Willard Garvey Maura McEnaney, 2013-10-01 Pulitzer Prize winning journalist Maura McEnaney's fascinating and wide ranging biography of businessman and entrepreneur Willard Garvey is in many ways a history of 20th century America itself Born in Dust Bowl country as a teenager he rode the rails at the height of the Great Depression to work in California's Grapes of Wrath orchards He sailed on the Queen Mary to the European theater of World War II where he was one of the first three American officers into Berlin following its fall and attended the Potsdam Conference A visionary businessman who dreamed of Every man a homeowner Garvey pioneered affordable home ownership in developing countries at a time when few if any knew or cared about the millions living in slums worldwide Despite revolutions coups and Anti American persecution his World Homes provided thousands of families in countries from South America to Asia the opportunity of moving onto and up the economic ladder He hobnobbed with heads of state and captains of industry counting 20th century titans J B Fuqua Robert Galvin and John Templeton as closest friends and confidantes He started a short lived fourth television network and pushed for independent journalism in an era of tightly controlled media He even tried to start a new country Yet despite his far flung operations Garvey was never far from his hometown affairs Organizing and hosting Saturday morning coffee shop gatherings of ordinary concerned citizens inveterate writer of Letters to the Editor crusader against the overreach of government bureaucracy Garvey ceaselessly fought for his fellow man to have the opportunities for success he had enjoyed and that he saw government's growing powers threatening It is perhaps his final biggest achievement that stands as Willard Garvey's legacy Beyond owner operator of the world's largest grain elevator and largest private landowner in Nevada builder of Kansas's tallest building the Epic Center Its slanted copper roof pointed to the sky it echoes the Kansas state motto that could well serve as his too Ad Astra per Aspera To the stars through difficulties      **How Agriculture Made Canada** Peter A. Russell, 2012 An original and textured analysis of how agricultural developments in Quebec and Ontario had a significant and direct impact on rural settlement in the Prairies      *The Colorado Magazine* , 1975      **Rural Development Perspectives** , 1989      *Great Plains* Michael Forsberg, 2019-03-22 The Great Plains were once among the greatest grasslands on the planet But as the United States and Canada grew westward the Plains were plowed up fenced in overgrazed and otherwise degraded Today this fragmented landscape is the most endangered and least protected ecosystem in North America But all is not lost on the prairie Through lyrical photographs essays historical images and maps this beautifully illustrated book gets beneath the surface of the Plains revealing the lingering wild that still survives and whose

diverse natural communities native creatures migratory traditions and natural systems together create one vast and extraordinary whole Three broad geographic regions in Great Plains are covered in detail evoked in the unforgettable and often haunting images taken by Michael Forsberg Between the fall of 2005 and the winter of 2008 Forsberg traveled roughly 100 000 miles across 12 states and three provinces from southern Canada to northern Mexico to complete the photographic fieldwork for this project underwritten by The Nature Conservancy Complementing Forsberg s images and firsthand accounts are essays by Great Plains scholar David Wishart and acclaimed writer Dan O Brien Each section of the book begins with a thorough overview by Wishart while O Brien a wildlife biologist and rancher as well as a writer uses his powerful literary voice to put the Great Plains into a human context connecting their natural history with man s uses and abuses The Great Plains are a dynamic but often forgotten landscape overlooked undervalued misunderstood and in desperate need of conservation This book helps lead the way forward informing and inspiring readers to recognize the wild spirit and splendor of this irreplaceable part of the planet

Lawson, 1975-01-01 Sixteen papers by foremost American Canadian and English historical geographers examine the sources of Imagery of the American and Canadian Great Plains the processes of image formation and the behavioral implications of various kinds of images The papers deal with exploratory images of the Plains resource evaluation in the prefrontier West governmental appraisal of the western frontier real and imagined climatic hazards the desert and garden myths and adaptations to reality
