## **Sumerian Hymnology The Ersemma:**

*Sumerian Hymnology* Mark E. Cohen, 1981-12-31 The ersemma is one of two possibly three genres of literature written in the Sumerian Emesal dialect. Texts exist in copies from the Old Babylonian period although they were authored much earlier. They were preserved likely because they were part of a fixed liturgy recited on select days of the month. Mark E. Cohen discusses the characteristics of this genre and its evolution, the circumstances of its composition and the cultic setting in which it was typically used. He also provides a catalog of examples as well as transliterations and translations of selected texts with commentary. Examples come from the British Museum, the Yale Babylonian Collection, the University Museum, the Oriental Institute, the Staatliche Museen Berlin, and the Metropolitan Museum. **Dictionary of the Old**

**Insight into Two Biblical Passages** Leland E. Wilshire, 2010-06-10 This work comprises new insights into two Biblical passages. The first study, titled 'The Anatomy of a Prohibition', uses the TLG computer database to offer a new interpretation of I Timothy 2:12. The author provides insight that the TLG computer, with its data selections from 200 BC BCE to 200 AD CE, supports the interpretation of one of the key words, *authentein*, as committing violent action, not having authority. It then explores the effect of this interpretation on exegesis, gender pronouncements, hermeneutics, tradition, theology, and relevance. As a supplement, it offers a history of traditional translations, mistranslations, and interpretations. The second insight study discusses seeing the suffering servant of Isaiah 40:55 as the city of Jerusalem. This 'Servant City' study is based upon a comparison with the material outside the songs and with other ANE city descriptions that are also in the first millennium. **Economic Structures of Antiquity** Morris Silver, 1995-02-14

The economy of the ancient Middle East and Greece is reinterpreted by Morris Silver in this provocative new synthesis. Silver finds that the ancient economy emerges as a class of economies with its own laws of motion, shaped by transaction costs, the resources used up in exchanging ownership rights. The analysis of transaction costs provides insights into many characteristics of the ancient economy, such as the important role of the sacred and symbolic gestures in making contracts, magical technology, the entrepreneurial role of high-born women, the elevation of familial ties, and other departures from impersonal economics, reliance on slavery and adoption, and the insatiable drive to accumulate trust capital. The peculiar behavior patterns and mindsets of ancient economic man are shown to be facilitators of economic growth. In recent years, our view of the economy of the ancient world has been shaped by the theories of Karl Polanyi. Silver confronts Polanyi's empirical propositions with the available evidence and demonstrates that antiquity knew active and sophisticated markets. In the course of providing an alternative analytical framework for studying the ancient economy, Silver gives critical attention to the economic views of the Assyriologists I. M. Diakonoff, W. F. Leemans, Mario Liverani, and J. N. Postgate, of the Egyptologists Jacob J. Janssen, and Wolfgang

Helck and of the numerous followers of Moses Finley Silver convincingly demonstrates that the ancient world was not static periods of pervasive economic regulation by the state are interspersed with lengthy periods of relatively unfettered market activity and the economies of Sumer Babylonia and archaic Greece were capable of transforming themselves in order to take advantage of new opportunities This new synthesis is essential reading for economic historians and researchers of the ancient Near East and Greece A History of Women's Seclusion in the Middle East J Dianne Garner,Linn

**The Choice Between Two Cities** Barbara R. Rossing, 1999 This book focuses on the Apocalypse's use of familiar two women topos the whore or evil woman and the bride or good woman to depict the New Jerusalem as an alternative to Babylon and to exhort the audience to choose between the two cities Early apocalyptic language Rossing writes can function in two ways either to control the behavior of individuals or to provide an alternative vision and encouragement of new community structures in the face of oppression The choice for the good woman advocated by the Apocalypse is not a gendered or individualistic choice but a political one a choice for God's New Jerusalem God's alternative city of justice and well being
