Sun At Noon An Anatomy Of Modern Japan:

The Sun at Noon Dick Wilson,1986 **Japan and the Sino-Soviet Alliance, 1950-1964** C. Braddick,2003-12-09
Japan and the Sino Soviet Alliance 1950 1964 reveals the divisive impact of the Sino Soviet Alliance on Japanese domestic politics and foreign relations during the turbulent years between 1950 and 1964 Drawing on extensive Japanese sources and unprecedented access to previously classified government documents C W Braddick exposes the myths shrouding this formative era in Japan s postwar development **China in the Era of Deng Xiaoping: A Decade of Reform** M.Y.M. Kau,Susan H. Marsh,Michael Ying-mao Kau,2016-09-16 This is a reference on the ten years 1978 to 1987 of Deng Xiaoping s power in China It also offers the views of Sinologists of the time The concluding section examines policy implications arising from Deng s rule for the four great East Asian powers *Eastern Phoenix* Mikiso Hane,2018-02-05 It has been fifty years since Japan admitted defeat and accepted the terms of the Potsdam Declaration following World War II At the time Japan was in shambles its imperial dream shattered and its people reduced to scrounging for sufficient food to stay alive Yet over the past half century Japan has remade itself and emerged as one of the leading economic powers in the world How did Japan achieve this success and what has this remarkable rebirth meant for the Japanese people In *Eastern Phoenix* Mikiso Hane closely examines historical factors that have contributed to Japan s postwar development politically economically socially and culturally Beginning with the occupation by U S forces under Gen Douglas MacArthur Hane shows how American reforms and initiatives combined with the political actions of subsequent Japanese leaders to create a country able to forge ahead economically while retaining many traditional aspects of prewar Japanese society In addition to presenting a narrative overview of important events since 1945 *Eastern Phoenix* provides insight into the evolution of Japan s foreign relations internal effects of prosperity on Japanese society and problems that remain despite extraordinary progress The book critically examines such media hot topics as education environmental degradation organized crime racial and class discrimination the Japanese work ethic and the role of women in society To provide useful context for student readers Hane frequently punctuates his discussion by contrasting Japanese statistics with those of the United States The book also excels in examining how artists and writers have grappled with Japan s rapidly evolving contemporary history and Hane points the reader toward books and films that can shed additional light on Japanese perceptions of the past fifty years [Japanese Perceptions of China in the Nineteenth Century](#) Sushila Narsimhan,1999 *Informality and Monetary Policy in Japan* Adrian van Rixtel,2002-10-31 The success and misfortunes of the post war Japanese economy has been one of the most debated points in modern economics Many explanations focus on cultural and institutional factors and in particular the role of Informality networks organizing business activity and government policy Adrian van Rixtel an economist at the European Central Bank provides a quantitative and qualitative assessment of Informality in the formation of Japanese monetary policy Having been based in Japan for three years two years of which were spent at the Institute for Monetary and Economic

China's Relations with Japan in an Era of Economic Liberalisation Dong Dong Zhang,1998 The main purpose of this book is to explore the influences of reform on changes in China s economic relations with Japan after the late 1970s There are three reasons for investigating the links between Chinese reform and bilateral economic relations at this particular juncture in history First in the past two decades reform has meant that China has enjoyed faster economic growth than Japan This has transformed the pattern of bilateral economic relations hitherto characterised by an industrial Japanese economy and a resource based Chinese economy a result of Japan s successful industrialisation and China s failure to industrialise in the previous hundred years Second reform has brought about the deepening of the interdependence between the Chinese economy and the world economy Through links with the world economy the Chinese economy has not only come to rely on foreign countries for technology capital markets and management skills but has itself become a growth pole exerting a strong impact on world economic growth In the reform era economic relations between China and Japan have been woven into regional and global economic networks of trade an investment Third reform has transformed the management of China s domestic and external economic activities
