**The Power of Place in Play** Christina R. Ergler,2020-03-03 There s nothing really fun about the park in winter Christina Ergler is the first one to explore why play resonates differently across urban localities and seasons She draws on Bourdieu s theory of practice and Gibson s affordance theory to show that determinants of seasonal outdoor play transcend modifiable barriers such as traffic and unsuitable play spaces as well as the inevitable issue of inclement weather In contrast seasonal play determinants are grounded in locally constituted beliefs about what is seasonally appropriate children s activity To foster a healthier and more sustainable life for children outdoor play needs to become convenient all year round in all locations
