Dunbabin, 2011-03-03 Charles of Anjou's conquest of the Sicilian Regno in 1266 transformed relations between France and the kingdom of Sicily This original study of contact and exchange in the Middle Ages explores the significance of the many cultural religious and political exchanges between the two countries arguing that the links were more diverse and stronger than simply the rulers family connections Jean Dunbabin shows how influence flowed as much from south to north as vice versa and that France was strongly influenced by the experiences of those who returned after years of fighting in the Regno As well as considering the experiences of notable crusading families she sheds new light on the career of Robert II d Artois who virtually ruled the Regno for six years before returning to France to remodel the government of Artois This comparative history of two societies offers an important perspective on medieval Western Europe **Poverty's Proprietors: Ownership**

**and Mortal Sin at the Origins of the Observant Movement** James (Jim) Mixson, 2009-03-25 Focusing on the theme of property and community this study offers a new account of the origins of fifteenth century Observant reform in the monasteries and canonries of the southern Empire Through close readings of unpublished texts it traces how ideas about reformed community emerged both beyond and within the religious orders in the era of the Council of Constance Focusing on reform among monks and canons in Bavaria and Austria to 1450 it then shows how those ideas were applied in practice through reforming visitation and through a devotional culture steeped in the new piety of the day These considerations allow

the Observant Movement to offer fresh perspectives on the history religious community reform and the church in the fifteenth century

**A Cultural History of Law in the Early Modern Age** Peter Goodrich, 2021-03-11 Opened up by the revival of Classical thought but riven by the violence of the Reformation and Counter Reformation the terrain of Early Modern law was constantly shifting The age of expansion saw unparalleled degrees of internal and external exploration and colonization accompanied by the advance of science and the growing power of knowledge A Cultural History of Law in the Early Modern Age covering the period from 1500 to 1680 explores the war of jurisdictions and the slow and contested emergence of national legal traditions in continental Europe and in Britannia Most particularly the chapters examine the European quality of the Western legal traditions and seek to link the political project of Anglican common law the mos britannicus to its classical European language and context Drawing upon a wealth of textual and visual sources A Cultural History of Law in the Early Modern Age presents essays that examine key cultural case studies of the period on the themes of justice constitution codes agreements arguments property and possession wrongs and the legal profession The “I” and the “Eye” Pragyana Rath, 2011-05-25 The paradigmatic moment of the opposition between the verbal and the visual arts may be seen in Lessing’s treatise on the Laocoön sculptural group written in 1766 a moment that is identified within a historical framework of modern aesthetics that begins

Victorian Jewelry, Identity, and the Novel Jean Arnold, 2016-03-16 In this study of Victorian jewels and their representation Jean Arnold explores the role material objects play in the cultural cohesion of the West Diamonds and other gems Arnold argues symbolized the most closely held beliefs of the Victorians and thus can be considered prisms of culture Mined in the far reaches of the empire they traversed geographical space and cultural boundaries representing monetary value and evoking empire class lineage class membership gender relations and aesthetics Arnold analyzes the many roles material objects fill in Western culture and surveys the cross cultural history of the Victorian diamond uncovering how this object became both preeminent and representative of Victorian values Her close readings of Wilkie Collins’s The Moonstone George Eliot’s Middlemarch William Makepeace Thackeray’s The Great Gatsby Diamond and Anthony Trollope’s The Eustace Diamonds show gendered aesthetic economic fetishistic colonial legal and culturally symbolic interpretations of jewelry as they are enacted through narrative Taken together these divergent interpretations offer a holistic view of a material culture’s affective attachment to objects As the assigned meanings of jewels turn them into symbols of power personal relationships and valued ideas human interactions with gems elicit emotional responses that bind the materialist culture together

**Clothing and Identity in Early Modern Rome** Camilla Annerfeldt, 2024-12-12 This is the first book length exploration of the clothes worn in early modern Rome and provides novel insights into the city of Rome during one of its most fascinating periods It also challenges the notion well

established in dress historical research on the early modern period that one was supposed to dress solely according to one's social station as Camilla Annerfeldt explores in great depth this notion does not always seem to have been applicable to early modern Rome because of its very constitution Using a range of primary sources from the Roman archives as well as texts of early modern writers *Clothing and Identity in Early Modern Rome* presents a vivid account of the history of an early modern society which will be helpful to historians of fashion society politics material culture and art as well as everyone interested in the period when Rome was one of the dominant centres of Europe culturally socially and politically

**Francis of Assisi and His "Canticle of Brother Sun" Reassessed** B. Moloney, 2013-10-09 Bringing the skills of a literary historian to the subject Brian Moloney considers the genesis of Saint Francis of Assisi's *Canticle of Brother Sun* to show how it works as a carefully composed work of art The study examines the saint's life and times the structure of the poem the features of its style and the range of its possible meanings

