The Strange Death of Europe Douglas Murray, 2018-06-14 THE SUNDAY TIMES NUMBER ONE BESTSELLER A WATERSTONES POLITICS PAPERBACK OF THE YEAR 2018 The Strange Death of Europe is a highly personal account of a continent and culture caught in the act of suicide Declining birth rates mass immigration and cultivated self distrust and self hatred have come together to make Europeans unable to argue for themselves and incapable of resisting their own comprehensive change as a society This book is not only an analysis of demographic and political realities but also an eyewitness account of a continent in self destruct mode It includes reporting from across the entire continent from the places where migrants land to the places they end up from the people who appear to welcome them in to the places which cannot accept them Told from this first hand perspective and backed with impressive research and evidence the book addresses the disappointing failure of multiculturalism Angela Merkel s U turn on migration the lack of repatriation and the Western fixation on guilt Murray travels to Berlin Paris Scandinavia Lampedusa and Greece to uncover the malaise at the very heart of the European culture and to hear the stories of those who have arrived in Europe from far away In each chapter he also takes a step back to look at the bigger issues which lie behind a continent s death wish answering the question of why anyone let alone an entire civilisation would do this to themselves He ends with two visions of Europe one hopeful one pessimistic which paint a picture of Europe in crisis and offer a choice as to what if anything we can do next The Cultural Suicide of Europe C. Thornton,2007-11-13 Once a colossus dominating the globe Europe today is a doddering convalescent Sluggish economic growth high unemployment an addiction to expensive social welfare entitlements a dwindling birth rate among native Europeans and most important an increasing Islamic immigrant population chronically underemployed yet demographically prolific all point to a future in which Europe will be transformed beyond recognition a shrinking museum culture riddled with ever expanding Islamist enclaves Decline and Fall tells the story of this decline by focusing on the larger cultural dysfunctions behind the statistics The abandonment of the Christian tradition that created the West s most cherished ideals a radical secularism evident in Europe s indifference to God and church created a vacuum of belief into which many pseudo religions have poured Scientism fascism communism environmentalism multiculturalism sheer hedonism all have attempted and failed sometimes bloodily to provide Europeans with an alternative to Christianity that can show them what is worth living and dying for Meanwhile a resurgent Islam feeding off the economic and cultural marginalization of European Muslims knows all too well not just what is worth dying for but what is worth killing for Crippled by fashionable self loathing and fantasies of multicultural inclusiveness Europeans have met this threat with capitulation instead of strength appeasement and apologies instead of the demand that immigrants assimilate As Decline and Fall shows Europe s solution to these ills a larger and more powerful European Union simply

exacerbates the problems for the EU cannot address the absence of a unifying belief that can spur Europe even to defend itself let alone to recover its lost grandeur As these problems worsen Europe will face an unappetizing choice between two somber destinies a violent nationalistic or nativist reaction or more likely a long descent into cultural senescence and slow motion suicide

*Europe's Crises* Manuel Castells,Olivier Bouin,Joao Caraça,Gustavo Cardoso,John Thompson,Michel Wieviorka,2018-03-16 Today the European Union is facing a crisis as serious as anything it has experienced since its origins more than half a century ago What makes this so serious is that it is not a single crisis but rather multiple crises the euro crisis the migration refugee crisis Brexit etc that overlap and reinforce one another creating a cumulative array of challenges that threatens the very survival of the EU For the first time in its history there is a real risk that the EU could break up This volume brings together sociologists economists and political scientists from around Europe to shed light on how the EU got into this predicament It argues that the multiple crises that have plagued the European Union in the last decade stem to a large extent from flaws in its construction and that these flaws are consequences of the political processes that led to the formation of the EU in other words the decisions that made possible the development of the EU created the conditions for the multiple crises it experiences today This timely and wide ranging book on one of the most important issues of our time will be of great interest to students and scholars in the social sciences to politicians and policy makers and to anyone concerned with Europe and its future
