Pursuit Ludovic Kennedy, 1974 [The Sinking of the Bismarck](#) Charles River Charles River Editors, 2018-02-22 Includes pictures Includes accounts of the battles and the Bismarck s sinking by sailors on both sides Includes online resources and a bibliography for further reading Includes a table of contents The Bismarck had put up a most gallant fight against impossible odds worthy of the old days of the Imperial German Navy and she went down with her colours flying Vice Admiral John Cronyn Tovey commander of the task force fighting the Bismarck Immensely powerful and thickly armored armed with eight

15 inch guns aimed by one of the most sophisticated target acquisition systems of its day the Third Reich's premier battleship the KMS Bismarck left an indelible trail of legends behind it during its single fatal foray against the British in 1941 Victorious over the HMS Hood prowling the Arctic waters north of England and circling in a desperate effort to evade the Royal Navy and reach the safety of Brest in France the Bismarck's first and last combat voyage lasted a brief total of eight days Though well constructed for the most part and extremely formidable the KMS Bismarck did not represent the world's most powerful battleship at the time subsequent myth making notwithstanding The Americans Italians and indeed the pre invasion French already possessed equal or slightly superior combat craft The Japanese soon produced much stronger vessels Nevertheless Nazi Germany deployed no warship more powerful so the Bismarck's loss caused a disproportionately high loss of German morale and a similar boost to English confidence during one of the darkest periods of the war Naval warfare in 1941 sat on the cusp between the past when battleships and their massive gun batteries ruled the waves and the very near future when aircraft carriers proved stunningly dominant over ships armed only with artillery A single aircraft carrier involved itself in the pursuit and destruction of the Bismarck causing one of the pivotal events of Exercise Rhine through nearly wholly random chance The KMS Bismarck's destruction represented neither a predestined conclusion nor the result of the impending radical change in naval tactics and strategy The Bismarck sailed during the narrow window at the start of World War II when the battleship remained a viable independent instrument of war rather than the mobile defense for aircraft carriers or the floating artillery battery supporting shore operations it became Instead human decisions and pure chance conjoined to result in the Bismarck's destruction Admiral Gunther L tzens overall expedition commander committed several major errors during the operation Towards its end he wallowed in despair failing to carry through on several ruses devised by his subordinates which in the hands of a commander not already resigned to death might have tipped the scale to the Bismarck's survival Both sides made crucial errors but those of Gunther L tzens proved most decisive As Charles de Gaulle pithily observed Victory often goes to the army that makes the least mistakes not the most brilliant plans The sinking of the Bismarck demonstrated the truth of this aphorism A handful of poor choices at vital turning points on the part of one man L tzens decided the fate of the KMS Bismarck and cost the lives of 2 088 men aboard her or 94.7% of her crew including his own The Sinking of the Bismarck The History of the Battle that Destroyed Nazi Germany's Most Famous Battleship chronicles the demise of World War II's most famous ship Along with pictures of important people places and events you will learn about the Bismarck like never before in no time at all

Battlefront Great Britain. Public Record Office, 2001 In May 1941 the Bismarck broke out of the Baltic in a bid to threaten Britain's vital Atlantic convoys Over the next week huge forces of the Royal Navy and RAF Coastal Command were devoted to finding tracking and ultimately destroying the mighty German battleship In this volume 12 original documents recreate the dramatic search chase and sinking of the Bismarck It features colour maps illustrations plans personal documents reports and dispatches There is a colour cut away illustration of the Bismarck and deck plans

Bismarck Michael Tamelander, Niklas Zetterling, 2020-01-10 The author of Blitzkrieg covers one of the most dramatic events of the Second World War in an outstanding book about naval warfare World War II History When the German battleship Bismarck a masterpiece of engineering well armored with a main artillery of eight 15 inch guns left the port of Gotenhafen for her first operation on the night of May 18 1941 the British battlecruiser Hood and the new battleship Prince of Wales were ordered to find her quickly as several large convoys were heading for Britain On May 24 Bismarck was found off the coast of Greenland but the ensuing battle was disastrous for the British The Hood was totally destroyed within minutes with only three crewmen surviving and Prince of Wales was badly damaged The chase resumed until the German behemoth was finally caught this time by four British capital ships supported by torpedo bombers from the carrier Ark Royal The icy North Atlantic roiled from the crash of shellfire and bursting explosions until finally the Bismarck collapsed sending nearly two thousand German sailors to a watery grave Tamelander and Zetterling's work rests on stories from survivors and the latest historical discoveries The book starts with a thorough account of maritime developments from 1871 up to the era of the giant battleship and ends with a vivid account hour by hour of the dramatic and fateful hunt for the mighty Bismarck Nazi Germany's last hope to pose a powerful surface threat to Allied convoys Exciting story telling recreates the thrill of the hunt International Journal of Maritime History An epic sea chase and its vivid human details World War II
