Suicide For The Terminall Ill:

Law at the End of Life Carl Schneider,2000 Discusses the issues surrounding physician assisted suicide in light of the Supreme Court s recent decision Assisted Dying for the Terminally Ill Bill (HL) Great Britain: Parliament: House of Lords: Select Committee on the Assisted Dying for the Terminally Ill Bill,2005-04-04 The Bill was published as HLB 4 session 2004 05 ISBN 0108418839 The Medical Care of Terminally Ill Patients Robert E. Enck,2003-04-29 Since the publication of the first edition of The Medical Care of Terminally Ill Patients the field of palliative care has progressed significantly both socially and scientifically In this new edition Dr Robert Enck reviews the results of clinical studies devoted to the care of dying patients Special attention is given to pain management management of symptoms care of advanced cancer patients and care of patients with nonmalignant diseases More than 100 new references a new list of abbreviations and tables with new drugs and dosages provides valuable information Dr Enck places great emphasis on enhancing the quality of life while addressing the most common symptoms of terminal illness *Rational Suicide in the Elderly* Robert E. McCue,Meera Balasubramaniam,2016-10-27 This book provides a comprehensive view of rational suicide in the elderly a group that has nearly twice the rate of suicide when chronically ill than any other demographic Its frame of reference does not endorse a single point of view about the legitimacy of rational suicide which is evolving across societies with little guidance for geriatric mental health professionals Instead it serves as a resource for both those clinicians who agree that older people may rationally commit suicide and those who believe that this wish may require further assessment and treatment The first chapters of the book provides an overview of rational suicide in the elderly examining it through history and across cultures also addressing the special case of baby boomers This book takes an ethical and philosophical look at whether suicide can truly be rational and whether the nearness of death in late life adults means that suicide should be considered differently than in younger adults Clinical criteria for rational suicide in the elderly are proposed in this book for the first time as well as a guidelines for the psychosocial profile of an older adult who wants to commit rational suicide Unlike any other book this text examines the existential psychological and psychodynamic perspectives A chapter on terminal mental illness and a consideration of suicide in that context and proposed interventions even without a diagnosable mental illness also plays a vital role in this book as these are key issues in within the question of suicide among the elderly This book is the first to consider all preventative measures including the spiritual as well as the psychotherapeutic and pharmacologic A commentary on modern society aging and rational suicide that ties all of these elements together making this the ultimate guide for addressing suicide among the elderly *Rational Suicide in the Elderly* is an excellent resource for all medical professionals with potentially suicidal patients including geriatricians geriatric and general psychiatrists geriatric nurses social workers and public health officials *Matters of Life and Death* David Orentlicher,2021-03-09 Philosophical debates over the fundamental principles that should guide life and death medical decisions usually occur at a considerable remove from the

tough real world choices made in hospital rooms courthouses and legislatures David Orentlicher seeks to change that drawing on his extensive experience in both medicine and law to address the translation of moral principle into practice a move that itself generates important moral concerns Orentlicher uses controversial life and death issues as case studies for evaluating three models for translating principle into practice Physician assisted suicide illustrates the application of generally valid rules a model that provides predictability and simplicity and more importantly avoids the personal biases that influence case by case judgments The author then takes up the debate over forcing pregnant women to accept treatments to save their fetuses He uses this issue to weigh the avoidance of perverse incentives an approach to translation that follows principles hesitantly for fear of generating unintended results And third Orentlicher considers the denial of life sustaining treatment on grounds of medical futility in his evaluation of the tragic choices model which hides difficult life and death choices in order to prevent paralyzing social conflict Matters of Life and Death is a rich and stimulating contribution to bioethics and law It is the first book to examine closely the broad problems of translating principle into practice And by analyzing specific controversies along the way it develops original insights likely to provoke both moral philosophers and those working on thorny issues of life and death *The Case Against Assisted Suicide* Kathleen M. Foley, Herbert Hendin, 2002-03-07 Annotation Few issues are as volatile or misunderstood as physician assisted suicide and euthanasia In *The Case against Assisted Suicide For the Right to End of Life Care* Drs Foley and Hendin unravel why such principles as patient autonomy compassion and ratio **Dying Right** Daniel Hillyard, John Dombrink, 2002-06-01 *Dying Right* provides an overview of the Death With Dignity movement a history of how and why Oregon legalized physician assisted suicide and an analysis of the future of physician assisted suicide Engaging the question of how to balance a patient's sense about the right way to die a physician's role as a healer and the state's interest in preventing killing *Dying Right* captures the ethical legal moral and medical complexities involved in this ongoing debate **Health Education** Donald A.
