Historical Dictionary of Indonesia Audrey Kahin, 2015-10-29 A wide flung archipelago lying between the Pacific and Indian Oceans Indonesia is the world's most populous Islamic country For over two thousand years it was a crossroads on the major trading route between China and India but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century Declaring its independence from the Dutch in 1945 the Republic of Indonesia was ruled by only two regimes over the next half century Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption However since 2004 Indonesia has successfully carried out four direct elections for president together with an equal number of elections for legislative bodies at all levels of government and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure This third edition of Historical Dictionary of Indonesia contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 900 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Indonesia

Violence and Serenity Natasha Reichle, 2007-07-26 The mention of Buddhism in Indonesia calls to mind for many people the Central Javanese monument of Borobudur one of the largest Buddhist monuments in the world and the subject of extensive scholarly scrutiny The neglect of scholarship on Buddhist art from later periods might lead one to assume that after the tenth century Buddhism had been completely eclipsed by the predominantly Hindu Eastern Javanese dynasties Yet as the works discussed here illustrate extraordinary Buddhist images were still being produced as late as the fourteenth century Violence and Serenity offers a close examination of some of the impressive works from East Java and Sumatra and explores their political and religious roles The number of clearly identifiable Buddhist works from the Singasari and Majapahit dynasties 1222 ca 1520 is limited yet existing examples are impressive They demonstrate a remarkable level of craftsmanship and are exceptionally expressive exhibiting a range of emotions from the ferocious to the serene Following a brief discussion

of the early history of Buddhism in Indonesia Natasha Reichle focuses each chapter on a specific statue or group of statues and considers the larger issues evoked by the images Through a rarely examined depiction of the last Singasari king she explores the nature of religion in Java in the late thirteenth century and what we know about tantric practices and the syncretism of Hinduism and Buddhism She reassesses the question of portraiture in ancient Javanese art while contemplating the famous Praj p ramit from Singasari Notions of kingship are discussed in light of a number of statues depicting the Buddhist deity Amoghap a and his attendants and the meanings of the Amoghap a ma ala The final chapter examines the origins and significance of one of Indonesia s most spectacular sculptures a four meter high Buddhist bhairava demon discovered in West Sumatra

Frontiers of Fear Peter Boomgaard,2008-10-01 For centuries reports of man eating tigers in Indonesia Malaysia and Singapore have circulated shrouded in myth and anecdote This fascinating book documents the big cat human relationship in this area during its 350 year colonial period re creating a world in which people feared tigers but often came into contact with them because these fierce predators prefer habitats created by human interference Peter Boomgaard shows

how people and tigers adapted to each other's behavior each transmitting this learning from one generation to the next. He discusses the origins of stories and rituals about tigers and explains how cultural biases of Europeans and class differences among indigenous populations affected attitudes toward the tigers. He provides figures on their populations in different eras and analyzes the factors contributing to their present status as an endangered species. Interweaving stories about Malay kings, colonial rulers, tiger charmers and bounty hunters with facts about tigers and their way of life, the book is an engrossing combination of environmental and micro history.

Spirits and Ships Andrea Acri, 2017-03-13

This volume seeks to foreground a borderless history and geography of South Southeast and East Asian littoral zones that would be maritime focused and thereby explore the ancient connections and dynamics of interaction that favoured the encounters among the cultures found throughout the region stretching from the Indian Ocean littorals to the Western Pacific from the early historical period to the present. Transcending the artificial boundaries of macro regions and nation states and trying to bridge the arbitrary divide between inherently cosmopolitan high cultures e.g. Sanskrit, Sinitic or Islamicate and local or indigenous cultures, this multidisciplinary volume explores the metaphor of Monsoon Asia as a vast geo-environmental area inhabited by speakers of numerous language phyla which for millennia has formed an integrated system of littorals where crops, goods, ideas, cosmologies and ritual practices circulated on the sea routes governed by the seasonal monsoon winds. The collective body of work presented in the volume describes Monsoon Asia as an ideal theatre for circulatory dynamics of cultural transfer, interaction, acceptance, selection and avoidance and argues that despite the rich ethnic, linguistic and sociocultural diversity, a shared pattern of values, norms and cultural models is discernible throughout the region.
