**Teaching Popular Culture** David Buckingham,2002-01-04 Teaching about the media and popular culture has been a major concern for radical educators Yet in recent years the hyperbolic rhetoric of critical pedagogy has come under attack not only from theoretical perspectives such as feminism anti racism and postmodernism but also in The Light Of Actual Classroom Experience The Notion That Teachers Might liberate students through rationalistic forms of ideological critique has been increasingly questioned not only on the grounds of its political arrogance but also because of its ineffectiveness in practice This book seeks to move beyond the limitations of these debates and to explore positive alternatives It contains a broad international range of contributions covering practice from primary schools right through to higher education The authors draw on diverse perspectives including poststructuralism postmodernism cultural studies anti racism and feminism yet they share a willingness to challenge radical orthodoxies and to offer positive practical alternatives

**Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts, Volume II** James Flood, Shirley Brice Heath, Diane Lapp,2015-04-22 The Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts Volume II brings together state of the art research and practice on the evolving view of literacy as encompassing not only reading writing speaking and listening but also the multiple ways through which learners gain access to knowledge and skills It forefronts as central to literacy education the visual communicative and performative arts and the extent to which all of the technologies that have vastly expanded the meanings and uses of literacy originate and evolve through the skills and interests of the young A project of the International Reading Association published and distributed by Routledge Taylor Francis Visit <http://www.reading.org> for more information about International Reading Association books membership and other services

**Popular Culture Studies Across the Curriculum** Ray B. Browne,2005-01-13 Academic curricula are being strengthened and enriched through the enlightened realization that no discipline is complete unto itself In the interdisciplinary studies that result the one theme that remains universal is popular culture Academia throughout the disciplines is rapidly coming to understand that it should be used in courses campus wide and on all levels All in the world of education benefit from the use of the cultures around them This work emphasizes the need for interdisciplinary mingling and explores the ways in which instructors can utilize popular culture studies in order to deepen both their own areas of specialization and their students appreciation of education The collection of 18 essays spans campus curricula including the humanities English literature American studies folklore and popular culture the social sciences anthropology history sociology and communications religion and philosophy geography women s studies economics and sports Also addressed is the importance of popular culture courses in both community colleges and high school settings

**Youth Identities, Localities, and Visual Material Culture** Kristen Ali Eglinton,2012-10-05 This invaluable addition to Springer s Explorations of Educational Purpose series is a revelatory ethnographic account of the visual material culture of

contemporary youths in North America The author s detailed study follows apparently dissimilar groups black and Latino a in a New York City after school club and white and Indigenous in a small Canadian community as they inflect their nascent identities with a sophisticated sense of visual material culture in today s globalized world It provides detailed proof of how much ethnography can add to what we know about young people s development in addition to its potential as a model to explore new and significant avenues in pedagogy Supported by a wealth of ethnographic evidence the analysis tracks its subjects responses to strikingly diverse material ranging from autobiographical accounts by rap artists to the built environment It shows how young people from the world s cultural epicenter just like their counterparts in the sub Arctic construct racial geographic and gender identities in ways that are subtly responsive to what they see around them blending localized characteristics with more widely shared visual references that are now universally accessible through the Web The work makes a persuasive case that youthful engagement with visual material culture is a relational and productive activity that is simultaneously local and global at once constrained and enhanced by geography and possesses a potent and life affirming authenticity Densely interwoven with young people s perspectives the author s account sets out an innovative and interdisciplinary conceptual framework affording fresh insights into how today s youth assimilate what they perceive to be significant Supported by a wealth of ethnographic evidence the analysis tracks its subjects responses to strikingly diverse material ranging from autobiographical accounts by rap artists to the built environment It shows how young people from the world s cultural epicenter just like their counterparts in the sub Arctic construct racial geographic and gender identities in ways that are subtly responsive to what they see around them blending localized characteristics with more widely shared visual references that are now universally accessible through the Web The work makes a persuasive case that youthful engagement with visual material culture is a relational and productive activity that is simultaneously local and global at once constrained and enhanced by geography and possesses a potent and life affirming authenticity Densely interwoven with young people s perspectives the author s account sets out an innovative and interdisciplinary conceptual framework affording fresh insights into how today s youth assimilate what they

perceive to be significant      **Teaching Popular Culture** David Buckingham,1997-07 This text seeks to move beyond the limitations of critical pedagogy in modern education drawing on perspectives such as poststructuralism postmodernism cultural studies and feminism and seeks to offer positive alternatives      **Evaluating Creativity** Dr Julian Sefton-Green,Julian Sefton-Green,Rebecca Sinker,2005-08-12 Evaluating Creative Practice discusses the function of evaluation in general the role of formal assessment and its relation with informal evaluation the role of the audience for the creative product the value of making within the subject discipline the balance within the subject paid to product and process the role of reflection and the place of the students voice Examples of practice from subject disciplines English Art Music Drama Media Studies Design and Technology Gallery Education and Digital Arts will enable those involved with primary secondary further higher gallery and community education to learn from each other and to develop a coherent approach to the range of creative work produced by young people By focusing on questions of evaluation and containing a range of practical examples the book sets an agenda for creative work by young people in the school curriculum and beyond

**Studying Urban Youth Culture Primer** Greg Dimitriadis,2008 This book provides a concise introduction to the practical and theoretical complexities of studying urban youth culture today Looking across disciplines such as anthropology sociology and education Dimitriadis explores the ways urban youth have been framed in often limiting and problematic ways in the popular and academic imagination Moving beyond critique alone this highly accessible primer opens a discussion about what a truly powerful emergent field of critical youth studies might look like Looking toward the future of this field this book discusses the most important methodological and substantive trends and issues scholars will be addressing now and in the years to come The Studying Urban Youth Culture Primer is an indispensable text for students in a range of qualitative methods and urban education courses      **Literacies Across Media** Margaret Mackey,2007-01-26 This thought provoking fascinating and highly informative text offers both a vivid account of a group of young readers coming to terms with texts and a radical perspective on the growth of a generation of young readers      *Rethinking Knowledge Within Higher Education* Jan McArthur,2013-01-24 Explores the relationship between knowledge in higher education and social justice      Literacy and Power Hilary Janks,2009-10-16 Hilary Janks addresses key questions about literacy and power in this landmark text that is both engaging and accessible Her central argument is that competing orientations to critical literacy education domination power access diversity design foreground one over the other but are crucially interdependent and need to work together to create possibilities for redesign and social action that serve a social justice agenda She examines the theory underpinning each orientation and develops new theory in the argument for interdependence and integration Sitting at the interface between theory and practice constantly moving from one to the other the text is rich with examples of how to use these orientations in real teaching contexts and how to use them to counterbalance one another In the groundbreaking final chapter Janks considers how the rationalist underpinning of critical literacy tends to exclude the non rational shows ways of

working beyond reason pleasure and play desire and the unconscious and makes the case that these need to be taken seriously given their power to cut across the work of critical literacy educators working from any orientation
