Arts & Decoration , 1926 **117 House Designs of the Twenties** Gordon-Van Tine Co., 2012-12-25 In the post World War I era as the economic boom of the 1920s gathered momentum millions of Americans set out to make the dream of owning their own home come true Labor and materials were plentiful and cheap and new trends in home design made the prospect of homebuilding an exciting venture This fascinating book a reprint of a rare catalog of prefabricated houses from 1923 reveals in detail the types of design offered to those in the market for a new home in the early 1920s Of the 117 designs included most are substantial middle class homes But the popularity of cottages and bungalows is also apparent in the wide selection of practical and appealing designs depicted And there are large formal homes as well many of which embody America's unflagging interest in colonial styling Some have affluent touches such as a sleeping porch or a sun room Many reflect a strong interest in exterior detailing in the form of cypress siding broad eaves heavy timber brackets stucco pillars and flower boxes among other features Each house is shown in a large frontal illustration Floor plans for the first and second floors are included and interior and exterior detailing are extensively described The specifics of plumbing heating and lighting are included in a special section at the back of the book Architects architectural and social historians anyone interested in American home design will enjoy the rich variety of designs presented Republished in association with the Athenaeum of Philadelphia this authentic catalog provides not only an indispensable repository of information about the homes themselves but a source of insight into American life at a time when owning a home became a widely realizable dream for a rapidly growing middle class **American Home Life, 1880-1930** Jessica H. Foy, 2024-07-31 In the pivotal decades

around the turn of the century American domestic life underwent dramatic alteration From backstairs to front stairs spaces and the activities within them were radically affected by shifts in the larger social and material environments This volume while taking account of architecture and decoration moves us beyond the study of buildings to the study of behaviors particularly the behaviors of those who peopled the middle class single family detached American home between 1880 and 1930 The book s contributors study transformations in services such as home utilities of power heat light water and waste removal in servicing for example the impact of home appliances such as gas and electric ranges washing machines and refrigerators and in serving changes in domestic servants duties hours of work racial and ethnic backgrounds In blending intellectual and home history these essays both examine and exemplify the perennial American enthusiasm for as well as anxiety about the meaning of modernity
