**Report on Suicides in Prison** James Hennessy, Great Britain. Her Majesty's Chief Inspector of Prisons for England and Wales, 1984

**Prison Suicide** Lindsay M. Hayes, 1998-12 Until recently it has been assumed that suicide although a problem for jail inmates as they face the initial crisis of incarceration is not a significant problem for inmates who advance to prison to serve out their sentences This monograph was produced to fill

a critical void in the knowledge base about prison suicide In addition to a through review of the literature and of national and state standards for prevention it offers the most recent national data on the incidence and rate of prison suicide effective prevention programs and discussion of liability issues References appendices and tables

**The Prevention of Suicide in Prison** Daniel Pratt,2015-08-27 Suicide is considered to be the leading cause of preventable death in prisons While there is increasingly expansive literature examining the various risk factors associated with a likelihood of eventual prison suicide so far this has struggled to lead to successful prevention programmes An alternative approach is needed that seeks to understand at the individual level what leads a prisoner to contemplate ending their own life This book describes how the authors developed and delivered evidence based psychological interventions for suicide prevention in prison The authors present a compelling argument for a psychological approach to the prevention of prison suicide drawing upon a cognitive behavioural perspective with chapters investigating two novel psychological therapies Cognitive Behavioural Suicide Prevention and Problem Solving Training The methodology behind each study is presented alongside preliminary findings emerging from the evaluations and detailed case studies are included as exemplars of the process and content of the therapies as well as the individual and contextual challenges to be overcome The book provides timely research into the development of a better understanding of why prisoners engage in suicide behaviour and the preventive interventions showing the most promise for future investigation The Prevention of Suicide in Prison will be critical reading for clinical and forensic psychologists psychological therapists psychiatrists and other mental health staff working within a prison context as well as postgraduates in training and researchers studying suicide in forensic settings

**Suicide and Self-Harm in Prisons and Jails** Christine Tartaro,2019-05-10 The second edition of Suicide and Self Harm in Prisons and Jails provides a comprehensive exploration of how the stress associated with arrest sentencing and incarcerated life can contribute to the onset of a suicidal crisis even among those who never before experienced suicidal ideation or self harmed Using the most recent prison and jail suicide data available Christine Tartaro discusses prison and jail administrations efforts to curtail the use of restrictive housing for inmates with mental illness more recent suicide screening forms for incarcerated populations therapeutic options for working with inmates in crisis appropriate monitoring of people in danger of self harm and situational and environmental prevention tactics Tartaro also provides examples of ways to structure and implement diversion and transition planning programs to improve the odds of facilitating offenders successful integration into the community and reduce communities reliance on jails to house and treat people who suffer from mental illness

*Suicide in Prisons* Graham Towl,David

Crichton,2017-05-03 The definitive guide from two leading authors central to developments in the field An invaluable book which covers everything from theoretical and community research to precisely what is known about prisoners and the risk of their completing suicide Covers the Harris Review and Government Response to it as well as the stance of politicians reform groups and other leading experts on what in 2017 is an escalating problem for UK prisons Contains analysis and data from over 30 years bringing together key knowledge and information at a critical time of concern and attention The Health of Prisoners Richard Creese,J. Bearn,1995 In eighteenth century Britain gaols were places of temporary confinement where inmates stayed while awaiting punishment With the rise of the penitentiary from the early nineteenth century custodial institutions housed prisoners for much longer periods of time Prisoners were supposed to be reformed as well as punished during their incarceration From at least the time of John Howard 1726 1790 the health of prisoners has been part of the concern of philanthropists and others concerned with the wider functions of prisons The Victorians established a Prison Medical Service and members of the medical profession have long been involved in caring for the mental and physical needs of prisoners For two centuries prison overcrowding has been identified as a major cause of mortality and morbidity in prisons Historical debates thus often have a modern ring to them which make the essays in this volume particularly timely

Suicide and the Law Elizabeth Wicks,2023-02-23 This book investigates the law s approach to suicide in England and Wales It explores the seismic shift in perceptions of the law s role in respect of suicide from imprisonment as a punishment for attempting suicide to courts hearing arguments about whether there is not only a right to suicide but also a right to assistance in suicide This development stands alongside a global recognition of suicide prevention as a public health priority In this book the dual priorities of respect for autonomy and the protection of human life are recognised as equally important and the legal issues surrounding suicide in a range of different contemporary contexts including suicide in prison and juvenile suicide are considered The book also investigates what the relationship between mental health and suicide means for its legal regulation and evaluates the enduring legal offence of assisted suicide particularly in the context of the terminally ill It is argued that a more refined approach to the topic of voluntary death should be recognised in the law one that distinguishes more clearly between autonomous decision making about the end of life and incapacitated self caused risks to life that require effective preventative interventions **Encyclopedia of Forensic and Legal Medicine** ,2015-09-29

[Oxford Textbook of Correctional Psychiatry](#)

Professor Robert Trestman L, Professor Kenneth Appelbaum, Professor Jeffrey Metzner, 2015-02-26 Correctional psychiatry has received increasing recognition as an area of practice with unique skills and knowledge. The Oxford Textbook of Correctional Psychiatry brings together American and international experts to provide a comprehensive overview of the field. Students and psychiatric residents will find basic information that prepares them for clinical rotations and psychiatrists working in jails and prisons will find a detailed review of the complex issues that arise in these settings. The Oxford Textbook of Correctional Psychiatry contains 71 chapters divided into 14 sections. The first three sections address history, structure, and processes, including chapters on case law, human rights, ethics, organization, and funding of systems, and stages of patient management that cover initial assessments through re-entry. The next three sections review in turn a broad array of management issues, emergencies, and psychopharmacology topics. Among other topics, these sections include chapters on sleep, detoxification, reassessment of community diagnoses, and treatments, diversion programs, levels of care, malingering, substance use within facilities, and formulary management. Section seven has chapters on common psychiatric disorders, relevant medical disorders, and pain management. Sections eight through ten focus on psychotherapeutic options, suicide risk, management, and addictions treatment. Chapters on aggression, self-injury, and other behavioral challenges appear in Section eleven. Section twelve reviews unique assessment and treatment needs of many distinct population groups. Special topics such as forensics, psychological testing, sexual assaults, quality improvement, training, and research appear in Section thirteen, followed by a section devoted to current resources in correctional healthcare. The range of topics covered and the number of prominent contributors set this book apart from other available resources. Readers at all stages of their careers will gain the depth of understanding and practical information they need to approach all of the common clinical, organizational, and ethical challenges they face.
