Sunnyvale From The City Of Destiny To The Heart Of The Silicon Valley:

Sunnyvale Mary Jo Ignoffo, 1994 **Garden of the World** Cecilia M. Tsu, 2013-06-01 Garden of the World examines how overlapping waves of Chinese Japanese and Filipino immigrants fundamentally altered the agricultural economy and landscape of the Santa Clara Valley as well as white residents ideas about race gender and what it meant to be an American family farmer **Working-Class Kids and Visionary Educators in a Multiracial High School** Karen V.

Hansen, 2024-10-15 In the 1960s and 1970s when many communities resisted school integration and schools held low expectations for working class kids and constricted teachers autonomy educators and students at a multiracial public high school in California collaborated to achieve something remarkable they created a cohesive community that gave students a powerful sense of belonging Over its 25 year life the student leaders of Sunnyvale High School worked with visionary staff to reduce violence broaden and enrich the curriculum to include US Black history and Mexican American literature and increase girls access to sports Working together they fostered a collective sense of pride persistence and possibility that fed the success of students and graduates in careers and in communities How did adults and youth forge such a powerful ethos of engagement and mutual responsibility enabling so many to thrive At a time when issues of racial and gender inequality are arguably as heated as they were half a century ago what lessons does the school offer In this book the story of Sunnyvale High School is told by the students and educators who shaped it and made it meaningful They attest to the lifelong impact of their shared experience Unequal Sisters Stephanie Narrow, Kim Cary Warren, Judy Tzu-Chun Wu, Vicki L Ruiz, 2023-08-28

J.A. English-Lueck, 2017-08-29 Since the initial publication of *Cultures@SiliconValley* fourteen years ago much has changed in Silicon Valley The corporate landscape of the Valley has shifted with tech giants like Google Facebook LinkedIn and Twitter vying for space with a halo of applications that connect people for work play romance and education Contingent labor has been catalyzed by ubiquitous access to the Internet on smartphones enabling ride sharing services like Uber and Lyft and

space sharing apps like Airbnb Entrepreneurs compete for people's attention and screen time Alongside these changes daily life for all but the highest echelon has been altered by new perceptions of scarcity risk and shortage Established workers and those new to the workforce try to adjust The second edition of *Cultures Silicon Valley* brings the story of technological saturation and global cultural diversity in this renowned hub of digital innovation up to the present In this fully updated edition J A English Lueck provides readers with a host of new ethnographic stories documenting the latest expansions of Silicon Valley to San Francisco and beyond The book explores how changes in technology especially as mobile phones make the Internet accessible everywhere impact work family and community life The inhabitants of Silicon Valley illustrate in microcosm the social and cultural identity of the future

Uninvited Neighbors Herbert G. Ruffin, 2014-03-28 In the late 1960s African American protests and Black Power demonstrations in California's Santa Clara County including what's now called Silicon Valley took many observers by surprise After all as far back as the 1890s the California constitution had legally abolished most forms of racial discrimination and subsequent legal reform had surely taken care of the rest White Americans might even have wondered where the black activists in the late sixties were coming from because beginning with the writings of Fredrick Jackson Turner the most influential histories of the American West simply left out African Americans or later portrayed them as a passive and insignificant presence *Uninvited Neighbors* puts black people back into the picture and dispels cherished myths about California's racial history Reaching from the Spanish era to the valley's emergence as a center of the high tech industry this is the first comprehensive history of the African American experience in the Santa Clara Valley Author Herbert G Ruffin II's study presents the black experience in a new way with a focus on how despite their smaller numbers and obscure presence African Americans in the South Bay forged communities that had a regional and national impact disproportionate to their population As the region industrialized and spawned suburbs during and after World War II its black citizens built institutions such as churches social clubs and civil rights organizations and challenged socioeconomic restrictions Ruffin explores the quest of the area's black people for the postwar American Dream The book also addresses the scattering of the black community during the region's late yet rapid urban growth after 1950 which led to the creation of several distinct black suburban communities clustered in metropolitan San Jose Ruffin treats people of color as agents of their own development and survival in a region that was always multiracial and where slavery and Jim Crow did not predominate but where the white embrace of racial justice and equality was often insincere The result offers a new view of the intersection of African American history and the history of the American West

Valley of Heart's Delight Anne Marie Todd, 2022-10-25 This agricultural history explores the transformation of the Santa Clara Valley over the past one hundred years from America's largest fruit producing region into the technology capital of the world In the latter half of the twentieth century the region's

focus shifted from fruits such as apricots and prunes to computers Both personal and public rhetoric reveals how a sense of place emerges and changes in an evolving agricultural community like the Santa Clara Valley Through extensive archival research and interviews Anne Marie Todd explores the concepts of place and placelessness arguing that place is more than a physical location and that exploring a community's sense of place can help us to map how individuals experience their natural surroundings and their sense of responsibility towards the local environment Todd extends the concept of sense of place to describe Silicon Valley as a non place where weakened or disrupted attachment to place threatens the environment and community The story of the Santa Clara Valley is an American story of the development of agricultural lands and the transformation of rural regions **Silicon Valley** Jean Deitz Sexton,1992 **American Book Publishing Record** ,1995

Newcomer's Handbook for Moving to San Francisco and the Bay Area First Books,Michael Bower,Ruth Rayle,2001-05 **Bibliographic Index** ,1998 Subject Guide to Books in Print ,1971 **Silicon Valley 2010** ,1998