*Old Women and Art in the Early Modern Italian Domestic Interior* Erin J. Campbell, 2016-03-09 Though portraits of old women mediate cultural preoccupations just as effectively as those of younger women the scant published research on images of older women belies their significance within early modern Italy This study examines the remarkable flowering largely overlooked in portraiture scholarship to date of portraits of old women in Northern Italy and especially Bologna during the second half of the sixteenth century when as a result of religious reform the lives of women and the family came under increasing scrutiny *Old Women and Art in the Early Modern Italian Domestic Interior* draws on a wide range of primary visual sources including portraits religious images architectural views prints and drawings as well as extant palazzi and case furnishings and domestic objects created by the leading artists in Bologna including Lavinia Fontana Bartolomeo Passerotti Denys Calvaert and the Carracci The study also draws on an array of historical sources including sixteenth century theories of portraiture prescriptive writings on women and the family philosophical and practical treatises on the home economy sumptuary legislation books of secrets prescriptive writings on old age and household inventories to provide new historical perspectives on the domestic life of the propertied classes in Bologna during the period Author Erin Campbell contends that these images of unidentified women are not only crucial to our understanding of the cultural operations of art within the early modern world but also by working from the margins to revise the center provide an opportunity to present new conceptual frameworks and question our assumptions about old age portraiture and the domestic interior

**Refashioning the Renaissance** Paula Hohti, 2025-01-28 How did ordinary men and women dress in early modern Europe What fabrics and garments formed the essential elements of fashion for artisans and shopkeepers Did they rely on affordable alternatives to the silks jewellery and decorations favoured by the wealthy elite Or did those with modest means find innovative ways to express their fashion sense This book provides new perspectives on early modern clothing and fashion history by investigating the consumption and meaning of fashionable clothing and accessories among the popular classes Through a close examination of the materials craftsmanship and cultural significance

of fashion items owned by and available to a broad group of consumers it challenges conventional assumptions that the everyday dress of ordinary families was limited to a narrow selection of garments made of coarse textiles often produced at home and resistant to change

Ornamentalism Bella Mirabella, 2011 Original essays by leading scholars on the significance of accessories in the cultural social and political lives of men and women in the Renaissance

**The Making of Measure and the Promise of Sameness** Emanuele Lugli, 2024-05-31 An interdisciplinary history of standardized measurements Measurement is all around us from the circumference of a pizza to the square footage of an apartment from the length of a newborn baby to the number of miles between neighboring towns Whether inches or miles centimeters or kilometers measures of distance stand at the very foundation of everything we do so much so that we take them for granted Yet this has not always been the case This book reaches back to medieval Italy to speak of a time when measurements were displayed in the open showing how such a deceptively simple innovation triggered a chain of cultural transformations whose consequences are visible today on a global scale Drawing from literary works and frescoes architectural surveys and legal compilations Emanuele Lugli offers a history of material practices widely overlooked by historians He argues that the public display of measurements in Italy's newly formed city republics not only laid the foundation for now centuries old practices of making but also helped to legitimize local governments and shore up church power buttressing fantasies of exactitude and certainty that linger to this day This ambitious truly interdisciplinary book explains how measurements rather than being mere descriptors of the real themselves work as powerful molds of ideas affecting our notions of what we consider similar accurate and truthful

**Luxury** Peter McNeil, Giorgio Riello, 2016-05-19 We live in a world obsessed by luxury Long distance airlines compete to offer first class sleeping experiences and hotels recommend exclusive suites where you are never disturbed Luxury is a rapidly changing global industry that makes the headlines daily in our newspapers and on the internet More than ever luxury is a pervasive presence in the cultural and economic life of the West and increasingly too in the emerging super economies of Asia and Latin America Yet luxury is hardly a new phenomenon Today's obsession with luxury brands and services is just one of the many manifestations that luxury has assumed In the middle ages and the Renaissance for example luxury was linked to notions of magnificence and courtly splendour In the eighteenth century luxury was at the centre of philosophical debates over its role in shaping people's desires and oiling the wheels of commerce And it continues to morph today with the growth of the global super rich and increasing wealth polarization From palaces to penthouses from couture fashion to lavish jewellery from handbags to red wine from fast cars to easy money Peter McNeil and Giorgio Riello present the first ever global history of luxury from the Romans to the twenty first century a sparkling and ever changing story of extravagance excess novelty and indulgence

Venice's Most Loyal City Stephen D. Bowd, 2010-11-15 This innovative microhistory of a fascinating yet neglected city shows how its loyalty to Venice was tested by military attack economic downturn and demographic collapse Despite these trials Brescia experienced cultural revival and

political transformation which Bowd uses to explain state formation in a powerful region of Renaissance Italy      **Cultural Exchange and Identity in Late Medieval Ireland** Sparky Booker, 2018-03-22 Examines the complex interactions between English and Irish neighbours in the four obedient shires and how this shaped English identity      *Faking It!*, 2022-12-28

Welch, Professor of Renaissance Studies Evelyn Welch, Lecturer Evelyn Welch, 2005-01-01

Shopping was as important in the Renaissance as it is in the 21st century This book breaks new ground in the area of Renaissance material culture focussing on the marketplace in its various aspects ranging from middle class to courtly consumption and from the provision of foodstuffs to the acquisition of antiquities and holy relics It asks how men and women of different social classes went out into the streets squares and shops to buy the goods they needed and wanted on a daily or on a once in a lifetime basis during the Renaissance period Drawing on a detailed mixture of archival literary and visual sources she exposes the fears anxieties and social possibilities of the Renaissance marketplace Thereafter Welch looks at the impact these attitudes had on the developing urban spaces of Renaissance cities before turning to more transient forms of sales such as fairs auctions and lotteries In the third section she examines the consumers themselves asking how the mental verbal and visual images of the market shaped the business of buying and selling Finally the book explores two seemingly very different types of commodities antiquities and indulgences both of which posed dramatic challenges to contemporary notions of market value and to the concept of commodification itself
