The contributors to this book, all experts in teaching legal research, challenge academic law librarians to seize their instructional role in the legal academy. This book was based on a special issue of *Legal Reference Services Quarterly*. *Teaching International Law*, 2023-12-18. Teaching International Law is a topic of great importance in international law academia. In the past, renowned international lawyers and research institutions have dealt with this matter. This book brings together a larger number of established international lawyers who not only present the state of the art of this discipline but also their own vision and perspective. Traditionally, teachers of international law had considerable influence on the development and the understanding of this subject. The international legal system has profoundly changed but in time of enormous challenges for the survival of mankind, the voice of the teachers should again be heard. Teamwork and Collaboration in Libraries Marc B. Silverman, 2001. This practical book addresses the specific tasks of planning, organizing, and administering a successful library consortium. *Teamwork and Collaboration in Libraries: Tools for Theory and Practice* presents case studies of resource sharing within university library systems, between special interest libraries, and between academic and public libraries. Thoughtful analyses discuss the perils and benefits of consortia. This comprehensive book provides all the information you will need before undertaking a library collaboration. *Proceedings of the International Conference on Advancing and Redesigning Education 2023* Mohd Fakhizan bin Romlie, Siti Haryani Shaikh Ali, Zolman Bin Hari, Meng Chew Leow, 2024-07-13. While the digital revolution has touched every aspect of law librarianship, perhaps nowhere has the effect been more profound than in the area of collection development. Many of the materials law libraries traditionally collected in print form are now available in electronic format. Digital technology has affected the way we select, order, and process legal materials. The World Wide Web has created an explosion of both commercial and private online publishing. The cost of electronic publishing has caused many traditional law book publishers to sell their companies rather than invest in the needed technologies to compete in the 21st century. Small publishers and book jobbers have been forced to reinvent themselves. The amount of legal information available and its costs continue to soar. *Law Library Collection Development in the Digital Age* deals with these and other issues related to law library collection development. Chapters range from the theoretical to the practical. Inspired by Penny Hazleton's seminal paper *How Much of Your Print Collection is Really on Lexis or Westlaw*, the editors and chapter authors of *Law Library Collection Development in the Digital Age* endeavor to expand on professor Hazleton's work with examinations of the role of
