one of China's greatest poets and explores the nineteenth century background to Chinese modernity challenging the widely held view that this is largely of Western origin The volume contains a study of Zheng's life and times an examination of his thought and literary theory and four chapters studying his highly original contributions to poetry on the human realm nature verse narrative poetry and the poetry of ideas including his writings on science and technology Over a hundred pages of translations of his verse conclude the work *Light Years* Susanna Moore, 2007 A memoir by the author of *In the Cut* and *The Big Girls* describes growing up in Hawai'i interweaving her memories of childhood and adolescence with excerpts from some of her favorite pieces of literature **Voices of East Asia** Margaret Childs, Nancy Hope, 2015-03-12 *Voices of East Asia* provides significant yet accessible readings in translation chosen to stimulate interest in the long and rich cultural history of East Asia the countries of China Japan and Korea The readings range from ancient to modern elite to popular and include poetry stories essays and drama Each section begins with a broad but brief overview of that country's political and cultural history Each reading is preceded by a concise explanation of its literary and cultural context As expertise in East Asian studies has exploded in the West in recent decades a novice could be overwhelmed by all the materials available now In this volume however the reader will find a manageable set of texts that may be read on their own as part of a world literature course or as supplementary readings for an East Asian history class As economic and political news from East Asia sweeps across the world this anthology aims to provide a taste of the enduring traditions upon which contemporary East Asia is built a glimpse into the hopes and fears love and sorrow in the hearts of the people behind the headlines This anthology will be welcomed by students and scholars of Asian history culture society and literature **Planet on the Table** Sharon Bryan, William Olsen, 2003 Essential reading for the student of creative writing and all writers **Historical Dictionary of Chinese Culture** Lawrence R. Sullivan, Nancy Liu-Sullivan, 2021-03-29 Covering wide ranging topics from the arts and entertainment to customs and traditions from the ancient imperial and modern eras *Historical Dictionary of Chinese Culture* provides more than 300 separate entries along with a comprehensive chronology glossary of Chinese cultural terms and an extensive bibliography of Western and Chinese language sources Dictionary entries of the decorative and fine arts include ceramics and porcelains handicrafts jade and seal carving jewelry and painting The literary subjects range from fiction to non-fiction but especially poetry Major entertainment venues of cinema and film classical puppetry and theater both ancient and modern are also covered In addition to the arts the authors include major customary practices from childbirth and childrearing to marriage and weddings to funerals and burial practices Other aspects of the culture are also examined including crime foot binding pornography and prostitution and the government policies aimed at their eradication Throughout the text Chinese language translations of key terms are presented in italics and parenthesis along with biographies of figures central to the creation of China's magnificent cultural heritage **Baudelaire in China** Gloria Bien, 2012-12-14 Baudelaire's work entered China in the twentieth century amidst political and social upheavals accompanied

by a literary revolution that called for classical models and modes of expression to be replaced by vernacular language and contemporary content Chinese writers welcomed their meeting with the West and openly embraced Western literature as providing models in developing their new literature Baudelaire's reception in China provides a representative study of this meeting of East and west His work which has been declared to stand between tradition and modernity also lies at the intersection between classical and modern literature in China Many of the best known and most highly regarded writers in twentieth century China were drawn to Baudelaire's work and some addressed it directly in their own writings Bien draws upon H R Jauss's theory of the shifting and expanding horizons of expectation in the reading and interpretation of a literary work and upon James J Y Lin's notion of worlds received and created by both author and reader to show how poetic lines images and ideas as well as Chinese critics comments eventually weave into a rich picture of Baudelaire's reception in China

Ancient and Early Medieval Chinese Literature (Vol. I), 2010-09-10 At last here is the long awaited first Western language reference guide focusing exclusively on Chinese literature from ca 700 B C E to the early seventh century C E Alphabetically organized it contains no less than 1095 entries on major and minor writers literary forms and schools and important Chinese literary terms In addition to providing authoritative information about each subject the compilers have taken meticulous care to include detailed up to date bibliographies and source information The reader will find it a treasure trove of historical accounts especially when browsing through the biographies of authors Indispensable for scholars and students of pre modern Chinese literature history and thought Part One contains A to R The Inner Quarters Patricia Buckley Ebrey, 1993-12 Opening up questions about women's lives about gender about why we read history at all and how we write it Patricia Buckley Ebrey has made The Inner Quarters a place we need to enter from the Foreword Ideology, Power, Text Yi-tsi Mei Feuerwerker, 1998-10-01 The division between the scholar gentry class and the people was an enduring theme of the traditional Chinese agrarian bureaucratic state Twentieth century elites recast this as a division between intellectuals and peasants and made the confrontation between the writing intellectual self and the peasant other a central concern of literature The author argues that in the process they created the peasantry the downtrodden rural masses represented as proper objects of political action and shifting ideological agendas Throughout this transition language or discourse has been not only a weapon of struggle but the center of controversy and contention Because of this primacy of language the author's main approach is the close reading or rather re reading of significant narrative fictions from four literary generations to demonstrate how historical ideological and cultural issues are absorbed articulated and debated within the text Three chapters each focus on one representative author The fiction of Lu Xun 1881 1936 which initiated the literary preoccupation with the victimized peasant is also about the identity crisis of the intellectual Zhao Shuli 1906 1970 upheld by the Communist Party as a model peasant writer tragically exemplifies in his career the inherent contradictions of such an assigned role In the post Mao era Gao Xiaosheng 1928 uses the ironic play of language to present a more ambiguous

