Sunburnt Country:

The Sunburnt Country Society of Australian Writers, 1954 Collection of essays on Australia written by The Society of Australian Writers in Great Britain as a tribute to H M Queen Elizabeth II includes a few references to Aborigines article by J McLaren with observations on Aboriginal life style and customs *In a Sunburned Country* Bill Bryson, 2012-05-15 Deliciously funny fact filled and adventurous *In a Sunburned Country* takes us on a grand tour of Australia It s a place where interesting things happen all the time from a Prime Minister lost yes lost while swimming at sea to Japanese cult members who may entirely unnoticed have set off an atomic bomb on their 500 000 acre property in the great western desert Australia is the only island that is also a continent and the only continent that is also a country Its aboriginal people a remote and mysterious race with a tragic history have made it their home for millennia And despite the fact that it is the most desiccated infertile and climatically aggressive of all inhabited continents it teems with life In fact Australia has more things that can kill you in extremely nasty ways than anywhere else sharks crocodiles the planet s ten most deadly poisonous snakes fluffy yet toxic caterpillars sea shells that actually attack you and the unbelievable box jellyfish don t ask The dangerous riptides of the sea and the sun baked wastes of the outback both lie in wait for the unwary Australia is an immense and fortunate land and it has found in Bill Bryson its perfect guide *In a Sunburned Country* offers the best of all possible introductions to what may well be the best of all possible nations Even with those jellyfish **The Rotarian** , 1957-10 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine **When London Calls** Stephen Alomes, 1999-10-11 For thousands of young Australians the tearful dockside farewell was a rite of passage as they boarded ships bound for London For some the journey was an extended holiday but for many actors painters musicians writers and journalists leaving Australia seemed to be the only path to personal and professional fulfilment This book first published in 2000 is a collective biography of those people who found themselves categorised as expatriates people such as Leo McKern Dame Joan Sutherland Barry Tuckwell Don Banks Phillip Knightley John Pilger Peter Porter Richard Neville Jill Neville and megastars Barry Humphries Germaine Greer and Clive James The book tells of choices they made about career and country yet it is also a cultural history that traces shifts in the complex relationship between Australia and Britain as the supposed colonial backwater began to develop its own cultural identity **Endurance** Deb Anderson, 2014-11-05 Endurance presents stories of ordinary Australians grappling with extraordinary circumstances providing insight into their lives their experiences with drought and their perceptions of climate change The book opens with the physical impacts science politics and economics of drought and climate change in rural Australia It then highlights the cultural and historical dimensions taking us to the Mallee wheat belt where researcher Deb Anderson interviewed farm families from 2004 to 2007 as climate change awareness grew

Each story is grouped into one of three themes Survival Uncertainty and Adaptation Illustrated with beautiful colour photographs from Museum Victoria Endurance will appeal to anyone with an interest in life stories rural Australia and the environment

Highway to Hell Joëlle Gergis, 2024-06-03 What will the climate crisis mean for Australia What is the price of our inertia Australia is in peril Do we truly grasp the impact of a warming planet in particular what it will mean for our sunburnt country As temperatures rise the climates of our capital cities will change The sea will rise and we will see increased fire and drought In this powerful essay Joëlle Gergis a leading climate scientist depicts the likely future in vivid and credible detail Working from the science she discusses the world's and Australia's efforts to combat climate change She outlines how far Australia is from keeping its promises to cut emissions She takes aim at false solutions and the folly of adaptation rather than curbing fossil fuel use This is an essay about government paralysis and what is at stake for all of us It's about getting real in the face of an unprecedented threat How many disasters does it take to wake people up to the fact that Australia's climate is becoming more extreme with today's destruction set to be dwarfed by things to come Do people realise that adapting to climate change won't be possible in some parts of the country Joëlle Gergis Highway to Hell This essay contains correspondence relating to Quarterly Essay 93 Bad Cop from Niki Savva Thomas Mayo Lachlan Harris Mark Kenny Robert Wood Paul Strangio and Lech Blaine

Drought and the Human Story R.L. Heathcote, 2016-05-13 Drought has been a long companion in the human story Mythologised as the devastating Bull of Heaven in one of the earliest heroic legends to come out of Mesopotamia drought has continued to wreak havoc upon societies in many cases playing a significant role in their final demise For societies in the 21st Century drought hovers on all horizons the ultimate drought proofing of society long sought remains elusive This study of the human conceptualization of drought in a global setting examines the historical record from early human society through to present day concerns to explore how and why attitudes to drought have changed and why the mitigation of its impacts has become more difficult To offer a more lasting strategy for protection against drought the author argues that physical scientists need to combine their skills in understanding global ecology and their technological expertise with the social scientists awareness of the socio economic political and cultural contexts in which modern societies operate Both will have to ensure that their cooperative strategies for drought management will be understood and supported by the public If this cooperation can be achieved the future rampages of the Bull of Heaven may be contained
