Winslow Williams Clifford, 2013 Winslow Williams Clifford is one of the few historians so far who have addressed the history and culture of the so called Mamluk Sultanate 1250-1517 on the basis of theoretical models This volume is a posthumous publication of his doctoral thesis submitted in 1995 at the University of Chicago Through his skillful application of social theory Clifford succeeded in providing highly convincing evidence that the Mamluk rulers did not as was maintained for a long time constitute a static form of oriental despotism but was rather a highly differentiated society It was primarily based on compliance with a complex system of order that had established itself during the rule of the first sultans

Penetration of Brazil Jan Knippers Black, 2016-11-11 In this book a foreign affairs analyst takes a hard look at the influence that U S officials and organizations brought to bear between 1960 and 1976 on the armed forces and police large corporations political parties news media and regional development agencies of Brazil *Robert Michels, Political Sociology and the Future of Democracy* Juan Linz, 2017-07-05 These essays by the brilliant historian of political science Juan Linz comprise a remarkable intellectual review of the life and work of Robert Michels his major book *Political Parties and the dimensions of democracy* as a functioning system Linz elucidates the importance of Michels in a way that offers more than a mechanical view of political parties as some sort of precisely ordered system of authority and influence Instead Michels offers a view of politics that is bottom up and untidy what he calls a reciprocal deference structure Michels is not simply the father of the iron law of oligarchy but the idea of politics as a less than orderly network of responsiveness responsibility and accountability Linz demonstrates with magisterial power why Michels must be ranked as a foremost thinker in classical political sociology The remaining three segments of the volume cover areas with which Linz has also long been identified Each in its own way illumines aspects of Michels as well Time and Regime Change articulates differences between change within a regime and change of a regime sometimes hard to identify because of the elongated time frames involved The next essay explains why Spain is neither a traditional society nor a successful modern nation The reliance upon central authority displaced the hoped for evolution of a society based on representative democratic institutions The final section Freedom and Autonomy of Intellectuals and Artists is a topic that gripped Michels and Linz alike Freedom as a goal of the intelligentsia has been frustrated by those who provide ideological justification for repression of ideas and actions in the name of higher values This segment provides a bridge between Michels and Weber not to mention both of these major figures with Linz himself The role of state power in mediating intellectual freedom is the leitmotif that blankets the twentieth century The work is graced by a full length bibliography o **Political Violence, Crises and Revolutions (Routledge Revivals)** Ekkart Zimmermann, 2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violence Crises Military Coups D tat Revolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and corresponding empirical evidence The author continually highlights the sociostructural and political conditions of political violence crises and revolutions This exceptionally detailed and systematic inventory of theories and research on a classic triad of political science political violence crises and revolutions also includes a remarkable bibliography encompassing over 3000 items *The Politics of Clientelism* John Martz, 2017-12-02 In Latin America the state is the prime regulator coordinator and pace setter of the entire national system the apex of the pyramid from which patronage wealth power and programs flow The state bears responsibility for the realization of civic needs providing goods

and services to each citizen. Doing so requires the exercise and maintenance of social and political control. It is John Martz's contention that clientelism underlines the fundamental character of Latin American social and political life. As the modernizing bureaucratic state has developed in Latin America, there has been a concurrent shifting away from clientelistic relationships. Yet in one form or another, political clientelism still remains central. Clientelism occurs when large numbers of low status individuals, such as those in the slums of rural and underdeveloped areas, are protected by a powerful patron who defends their interests in return for deference or material reward. In Colombia, the rural patron has become a member of the higher clientelistic system as well; he is dependent on a patron who operates at the national level. This enables urban elites to mobilize low status clients for such acts as mass demonstrations of political loyalty to the regime. Thus, traditional clientelism has been modified through the process of modernization. Part One of *The Politics of Clientelism* examines Colombian politics focusing on the incarnation and traditional forms of clientelism. Part Two explores the policies of Colombian governance from the administrations of Lleras Camargo through Julio Cesar Turbay Ayala. Part Three discusses the modernization and restructuring of Colombia in recent decades under Belisario Betancur, Virgilio Barco, and Cesar Gaviria. As the modernizing bureaucratic state has unfolded, there has been a similar shift in many clientelistic relationships. Martz argues that whether corporate clientelism remains or more democratic organization develops.