peasant while deflating intellectual pretensions The chapter on the last of the four generations examines several texts by Mo Yan 1956 Han Shaogong 1952 and Wang Anyi 1954 as examples of root searching fiction from the mid 1980 s While reaching back into the past this fiction is paradoxically also experimental in technique the encounter with the peasant leads to questions about the self construction of the intellectual and the nature of narrative representation itself Throughout the focus is on texts in which some sort of representation or stand in of the writer intellectual self is present as character as witness as center of consciousness or as first person or obtrusive narrator Each story catches the writer in a self reflective mode the confrontation with the peasant other providing a theater for acting out varying dramas of identity power ideology political engagement and self representation

The Qing Dynasty and Traditional Chinese Culture Richard J. Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China s preoccupation with order unity and harmony contributed to the civilization s remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society

Wang Kuo-wei's Jen-chien Tz'u-hua A.A. Rickett, 1977-09-01 In the first decade of the twentieth century while other intellectuals were concerned with translating works of political and scientific import into Chinese Wang Kuo wei 1877 1927 looked to Western philosophy to find answers to the fundamental questions of human life He was the first Chinese to translate Schopenhauer and Nietzsche into Chinese and to apply their views of aesthetics to Chinese literature The influence of their concepts of genius and the sublime can easily be seen in his *Jen chien tz u hua* Wang was also indebted to Chinese critics for the development of his theories regarding the sphere of individuality that each poem represents *ching chieh* a theory that places him among the ranks of China s greatest literary critics Innovative as he was in his concepts of poetry however Wang chose to convey those concepts in the traditional form of poetic criticism the *tz u hua* or talks on poetry Thus this translation of the complete edition of his *Jen chien tz u hua* not only adds to the Westerner s knowledge of Chinese literary criticism but also provides insight into the way in which Chinese communicated with each other about their literature

The Promise and Premise of Creativity Eugene Eoyang, 2012-07-12 The Promise and Premise of Creativity considers

literature in the larger context of globalization and the clash of cultures Refuting the view that the study of literature is useless Eoyang argues that it expands three distinct intellectual skills creative imagination vicarious sympathy and capacious intuition With the advent of the personal computer and the blurring of cultural and economic boundaries it is the ability to imagine to intuit and to invent that will mark the educated student and allow her to survive the rapid pace of change As never before the ability to empathize with other peoples to understand cultures very different from one's own is vital to success in a globalized world In this the very uselessness of literature may inure the mind to think creatively Engaging with both the theory and practice of literature its past and its potential future Eoyang claims that our sense of the world at large of the salient similarities and differences between cultures would be critically diminished without comparative literature

The Zoomorphic Imagination in Chinese Art and Culture Jerome Silbergeld, Eugene Y. Wang, 2016-10-31 China has an age old zoomorphic tradition The First Emperor was famously said to have had the heart of a tiger and a wolf The names of foreign tribes were traditionally written with characters that included animal radicals In modern times the communist government frequently referred to Nationalists as running dogs and President Xi Jinping vowing to quell corruption at all levels pledged to capture both the tigers and the flies Splendidly illustrated with works ranging from Bronze Age vessels to twentieth century conceptual pieces this volume is a wide ranging look at zoomorphic and anthropomorphic imagery in Chinese art The contributors leading scholars in Chinese art history and related fields consider depictions of animals not as simple one for one symbolic equivalents they pursue in depth in complexity and in multiple dimensions the ways that Chinese have used animals from earliest times to the present day to represent and rhetorically stage complex ideas about the world around them examining what this means about China past and present In each chapter a specific example or theme based on real or mythic creatures is derived from religious political or other sources providing the detailed and learned examination needed to understand the means by which such imagery was embedded in Chinese cultural life Bronze Age taotie motifs calendrical animals zoomorphic modes in Tantric Buddhist art Song dragons and their painters animal rebuses Heaven sent auspicious horses and foreign sent tribute giraffes the fantastic specimens depicted in the Qing Manual of Sea Oddities the weirdly indeterminate creatures found in the contemporary art of Huang Yong Ping these and other notable examples reveal Chinese attitudes over time toward the animal realm explore Chinese psychology and patterns of imagination and explain some of the critical means and motives of Chinese visual culture *The Zoomorphic Imagination in Chinese Art and Culture* will find a ready audience among East Asian art and visual culture specialists and those with an interest in literary or visual rhetoric Contributors Sarah Allan Qianshen Bai Susan Bush Daniel Greenberg Carmelita Carma Hinton Judy Chungwa Ho Kristina Kleutghen Kathlyn Liscomb Jennifer Purtle Jerome Silbergeld Henrik S.
