court to enforce their right to religious liberty Funded by conservative lobby groups and influenced by the legal strategies of their American peers these claimants registrars who conscientiously object to performing the marriages of same sex couples say or employees asking for exceptions to uniform policies that forbid visible crucifixes highlight the uneasy truce between law and religion in a country that maintains an established Church but is wary of public displays of religious conviction

Representing God charts the changing place of public Christianity in England through the rise of Christian political activism and litigation Based on two years of fieldwork split between a conservative Christian lobby group and a conservative evangelical church M adhbh McIvor explores the ideas and contested reception of this ostensibly American inspired legal rhetoric She argues that legal challenges aimed at protecting Christian values ultimately jeopardize those values as moralities woven into the fabric of English national life are filtered from their quotidian context and rebranded as the niche interests of a cultural minority By framing certain moral practices as specifically Christian these activists present their religious convictions as something increasingly set apart from broader English culture thereby hastening the secularization they seek to counter Representing God offers a unique look at how Christian politico legal activism in England simultaneously responds to and constitutes the religious life of a nation *Faith in Unions* David Isiorho,2022-09-07 Faith in Unions is a personal account representing a critique of Whiteness and Black marginality in the Faith Workers Trade Union In short it is a Black theology critique of the way Muslim and Hindu faith workers have been treated in the British Labour movement This book clearly has things to say about discriminatory practices which puts the discussion about Englishness and Britishness into a wider context I am suggesting a political agenda associated with English ethnicity as the mode of involvement to explain policies that are likely to result in racialised religious exclusion Faith in Unions gives focus to Muslim and Hindu workplace groupings within the Faith Workers Branch and the opposition to their formation from Anglican and Methodist Christian members I am concerned with the struggle for faith recognition within a discriminatory and institutionally racist union structure This book offers an explicit exploration of what I mean by the racialised other in the context of the British Labour movement In this we need to understand the ways historical Christianity has defined Black identities My conclusion hopefully will start a wider discussion of Englishness and English exclusivity *The New Television Handbook* Jonathan Bignell,Jeremy Orlebar,Patricia Holland,2017-07-14 The New Television Handbook provides an exploration of the theory and practice of television at a time when the medium is undergoing radical changes The book looks at television from the perspective of someone new to the industry and explores the place of the medium within a constantly changing digital landscape This title discusses key skills involved in television production including producing production management directing camera sound editing and visual effects Each of these activities is placed within a wider context as it traces the production process from commissioning to post production The book outlines the broad political and economic context of the television industry It gives an account of television genres in particular narrative factual programmes and

news and it considers the academic discipline of media studies and the ways in which theorists have analysed and tried to understand the medium It points to the interplay of theory and practice as it draws on the history of the medium and observes the ways in which the past continues to influence and invigorate the present The New Television Handbook includes contributions from practitioners ranging from established producers to new entrants a comprehensive list of key texts and television programmes a revised glossary of specialist terms a section on training and ways of getting into the industry By combining theory real world advice and a detailed overview of the industry and its history The New Television Handbook is an ideal guide for students of media and television studies and young professionals entering the television industry
