Suicide Individual And Society:

Suicide, Individual, and Society Toyomasa Fuse, 1997 Individual and Society: Understanding the Sociology of Émile Durkheim N. Jayaram, 2024-12-10 This comprehensive volume explores the foundational contributions of the eminent French sociologist Emile Durkheim. It delves into his writings in political sociology and the sociology of education. It discusses the seminal contributions of Emile Durkheim to the development of sociology as a positivist social science. It offers an in-depth analysis of Durkheim's methodological rules for studying social facts, exploring critical topics like the division of labor, education, political society, state, religion, secular morality, socialism, and suicide. Chapter by chapter, the book unfolds Durkheim's life and milieu, providing insights into the background and context that fueled his conceptualization of sociology and the creation of his seminal works. From portraying sociology as an empirical science of human society to dissecting the moral basis of social order and delving into the pathology of suicides, it navigates Durkheim's multifaceted contributions. The book explores Durkheim's groundbreaking analyses of the interplay between society, religion, politics, and education. It highlights his pioneering contributions to the subdisciplines of the sociology of religion, political sociology, and the sociology of education. It underscores the contemporary relevance of Durkheim's sociological legacy. This book is highly relevant for postgraduate students and researchers in sociology, social anthropology, and social sciences in understanding Emile Durkheim's work in sociology.

On Suicide Emile Durkheim, 2006-09-28 Emile Durkheim's *On Suicide* (1897) was a groundbreaking book in the field of sociology. Traditionally, suicide was thought to be a matter of purely individual despair, but Durkheim recognized that the phenomenon had a social dimension. He believed that if anything can explain how individuals relate to society, then it is suicide. Why does it happen? What goes wrong? Why do certain social, religious, or racial groups have higher incidences of suicide than others? As Durkheim explored these questions, he became convinced that abnormally high or low levels of social integration lead to an increased likelihood of suicide. *On Suicide* was the result of his extensive research. Divided into three parts: individual reasons for suicide, social forms of suicide, and the relation of suicide to society as a whole, Durkheim's revelations have fascinated, challenged, and informed readers for over a century.

Suicide Emile Durkheim, 2005-08-04 Originally published in 1897, this is Durkheim's pioneering attempt to offer a sociological explanation for a phenomenon regarded until then as exclusively psychological and individualistic. *What does a suicide rate reveal about a society?* Christine Langhoff, 2003-05-03 Essay from the year 2003 in the subject Sociology: Social System and Social Structure, grade 2.1. B. Oxford University New College, language: English, abstract: Durkheim, in his book *Suicide: A Study in Sociology* (1897), stated that the term suicide is applied to every case of death which results directly or indirectly from a positive or negative act carried out by the victim himself, knowing that it will produce this result. An attempt is an act defined in the same way but falling short of actual death. He used the study of suicide in order to illustrate his own methodological approach, and many studies that followed have been at least in part a reaction to his work. Durkheim, although acknowledging

that there are individual conditions which can cause an individual to kill him herself emphasised that every society is predisposed to produce a certain number of voluntary deaths and that the sociologist studies causes that affect not the individual but the group He believed that the suicide rate constitutes an order of facts which is unified and definite and that it can reveal certain aspects of society especially when looking at the different types of suicide that have been committed I am going to explore Durkheim s theory of suicide and what he believed a suicide rate reveals about a society I am further going to look at some other theories of suicide and how these have supported or challenged Durkheim s views
