years the past few decades have brought significant leaps in our understanding of these behaviors This volume provides a comprehensive summary of the most important and exciting advances in our understanding of suicide and self injury and our ability to predict and prevent it Comprised of a formidable who s who in the field the handbook covers the full spectrum of topics in suicide and self injury across the lifespan including the classification of different self injurious behaviors epidemiology assessment techniques and intervention Chapters probe relevant issues in our society surrounding suicide including assisted suicide and euthanasia suicide terrorism overlap between suicidal behavior and interpersonal violence ethical considerations for suicide researchers and current knowledge on survivors of suicide The most comprehensive handbook on suicide and self injury to date this volume is a must read text for graduate students fellows academic and research psychologists and other researchers working in the brain and behavioral sciences *Self-Injurious Behavior in Intellectual Disabilities* Johannes Rojahn, Stephen R. Schroeder, Theodore A Hoch, 2007-11-02 Self Injurious Behavior in Intellectual Disabilities gives a broad overview of the literature in the area of self injurious behavior in people with intellectual disabilities but most of the text is dedicated to the review of the behavioral and biological research in this field In fact it is our view that the most promising heuristic approach for the advancement of our understanding of this phenomenon and for its management and treatment is likely the bio behavioral perspective in which behavior can be studied at the intersect of learning and the biological bases of behavior We propose an overarching heuristic model which we call the Gene Brain Behavior Model of Self Injurious Behavior that presents a platform to integrate disparate and previously isolated scientific approaches Written by 3 authors to provide cohesive coverage Bridges the gap between psychological behavior and psychiatry Examines the overlap between intellectual disabilities and developmental disabilities
